ROBINSON'S REPAIR SHOP A HIGH STANDARD OF AUTOMOTIVE SERVICE

By Shannon R. Noble

JIM ROBINSON, OWNER OF ROBINSON'S Repair Shop, was born and raised in Marathon, NY. His father had his own automotive business in the area in the 1960s. Always interested in the automotive field and automobile repair,

Jim followed in his father's footsteps, opening his own automotive repair business at his home in 1995. He eventually bought and renovated the building located at 3 Cortland Street, hired three additional people, and opened Robinson's Repair Shop in June, 2001.

Though there have been ups and downs, as with any business, Jim is happy with the way Robinson's Repair Shop has progressed. "I really enjoy the customers," he said. "We try to give the best quality service possible."

Jim strives for excellence in by maintaining high standards in his business. "My shop is AAA and NAPA accredited," he said. "Both have very stringent approval guidelines. I am also

ASE certified. ASE has testing facilities that employ eight different fields in which you are tested; if you pass all eight, you become a Master Tech. I am a Master Tech; there are two Master certified techs that work here." These certifications assure the knowledge of automobiles necessary to provide quality service.

Jim believes strongly in diagnostic ability. "I am well-invested in the most up-to-date diagnostic equipment," he explained. "It is important to be able to correctly diagnose the problem and fix it right the first time. We don't just throw parts at the problem in a haphazard, trial-and-error way; we know what's wrong with the vehicle before we replace any parts." Robinson's Repair Shop offers a pick-up and delivery shuttle service in the Marathon area, as well as a 5% Senior Discount and a 10% Veterans and Active Servicemen Discount. You can also enter a monthly drawing to win a free oil change (up to \$45). There is one winner per month, drawn on the first day of each month; winners are posted at Robinson's Repair Shop

In addition to providing automobile repair services to the Marathon area, Robinson's Repair Shop is also active in

the community. Jim is the Vice President of the Marathon Business Organization and a member of the Marathon Lions Club. He also donates to the local scholarship fund and organizations such as D.A.R.E. "I like to contribute to those organizations that involve and benefit

the town locally, he said."

Robinson's Repair Shop is open Monday through Friday 8 a.m. to 5 p.m. and Saturday, 8 a.m. to 12 p.m. "If you need repairs done on your automobile, you should give us a try," Jim said. "You will be pleased with the way I run my business." If you have questions about auto repairs, call Robinson's Repair Shop at (607) 849-6410.

WATCH OUT FOR DEER ON ROADWAYS

Accidents with deer are common in autumn.

Drivers should be extremely alert for deer while driving this time of year, which is peak mating season for deer and a time when a large number of deer claims occur.

According to an Insurance Institute for Highway Safety study, insurance claims for animal collisions are nearly 3 times higher during November than the typical month earlier in the year.

However, by being aware of the risks and following precautionary measures, you can reduce the likelihood of colliding with a deer.

Know the Facts

Deer claims are more likely to occur in the early morning or evening hours. In fact, 50 percent of deer claims occur between 5 p.m. and midnight, and another 20 percent of claims occur between 5 a.m. and 8 a.m.

Deer aren't just found on rural roads near wooded areas, many deer crashes occur on busy highways near cities.

Deer often move in groups. If you see one, there are likely more in the vicinity.

Be Cautious

Stay alert, awake and sober.

Always wear your seatbelt and drive at a safe, sensible speed for conditions.

When driving at night, use high-beam headlights when there is no opposing traffic. High-beam headlights will not necessarily frighten a deer, so do not rely on the high beams to deter deer, but rather rely on the lights to better illuminate the animal.

Do not rely exclusively on devices such as deer whistles, deer fences and reflectors to deter deer.

When Deer are Near, Be Careful

Deer are unpredictable, especially when faced with glaring headlights, blowing horns and fast-moving vehicles. They often dart into traffic. Assume nothing, slow down and blow your horn to urge the deer to leave the road.

If the deer stays on the road, stop, put on your hazard lights and wait for the deer to leave the roadway. Do not try to go around the deer while it is on the road.

Brake firmly when you notice a deer in or near your path, but stay in your lane. Many serious crashes occur when drivers swerve to avoid a deer and hit another vehicle or lose control of their cars.

