COMMUNITY CALENDAR

March 20 - Next Earth Day Ithaca Planning Meeting

The next Earth Day planning meeting for the 2013 celebration will be held on Wednesday, March 20th from 5:30-7:30pm at the Sustainable Tompkins office at 109 S. Albany St. in Ithaca. Earth Day Ithaca 2013 will be held Sunday April 21st, 2013 from Noon-5pm at the Ithaca Farmers' Market Pavilion and will include exhibits by local organizations, food, activities and entertainment. Everyone is invited. For more information, please email Joey at solkitchen1@gmail.com or call (607) 387-7799. Applications are now available for exhibitors and vendors contact Joey at solkitchen1@gmail.com. We are also looking for volunteers to help with set-up, strike and other day of the event responsibilities. Groups and individuals are welcome. For more information, contact Joey at 387-7799 or solkitchen1@gmail.com.

9am, join us to celebrate the new Beaudry Park recreation building with a brief ceremony. 10am, 14th Annual CYB Easter Egg Hunt.

March 23 - Benefit for Rick Busutti of Cortland

On Saturday, March 23rd from 1-6pm, there will be a benefit for burn victim Rick Busutti at the 77 Club (formerly Lucky's) on Main Street in Cortland, NY. Two classic rock bands are donating music to the benefit: Blue Monday (with Marc Ryan on guitar) from 2-3pm and Bad Alibi from 4-5pm. Dick Bennett will emcee, and John Peak will DJ. There will be food and prizes. Donations will be accepted at the door, and every cent will be donated to the Busutti family to help defray medical costs. The backstory is that Rick was in a horrible accident back in January while he was doing work in his shop. The shop burned to the ground and Rick barely made it out in time. He is now in stable/critical condition at a hospital in Syracuse, with severe burns which will require skin grafts to repair. Insurance will most likely not cover all expenses, and so by holding the benefit, the organizers are hoping to raise the necessary funds to cover hospital and rehab costs. They hope to

see everyone there! NOTE: Donations may also be mailed to: The Busutti Family, 2344 Rte 215, Cortland, NY 1304.

March 24 & 29 - The Love of Jesus Easter Musical

The Love of Jesus, an Easter musical revealing God's genuine love for mankind will be presented by the choir of First Baptist Church of Marathon, 5 Park Street, Marathon. Both performances are free of charge and open to the public. Dates and times are Palm Sunday, March 24 at 11:00 AM, and Good Friday, March 29 at 7:00 PM.

March 25 - Dryden Seniors Meeting

The next Dryden Senior Citizens Lunch will meet on Monday, March 25, 2013 at the Dryden Fire Hall. Lunch is served at 12:15 pm with announcements starting at 11:45 am. Please bring your own table service. The meal cost for members is \$6.00 and \$8.00 for non-members. The menu will be chicken and biscuits, tossed salad, squash and carrot cake. Entertainment will be provided. Are you new to the area? Want to join a great group? Then consider joining the Dryden Senior Citizens for only \$5.00 a year. Anyone over 55 may join our group. We have great programs,

wonderful fellowship, and bus trips. Bring a friend to our next meeting.

March 25 - April 5 - Food Pantry Challenge

The Cortland County RSVP program is sponsoring its first ever Food Pantry Challenge to benefit the Nutrition Program's Helping Hands Food Pantries. The Challenge will run from March 25th through April 5th and RSVP volunteers will be ready to accept donations of non-perishable food items at each of the senior centers from 11 am to 1 pm., however, donations can be dropped off at any time during the centers' hours of operation. The Helping Hands Food Pantries are located at 60 Central Ave., and the Willet and Truxton Senior Centers. In 2012, over 33,336 meals were provided to needy residents of Cortland County. With your help, we can do more. The RSVP Challenge is running in conjunction with the FeinSTEIN Challenge which will match the donations received. For more information on what types of items are most needed or to find out the location and hours of your local senior center, please call the RSVP office at 753-5057.

PAUL YAMAN CONSTRUCTION

PAUL YAMAN CONSTRUCTION SET THE standard nearly 30 years ago, and today, continues to be committed to excellence in everything we build. "Quality That Stands the Test of Time" was the subtitle of a recent feature article in Builder/Architect Magazine, Central New York Edition highlighting the

Paul Yaman Construction Company.

The recipient of numerous awards, both locally and nationally, Paul Yaman Construction has been recognized as a leader by our peers in the industry. Paul, while humbled by this recognition, is extremely proud of his team of professionals and their dedication to their vocation.

Various Awards: Syracuse Builders Exchange Craftsmanship Award, Most Efficient Office Building in Central NY, Cortland Chamber of Commerce Business Award, Award of Distinction Vinyl Siding Institute, and Achievement Award Historic Restoring and Preservation.

What makes Paul Yaman Construction so different from the rest?

What sets us apart from our competition is our diversity and specialization in every aspect of the construction process. With our extensive experience in the commercial and public works sectors, we have integrated that level of organization, planning and execution of various trades to all aspects of our company. We build to a "standard" in everything we do. As an example; our roofing team only works with roofing, our masons work only with masonry, and so-forth. This principle

has proven to provide the highest quality of work performed in the most efficient manner, which equates to our clients affordable excellence.

This very principle of specialization is why Paul Yaman Construction is the only construction company that has the integrity to offer our Exclusive 5 Year Workmanship Guarantee, unsurpassed in the industry. This is our commitment to excellence and to our clients.

- 30 Years Experience
- Proud recipient of numerous local & national Awards of Excellence

of love transforming our business from its origin as vacant property and pole barn to the current eye-catching display and picturesque New England style gift shop. From the very beginning, it has been our goal to provide a diverse variety of quality shrubbery, shade trees, fruit trees, ornamental trees, topiaries, perennials, annual flowers and much more! Valley View Gardens will provide a stronger, healthier plant than can be obtained in box store garden centers, and we can answer questions about the correct application of our diverse line of plant material. As an added bonus, our convenient location eliminates those costly trips out of town, ensuring a savings to you!

For that splash of color in your garden, you can choose from any number of gorgeous flowering shade-loving shrubs, perennials, annuals and hanging baskets that will fill our six greenhouses shortly. Outside, you will find literally thousands of sun-loving plants and trees from which to choose. If you want to fill in that sunny or shady corner of your garden, we have an impressive assortment of perennials located in our perennial houses and outdoor displays that will do just that! Looking for that unique ornamental grass that caught your eye? We have many varieties from which you can choose to bring texture and motion to your landscape.

The Cinnamon Apple Cottage has added a new room to our gift shop, totaling eleven rooms in all! Our pottery room, which used to be accessible only from an outside entrance on the porch, is now connected to the rest of the gift shop through the new room, making your house and garden shopping more convenient than ever! For those who have yet to visit our store, The Cinnamon Apple Cottage is a unique gift shop located adjacent to Valley View Gardens on Luker Road. We

have been told repeatedly by our customers that they love to shop in our lovely, now, eleven room gift shop. Quaint lovely music by Groton-born musician Scott Adams, creating a delightful backdrop to your shopping experience, can be heard and purchased in our shop. Each room has its own ambience and related product lines. Our reputation for amazing framed art work is spreading far and wide. Our floral decorations, fragrant candles and potpourri; whimsical figurines, children's books and toys; outdoor decor and gift items; not to mention the delicious jams and fruit butters; soups, scones, bread and cookie mixes and much, much more can be found in the 'general store' at The Cinnamon Apple Cottage! If you need a pick-me-up for yourself or your friends and loved ones, you are sure to find it at The Cinnamon Apple Cottage.

Valley View Gardens Retail Nursery and The Cinnamon Apple Cottage Gift Shop are located just around the corner on Luker Road opposite Builder's Best Do-It-Center. Our March hours are Wednesday through Saturday, 10:00 to 4:00 (closed on Sunday).

In April, our hours will be Monday through Saturday, 9 to 5 o'clock (closed on Sunday).

Coming in May: Sunday hours! Beginning in May 5th and continuing through Sunday, June 30, Valley View Gardens and The Cinnamon Apple Cottage will be open on Sundays from 10:30 to 3:30 for your shopping experience.