If you do strike a deer, and are uncertain whether or not the deer is dead, then keep your distance, as this is an injured, wild animal with sharp hooves that can inflict injuries. If the deer is blocking the roadway and poses a danger to other motorists, you should report the incident to the Game Commission or a local law enforcement agency.

The above information was provided by Erie Insurance Company. If you have any questions about insurance please submit them to me and I will be happy to try to address it in an upcoming edition of The Cortland Area Tribune.

Matt Banazek is a licensed property and casualty insurance agent and one of the owners of Benson Davis Insurance. They are located at 5325 State Route 281 in Homer, NY. Questions can be submitted to Matt via email at bdavisin@twcny.rr.com or through the mail.

CUTTING'S GARAGE

IS IT TIME FOR AN oil change? How about those tires? Are the treads on them poor? If you answered yes to one or both of these questions, it's time to call Cutting's Garage! Cutting's Garage has been a family owned business for over 50 years. James Cutting opened Cutting's Garage back in 1954. James took pride in his work in the garage and often spent time showing his two sons how to repair the cars in his shop. Before you knew it, the boys had tons of hands on experience. In 1993, his sons, Jim and Mike, inherited the business from their father. Mike, who currently manages the garage, is pleased to bring his customers the same quality work that they are accustomed to. Mike has over 25 years experience in the automobile repairing business. Cutting's Garage provides a friendly atmosphere and excellent workmanship!

Cutting's Garage is a New York State licensed Insured Station, which specializes in brake repair, exhaust repair, oil changes, inspections and more. If old man winter has you worried about your car battery, the garage will be happy to install a new Interstate Battery to be sure your car starts on those cold mornings! In addition, Cutting's Garage is an authorized dealer of Cooper Tires. "Cooper Tires are comparable to other name brands and are better priced," stated Mike. If you need to have your vehicle towed to the garage, Cutting's Garage has a tow truck and will be happy to tow the vehicle for a nominal fee. The sign on the front of the building say "your complete auto repair center", which is exactly what Cutting's Garage is! Besides NY State Inspections - Mike is experienced in exhaust repair, tune-ups, brake repair, tire repair, lubrication, struts and more.

For over 50 years, Cutting's Garage has been providing customers with dependable and quality serve, at the same location. So if you're looking for new tires or in need of an oil change or need to have any other service done on your vehicle, call Mike at Cutting's Garage. Cutting's Garage is conveniently located at 1834 Dryden Road (Route 13) in Freeville. Minutes from Cortland or Ithaca. To schedule you next appointment call 607-347-4873.

G. L. MULLEN BODY SHOP

MULLEN'S BODY AND PAINT SHOP has been in the Dryden area for almost 30 years. Owner and Dryden resident, Gary Mullen is proud to bring the community quality and professional, reliable work at a reasonable price to ensure customer satisfaction. If it's paintable - they will paint it. Along with body and fender repairs, expert refinishing and used car sales, Mullen's will sand and paint a bicycle frame, trailer, or motorcycle tank! Mullen's currently has 3 full time body technicians and 1 part time technician, with some of his staff being there almost as long as he has been in the business! By having knowledgeable and experienced staff, he is able to continue to provide his customer with the quality work they are accustomed to within a timely manner.

Mullen's Body Shop specializes in Buff, brush touches and welding. If you are in the need of having body work done on your vehicle or fix that scratch on your car, customer satisfaction is their priority. They will answer any questions you might have and provide free estimates on the work that needs to be done. If you involved in an accident, Mullen's will walk you through the process. They can handle all types of collision and insurance claims. Mullen's has rental cars available for your convenience and will also arrange to pick

up and deliver the vehicle for their customers. Mullen's will also help you with any old car restoration needs. Whether it is welding, body work or body paint, they will provide you with quality work that is guaranteed.

Mullen's also has towing available through Brecht's and Stupke's. Any of these towing businesses will gladly tow your car to Mullen's Body Shop.

Mullen's is conveniently located on Route 13 (290 Cortland Road) in Dryden, only 10 minutes from Cortland. For hours or if you have any questions or need a free quote call Gary Mullen at 607-844-9336.