Stop in and shop at our retail nursery and gift shop. Call Dan, Andrew and Pat Mones at 607-749-3130 to set up a consultation to help your landscaping dreams come true! You will be glad you came to Valley View Gardens and The Cinnamon Apple Cottage on Luker Road in Cortland! We look forward to meeting and serving you. See you soon!

SMOKIN' MULE 2 YEAR ANNIVERSARY!

THE SMOKIN' MULE WILL BE open two years March 31, 2013. Home of the 5lb Dirty Pig Challenge; if you can eat it in less than an hour your meal is on us and you receive a free Smokin' Mule shirt!! Over 100 people have tried the challenge and we have had one winner!! We knew Cortland would embrace a BBQ restaurant we do not have this type of BBQ in the entire county. In the past many people have had to travel to Syracuse to our local competitor Dinosaur BBQ now we have it locally right in Cortland. The community has welcomed us with open arms. With some of the best BBQ in CNY we're a little different from most. We slow smoke our meat - some up to twelve hours, with selections such as Pulled Pork, Brisket and Ribs. All our meat is dry rubbed so you can add your own sauce - although most say it's pretty good without it. We make our own BBQ sauce; House Sweet, Mustard, Spicy, and for those who like it HOT our special HOT sauce. We have huge sandwiches, pulled pork, smothered chicken and one of customer's favorite "the Dirty Pig". We also sell tacos, burritos and quesadillas. Beer and wine is available at our bar. Catering is available and has become an increasingly big part of our restaurant, accommodating 10 to 500 people. We are now booking summer parties and weddings and offer on-site cooking! We bring the Mule to you! Hours are from 11 am till 8 pm Tuesday-Thursday and we are open until 9 pm on Friday and Saturday. We are located at 234 Tompkins Street in Cortland and less than a quarter mile from where the Jets practice. Take-out orders available or dine in. Call 607-218-6101. Like us on Facebook and you may be one of lucky customers to receive a gift certificate! Hope to see you soon!!

J & J STAFFORD

By James Stafford

IN FEBRUARY OF 2011, MY father, Jimmy Stafford, and I sat at my kitchen table, and talked about our futures. He had been a carpenter for over 45 years, but more recently had been making his living as a truck driver. He still provided carpentry services in his spare time, as everyone knew he was the go-to guy for home repair and construction – a true craftsman. I had been a self-employed drywall contractor for as long as I could remember, and had recently received my degree in accounting. For the past few years, we had thrown around the idea of going into business together, but with recent changes in insurance laws making it difficult to do business as a sole proprietor, we decided it was time to make our dreams a reality. The next month, J & J Stafford, LLC was formed, combining our skills and knowledge to complement each other.

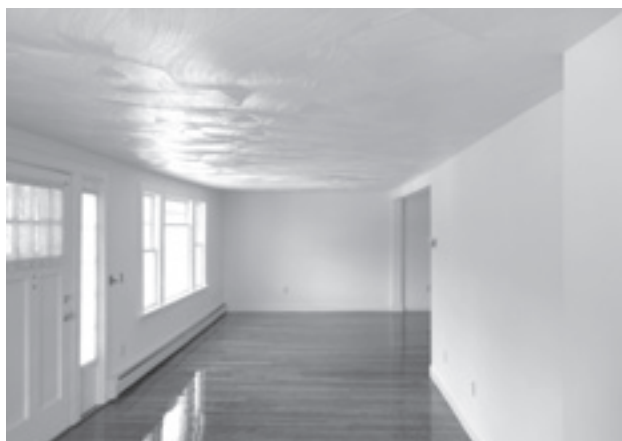

Our team's experience includes new construction, minor & major renovations to existing buildings, and both commercial and residential projects. We provide most construction services including roofing, siding, drywall installation & finishing, framing, remodeling, additions, and everything in between to home builders, other contractors, and residential customers alike.