Oil filter wrench set*, Oil catch/recycle container, Funnel, New NAPA GOLD oil filter, 4-5 qt. new oil**, Clean rags, Car jack, Jack stands, Safety glasses, Mechanics work gloves, Hand cleaner

*If you plan to change your oil regularly, consider investing in a small tool set, an oil filter wrench set and a quality floor jack and stands.

**Always check your owner's manual. Some vehicles take up to 15 quarts!

Park your car on a level surface; apply parking brake. - Run engine for 5 minutes before draining oil (warm oil drains faster than cold). Do NOT drain oil that is at full operating temperature (too hot!). Remove keys from the ignition, as some hybrid models can auto-start. To be safe, always check manual when working on a specialty vehicle.

Jack your car up and place it on jack stands. - A jack alone will not support the full weight of your car safely. Consult owner's manual for proper jacking points, as the placement of a jack stand is just as important as where to place a jack. Misplacement can damage suspension or body parts.

Locate oil drain plug under the engine and place the drain pan below. - The plug is usually near the front center of the engine, and some vehicles have more than one (see owner's manual for exact location). Loosen the plug with the proper tool. Make sure that the drain pan is large enough to hold 4-5 quarts of oil or more. The oil drains at an angle, so make sure your pan is positioned to catch it.

Unscrew the plug by hand. - Remove the plug by hand. While unscrewing the plug, push the plug back towards the pan. This prevents oil from rushing out until you are ready to remove the plug from the hole.

Drain all oil. - To speed the draining process, remove the filter cap located on the top of the engine (see owner's manual) and allow air to enter from the top.

Replace oil plug. - Tighten by hand so plug is not cross-threaded. Once the plug is tight, finish tightening with the correct tool. Always use a new drain plug gasket and never over-tighten the drain plug.

Remove existing oil filter. - Position oil pan underneath to catch any remaining oil while unscrewing the old oil filter, using the proper oil filter wrench. Use a rag to clean the mounting surface in preparation for the new filter. Make sure that the sealing O-ring from the old filter is not stuck to the mounting surface on the engine. (Note: Some vehicles use remote mounted oil filters that may be on top or on the side of the engine.)

Lubricate new filter and screw into place by hand. - Lightly coat the rubber seal of the new filter with fresh oil. It's usually not necessary to tighten the oil filter with the wrench (always follow the manufacturer's tightening specifications). Once the filter is installed, lower the car.

Clean the oil filter neck and pour in the new oil using a funnel. - Typically, you will use 4 to 5 quarts of oil (see manual for exact oil capacity). Fill to three-quarters of the engine's capacity to avoid overfilling (there is always oil that does not drain). Replace the cap.

Run the engine for a few minutes to make sure there are no leaks. - Check the area around the oil drain plug and the

filter for oil leaks. If a leak is noticed, shut the engine off immediately and correct any leaks. Check the dipstick. Add more oil if necessary.

Dispose the used oil properly. - Bring your used oil to a recycling center or a NAPA AUTO PARTS Store to recycle it for you. These are the only acceptable methods for oil disposal.

Important Tips:

Read your owner's manual or see your local NAPA AUTO PARTS Store specialists to ensure you are using the correct type of oil and oil filter.

You'll need the year, make, model and mileage of your car if you go to a NAPA AUTO PARTS Store.

Make sure the car is securely supported. You will need two jack stands to support the front of your car after jacking it up.

Record the date and mileage after you change the oil so you will know when your car is due for another oil change. It helps to put a small sticker on your windshield to remind you.

Handle hot motor oil with extreme caution.

Mechanic gloves will keep your hands protected and clean.

Only dispose of used motor oil and filters at authorized locations.

If you prefer, bring your car to your local NAPA AutoCare Center and they can change your oil for you.

FALL/WINTER HUMAN CARE

THIS CAT IS ABOUT TAKING care of your car for fall and winter. We only have one body and if we don't take care of it we will be in big trouble.

Just as you would do fall cleaning of your home and car changing the oil, checking the antifreeze, waxing it to protect it from salt on the roads you can take care of your body too. Cleansing or ridding your body of accumulated toxins is very important or your immune system won't be working up to par. An overloaded immune system won't be able to protect you from bacteria, viruses and fungus. Many people turn to flu shots for protection but as has been reported in last years shots they are often ineffective as they must guess which strain of flu might strike and make up the vaccine accordingly. Often they are wrong and many people have negative reactions to the flu vaccine. There is a way however to protect yourself naturally and safely. Silver Shield is a safe alternative. It kills bacteria, virus and mold and some parasites. It is currently being used in Ghana to treat malaria successfully and harmlessly. One doctor there said she could use a whole boatload to treat her patients.

Ancient Greeks used silver vessels for water purification. American pioneers used silver dollars in their water and milk containers to prevent spoilage. During World War II silver antiseptic solutions were used. Even today burn victims are slathered with a silver ointment. Babies are given silver drops in their eyes. NASA uses silver in their space shuttle purification systems. Silver is used in residential homes and electrical ionization units help sanitize swimming pools instead of using dangerous chlorine.

Homemade concoctions are not safe as they don't use the right terahertz to process the silver. Silver Shield uses 110 volts of Direct Current and the terahertz is equal to that of the blue

light that hospital operating rooms use for protecting patients from infections during operations. It has been measured at between 890 to 910 terahertz.

Unlike antibiotics that kill the good bacteria or probiotics in your body silver does not destroy them. There are no antibiotics for viruses yet Silver Shield can kill viruses.

It has been proven to kill MRSA, SARS, Malaria, Anthrax, gram negative bacteria, gram positive bacteria, viruses including Hepatitis C, Aids and Influenza. It even makes prescription antibiotics work more efficiently.

Of course if a person doesn't eat correctly you can take all the silver you want and it won't protect you because your body needs the correct nutrients to live.. The U.S. Department of Agriculture reported that 92 percent of Americans don't get sufficient nutrients from the food they eat. They need a diet low in fat, low in sugar, salt and alcohol and not putting dangerous tobacco smoke in their bodies. This coupled with exercise and sufficient sleep will help keep the body fine tuned. Can you imagine that 15 percent of college students don't eat any vegetables. Forty percent eat a diet high in foods like French fries and ketchup. Twenty percent don't eat any fresh fruit. This has resulted in a weight gain of 20 percent while in college for four years.

Eating organic is also important as now our fruits and vegetables are being radiated with up to 30 million x-rays to stop the enzymes from softening fresh fruit. This genetically alters the fruits and vegetables making them unfit to eat for a healthy body.

We have toxins in the food we eat, the air we breathe and the water we drink. So making sure you get pure water is very important. Silver can purify even raw river water. Water helps convert food into energy and regulates body temperature and helps remove toxins from our body. Most people are dehydrated and don't know it. When someone is hungry that often means their body is just in need of pure water.

Dr. Gordon Pedersen suggests the average person needs to take 1 teaspoon two times a day for prevention, two teaspoons twice a day for problems and much more in serious health issues. I have a book he wrote with everything from A-Z listing how to use Silver Shield for health issues.

We have Silver Shield liquid in 18 ppm and also Silver Shield Gel for topical use. But Dr. Pederson says that can even be used internally like brushing your gums and teeth to prevent bacteria from growing in your mouth. If a person put some Silver Shield Gel in their hands the protection would last for up to 4 hours unless they washed their hands. What a wonderful way to protect yourself and your children. He said 60 percent of nurses get MRSA in the tips of their nose and they should put some gel on a q-tip and rub it in their nose and then mush it around. It won't drain out that way and will protect you from inhaling air borne pathogens. There is a lot more information I have but I have run out of space once again. If you want to purchase some or have any questions please feel free to contact me.

Detoxifying your body through B.E.S.T. foot spa treatments is also a wonderful way to protect your body. Why not book an appointment and try it out.

NIGHTINGALE MILLS OPENS NEW HARDWARE STORE IN TULLY

NIGHTINGALE'S TULLY LAKES HARDWARE OPENED its doors October 1st in the Village of Tully, in the plaza next to the Post Office. The store, which is owned by Nightingale Mills from Marcellus, carries an assortment of traditional hardware store merchandise as well as a diverse selection of lawn and garden products (including lawn mowers, chainsaws, and other outdoor power equipment), automotive parts and supplies, housewares, Weber Grills and grilling accessories, sporting goods and farm toys, paint and seasonal merchandise (including pool supplies, wood stove pellets, fishing and boating gear, and deicers). The store also offers a pet department, wild bird feeders and foods (featuring Aspen Song Wild Bird Food blends), and some farm and fencing supplies.