Since going into business, we have worked on and completed hundreds of projects in Ithaca, Binghamton, Syracuse, Cortland, and all points in between; leading to many happy

customers. We are proud to be a member of the Tompkins Cortland Builders & Remodelers Association.

In conjunction with my father, our crew and associates, our goal is to provide our services to all future customers with the same dedication to quality and customer satisfaction that we have become known for. With that in mind, we hope you will consider J & J Stafford, LLC for your current and future projects.

If you would like any additional information on the services we offer, professional references, or a quote on your current or upcoming projects, please contact us at 607-624-3592 or james@jjstaffordllc.com

Thank you to everyone who attended our wonderful 25th Home & Garden Show with our brand new Farmers Market addition! We had a great turnout, highlighted many new & returning local businesses, sampled local food, wine & beer, had lots of fun and made many new friends! See you all next year!

Tompkins Cortland Home Builders & Remodelers Association, or TCBRA, was formed over 33 years ago (1980) as a non profit educational building trade organization offering a service to member tradesmen of the latest in education training, exclusive trade shows, current code changes, new products and peer networking. Their mission statement is 'committed to professionalism and ethical conduct within the home building industry of our two counties and the surrounding counties and to providing our members with the information and resources they need to provide a superior service at a competitive price.' By joining the local chapter of TCBRA, members also then belong to the powerful core organizations of our group - the New York State Builders Association or NYSBA, and the National Association of Home Builders or NAHB. They offer our area a unique Spring Home & Garden Show annually, bringing the

homeowner great home ideas and experts all under one roof! For more information on TCBRA please visit: www.tcbra.com or on facebook at: <https://www.facebook.com/TCBRA>

SPRING SAFELY INTO WARM WEATHER BY CHECKING YOUR SMOKE DETECTORS

SPRING AHEAD OF THE GAME AND CHECK THE BATTERIES IN YOUR SMOKE DETECTORS FOR SAFE WARM WEATHER

RECENTLY, MOST OF THE UNITED States observed Daylight Savings Time by setting all their clocks an hour ahead, giving everyone a head start on brighter evenings as the days get longer. After a harsh and active winter, New York residents are more than ready for spring! But while everyone is looking forward to warmer weather. Allstate

Insurance Company encourages homeowners to treat the event as a critical reminder for checking and replacing the batteries in your home's smoke detectors.

"Smoke detectors can only save lives if they have working batteries," said Allstate New York Spokesperson Jaclyn Darrohn. "Members of the family, including young children, should also be aware of what the smoke detector sounds like and what to do if they hear it."

Allstate offers some fire safety basics to discuss and practice at home:

- Check the batteries in your smoke detectors

often. Keep extra batteries on hand and replace them every six months.

- Check your smoke detectors every month and replace any that have been around for 10 years or more. Make sure everyone knows that the piercing sound means danger, and they should escape quickly if they hear it.
- Position detectors thoughtfully. Place one on every level of your home and near areas where you and your family sleep.
- Keep fire extinguishers handy. Make sure there's at least one on each floor - especially near the kitchen, garage, laundry room and workshop.
- Teach children that they should never hide in closets or under beds when there is a fire. Tell them firefighters may look scary when they're wearing their protective gear, but they are there to save you.
- If your clothes catch fire, Stop, Drop & Roll until the fire is out.
- Talk with your family and make sure everyone knows what to do in case a fire breaks out. Make sure you have two ways out of your house. Create a fire safety plan that includes a designated meeting place.
- Take an inventory of your home, creating a record of your personal property. In addition to completing an inventory, take photos or videotape your items - it will make them easier to replace if you have photographic records.

For more information on fire safety or other safety topics, contact your local Allstate agent.

Contact SHIRLEY EIZEMBER, Exclusive ALLSTATE AGENT at the Pinckney Insurance Agency located at 41 Port Watson St Cortland, NY 13045. Ph 607-756-8505.

The Allstate Corporation (NYSE: ALL) is the nation's largest publicly held personal lines insurer. Widely known through the "You're In Good Hands With Allstate" slogan, Allstate is reinventing protection and retirement to help more than 17 million households insure what they have today and better prepare for tomorrow. Consumers access Allstate insurance products (auto, home, life and retirement) and services through Allstate agencies, independent agencies, and Allstate exclusive financial representatives in the U.S. and Canada, as well as via <http://www.allstate.com/> and 1-800 Allstate®.