The store offers many products beyond hardware- the goal being to serve the needs of the local community and fill a niche of their own, and not duplicate the services and businesses that Tully already has. With everything from their own custom mix of grass seed, to stained glass sun catchers, special order Muck Boots, canning supplies, and everything in-between- it's more than a traditional hardware store. As the store settles in store manager, Dave Ebert, will take note of customer requests and work towards stocking the shelves appropriately. Nightingale's will also bring a taste of their garden center, by offering locally grown plants including spring annuals, vegetables, bedding flowers, perennials, and fall mums.

Nightingale Mills, which has a long history serving the Central New York community, opened in 1888 as a water-powered saw mill on the banks of Nine Mile Creek in Marcellus. Over the years, the mill has evolved to serve local needs, from milling grain, repairing farm machinery, selling fuel and farm supplies, tire sales and repairs, to hardware and a seasonal greenhouse. Today, the business continues to remain family-owned and operated with a small, knowledgeable staff at the two locations. Like the Marcellus store, Tully Lakes Hardware is an affiliate of True Value, but also sells good from a variety of other merchants, including Husqvarna, Cooperative Feed Dealers, and Orgrill.

MIKE'S FISH TANK GRAVEL

FRESH WATER SUBSTRATES COME in a variety of colors and grain sizes. Colored gravels are coated with a layer of waterproof paint, and natural gravels may be covered with a clear layer of plastic. Both types of gravel are coated to prevent the gravel from coming into physical contact with the water and creating a chemical reaction between the minerals in the substrate and the water.

Since many minerals are water soluble, this is a good thing. Inert or coated gravel is the right choice in most freshwater environments. There is a rainbow of colored gravels to choose from. Most are single colors but there are some bi-colored gravels to choose from. Most companies have at least one multi-colored gravel. Grain size is usually a "Number 2",

anything larger is usually called a pebble gravel. The most common type of gravel sold is natural, not painted or dyed.

Gravel color is important to fish, maybe even more important than it is to people. Most fish in a freshwater habitat seem to prefer a dark or natural gravel while marine or brackish-water species are used to white or light colored gravel. Keep in mind that many fish will not color up properly if the substrate clashes with their body colors.

Cave dwelling fish will shun the reflection given off from a light substrate. Neutral gravel is good for tanks that house a community of fish exhibiting many different colors, shapes and sizes.

TRICK OR TREAT GHOSTS AND GOBLINS AREN'T THE ONLY THINGS TO THINK ABOUT ON HALLOWEEN

TRICK OR TREATING IS A time honored tradition each October 31, but before you open your doors to the witches and superheroes that live on your block, you should take precautions to make your property as safe as possible for potential trick-or-treaters.

Allstate Insurance Company recommends that homeowners take the following steps to help ensure a safe

Halloween for everyone:

Check Your Outdoor Lighting: Make sure your property is adequately lit before trick-or-treaters arrive.

Inspect Your Property: Make sure the path to your door is safe. Look for cracks in the sidewalk and loose stair railings. Remove any obstacles that can lead to a trip or fall.

Watch the Decorations: Make sure Halloween decorations are not obscuring walkways and causing hazards. Use artificial lighting instead of candles to reduce the risk of fire-related accidents. If you do use candles, make sure you extinguish them before going to bed.

Drive Carefully: With nearly 25 million families participating in trick-or-treating each year, neighborhood streets are going to be crowded. Use extra caution while driving and if you are planning to drive, steer clear of alcohol.

Keep Your Pets Inside: Even if your dog enjoys the parade of children that arrives on your doorstep each year, the neighborhood children may not enjoy meeting your family pet.

"Homeowners need to realize they can be held liable should

a trick-or-treater be injured on their property," says Allstate NY spokesperson Krista Conte. "Each October we invite all of the neighborhood children onto our property and drive on crowded neighborhood streets. We need to be extra vigilant about safety during this time and we also need to make sure we have the right amount of insurance protection."

Allstate also recommends that all homeowners contact their insurance agent before Halloween and make sure they are adequately covered in the event someone is injured on their property. While a homeowners policy provides a level of liability protection, it may not be sufficient protection if injuries are severe. A personal umbrella policy works with the homeowners liability coverage and provides additional protection.