SPRING IS ALMOST HERE!

HI, MY NAME IS JULIA Fouts, and I am a Tompkins County Dairy Princess Ambassador. Dairy farmers all around are beginning to pull out their planters and tractors to get ready for spring planting. Looking in to new methods, fertilizers, and technology are just some

of the ways farmers are improving their care of the land and protection of the environment. Dairy farmers innovate every year to ensure healthy crops such as corn, soybeans, and oats. Healthy crops produce a nutritious diet and healthy dairy cows. Dairy farmers commit to keeping their cows healthy and strong for the production of high quality milk. The innovation and improvement every spring leads to high quality milk and dairy products for consumers to enjoy. Happy Spring!

HOW TO GET STARTED BUILDING A NEW HOME

We've decided to build versus buying an existing home and have purchased a lot in a local township. How do we get started?

FIRST, CONTACT THE LOCAL CODE Enforcement Official (Building Inspector) and/or Zoning Officer where your lot is located to determine which regulations apply. Some areas, such as historical districts, can be very restrictive while other zones may be open to many development opportunities. Zoning ordinances are local land use planning laws that can vary greatly from one municipality to another. Whether or not zoning ordinances are in force, you may also need to consider overlay districts such as flood relief zones (Corp of Engineers), power, utility, communication and access easements, municipal right-of-ways, watercourse setbacks from lakes and streams (DEC), etc. After all setback dimensions and pertinent easement restrictions are laid

out on your plot plan, you will have identified an area on your site known as the buildable area in your zone. Specific zoning setback requirements may differentiate between buildable area for the primary building (main house) versus buildable area for accessory buildings and structures such as detached garages, shops, garden sheds, play structures, storage buildings, buffer areas, and long term storage areas for recreational vehicles (boats, trailers, and campers). Some zoning ordinances address recreational vehicles under special permits. The buildable area may also be restricted as a maximum percentage of the total lot area in some jurisdictions to avoid high density development.

IMPORTANT- the Code Enforcement Officer is not a design professional, thus is not authorized to provide design advice since doing so constitutes "unauthorized practice of architecture" and could potentially expand the municipality's liability on a project. His/her primary responsibility is to review submitted plans and specifications for completeness and compliance with the NYS Residential Building Code, NYS Energy Code and as may be appropriate, local land use regulations. The CEO's basic determination will be that the project complies with the building codes and local regulations or it does not.

Next, you have a major decision to make. Subject to your home design expectations, the style of house you desire, approximate home size and budget, you might select a pre-designed plan from a magazine or reliable builder, or you can commission the services of a registered design professional (DP) to develop your own personal house design. The cost of construction drawings and specifications will range from several hundred dollars for the pre-designed "canned" plans from a magazine to 5%-7% of the total construction budget for a custom designed home. Based on your available time and familiarity with construction practices, you may elect to spend an additional 3%-4% for the design professional or an independent construction administrator to oversee the project to completion on your behalf.

Beware of any builder/developer who claims they can provide you with total services, including "custom sealed design documents" as part of their cost, since they could be

purchasing sealed construction documents through a "rubber stamping" arrangement which is illegal and deceptive to the unknowing client. Even legally produced "canned" construction documents normally require a code compliance review and written evaluation by a NYS registered design professional (Architect or Engineer) before a building permit can be issued. Such technical reviews, detailed site/foundation plans, and any desired design modifications will likely cost the client an additional \$1,000-\$2,500 or more before the project can be presented to the Building Inspector for the building permit. For specific information on professional design service requirements, contact the NYS Dept of Education Office for Registered Architects or Engineers (515-474-3817) or the NYS Office of Professional Discipline at (315-445-2111).