Additional benefits include:

- You will not have to face court alone. If you are sued over an incident covered under your personal umbrella policy, Allstate will retain and pay for an attorney to represent you in court.
- Your coverage goes everywhere. So, you are covered no matter where you are, including outside the U.S.
- Helps with gaps in your coverage. Homeowners and auto policies do not cover certain types of incidents, like those alleging slander. But a personal umbrella policy helps provide protection for this kind of incident as well as others.
- Allstate pays on your behalf. In the event of a covered claim, you will not have to pay out of your own pocket first and submit for reimbursement.
- Reimbursement for lost wages. You will be reimbursed for the wages lost for your absence from work for a court appearance, up to the limits specified for this benefit in the policy.

Allstate offers a range of personal umbrella coverage amounts in \$1 million increments. You may qualify for up to a maximum coverage amount of \$5 million.

**OCTOBER IS NATIONAL BREAST
CANCER AWARENESS MONTH
CANCER INSURANCE
PRODUCTS OFFER FINANCIAL
AND WELLNESS BENEFITS**

OCTOBER IS BREAST CANCER AWARENESS Month. Some

individuals, especially those who have a family history, may consider the observance to be a reminder to visit a physician for a cancer-screening test.

"No one should have to recover from debt while they recover from cancer," says Allstate NY spokesperson Krista Conte. "With cancer insurance, you can rest easy knowing it will take care of many of the bills and expenses that your primary health insurance doesn't."

The name says it all. If you're diagnosed with cancer, your finances can get a much-needed boost on top of the pay-out from your primary health insurance coverage. You can use cancer insurance to help pay for:

- Doctor bills
- Hospital expenses
- Prescription drugs
- Indirect costs, like transportation, child care, and living expenses

As Conte explains, the cancer policy is not for all consumers, but it could be worth consideration if:

- Cancer is in your family history
- Money set aside for the unexpected is limited
- No income is in place should you be unable to work; either if you or one of your children are diagnosed
- Specified illness coverage does not exist through your workplace

"This personal coverage insures your salary and non-medical-related expenses if you are diagnosed with cancer," said Conte. "The cost is affordable and the benefits give you financial help during a time when you need to stay focused on getting well."

Treating a serious illness like cancer is serious business, and unfortunately, the costs add up faster than you might imagine. Cancer insurance gives you one less thing to worry about. For additional information please contact your local Allstate agent or visit <http://www.allstate.com/>.

Contact SHIRLEY EIZEMBER, Exclusive ALLSTATE AGENT at the Pinckney Insurance Agency located at 41 Port Watson St Cortland, NY 13045..Ph 607-756-8505.

The Allstate Corporation (NYSE: ALL) is the nation's largest publicly held personal lines insurer. Widely known through the "You're In Good Hands With Allstate®" slogan, Allstate is reinventing protection and retirement to help more than 17 million households insure what they have today and better prepare for tomorrow. Consumers access Allstate insurance products (auto, home, life and retirement) and services through Allstate agencies, independent agencies, and Allstate exclusive financial representatives in the U.S. and Canada, as well as via <http://www.allstate.com/> and 1-800 Allstate®.

ATVs can be hazardous to operate. For your safety: always wear a helmet, eye protection, and other protective clothing. Always remember that riding and alcohol/drugs don't mix. Never ride on paved surfaces or public roads. Never carry passengers on any ATV not specifically designed by the manufacturer for such use. Always ride safely and avoid excessive speeds. All Can-Am ATV adult models are Category G ATVs (General Use Models) intended for recreational and/or utility use by an operator age 16 or older. Respect the environment, all applicable local laws and the rights of others when you ride. Ride responsibly. 5105121

BUSINESS OWNER PHOTO CONTEST

DO YOU KNOW WHO THIS LOCAL BUSINESS OWNER IS?

Welcome to our new contest! It was suggested by a local business to try a new contest – print pictures of local business owners when they were “younger” and see if anyone can recognize them! This contest can be entered the same as our famous cover photo contest – email your guess to tcatribune@gmail.com or call 607-844-8228 and include your name, address and phone number. If your guess is correct, you will be entered into the contest. A name will be picked by random drawing and the winner’s name will be printed in the next issue and they will win a gift certificate donated by local businesses! Enjoy!