Selecting the proper building contractor is critical to the success of your project as it is by his/her knowledge, diligence and skill that the project will achieve a successful outcome. The builder may be known to you personally, may be recommended by the design professional, or come via references from a third party. For a slight increase in fee, the DP can also prepare the construction documents for competitive bidding among several invited contractors. Properly executed, the competitive bidding process can save the client from 5% to 8% of the anticipated construction cost. Regardless of the method by which the builder is chosen, you should avoid entering into any construction agreement that fails to incorporate detailed drawings and/or comprehensive written scope of all work required to complete the project, lest your money run out before the project can be certified for occupancy by the building inspector so you can move in. Subject to the extent of services contracted, the design professional can also be an effective agent to the client during the construction phase, conducting regular job meetings and observing the progress of the work, reviewing schedule and trade coordination issues, interpreting the construction drawings and specifications, maintaining document compliance and quality control, affirming the value of labor performed and materials in place as conditions for payment during the project, final project closeout inspection, etc.

THINKING OF SPRING? THINK GREEN!

WELL IT'S OFFICIALLY THE FIRST day of spring, March 20th. We will see if the weather cooperates or not. When we think of spring we think of green, namely grass, trees, flowers etc. Even the color this season is green. Well our bodies like green too. Green is alkalizing to the body, meaning it helps maintain the correct PH balance for the body to function properly. Cancer and other diseases thrive in an acid environment, therefore one would want to lower the acid level in the body. The standard American diet is not conducive to a correct PH level in the body. Too much sugar, carbs and animal protein. It also helps to deodorize the body. There is one product I think of immediately and that is Chlorophyll. Yes, we think of it in connection with plants but it is a great product for us humans to take. It is the molecule that makes leaves green. It captures the sun's energy in photosynthesis. It has an affinity for the blood. It prevents the clumping of red blood cells and increases the oxygen-carrying capacity of the blood. It also seems to nutritionally build the blood when taken on a regular basis.

Nature's Sunshine Product carries two types of chlorophyll products. One is the liquid in both pint and quart size and also chlorophyll capsules. I personally like the capsules when I am travelling as I don't want an open bottle to stain my clothing in my suitcase. You know what grass stains do to clothes. The capsule is a little different from the liquid product. It is a fat-soluble substance with a magnesium molecule in the center. This product is a gentle bowel detoxifier especially good for people with spastic colons because of its magnesium content.

The liquid chlorophyll is a water-soluble product in which the magnesium is displaced by copper and sodium. That makes it a good source of copper. Nature's Sunshine gets its chlorophyll from alfalfa an herb rich in iron and trace minerals. It improves oxygen uptake in the blood, making it very useful for general weakness and blood disorders. Because it is a detoxifier it is useful for body odor. It is wonderful to help restore blood after severe bleeding. It contains spearmint oil which also makes it very helpful in expelling gas. This makes it a good remedy for bloating and indigestion. It is non-toxic even in large quantities.

Some other benefits that it has been used for historically include: anemia, internal bleeding, to increase or enrich breast milk, bunions, prevention of cancer, cold sores, constipation, diaper rash, bulging or slipped spinal disks, emphysema, lack of energy, fatigue, foot odor, gout, halitosis, heart palpitations, hemochromatosis, over acidity, oxygen deficiency, great for pets, great for pregnancy, sickle cell anemia, toxemia and a detoxifier from vaccines. So you can see it has many uses. It is relatively inexpensive.

So while we wait for the grass to start sprouting and the leaves to start budding on the trees and the flowers to pop up from the ground why not take care of your body and try some chlorophyll to improve your health or maintain your health. Your body will thank you.

Till next time,

MIKE'S FISH TANK DISCUS

DISCUS IS A SPECIES THAT inhabits the margins of floodplain lakes and rivers in the Amazon basin where it is a part of the highly diverse Neo tropical fish fauna. The 3 species are the common discus, the Heckel, and the green. Like certain cichlids the discus have a laterally compressed body shape, extended finnage is absent giving a more rounded shape. It is the body shape from which their common name "Discus" is derived. The sides of the fish are frequently patterned in shades of green, red, brown, and blue. The height and length of the adult fish is 8 to 10 inches. Another characteristic of discus is the care for their young. Brood care is highly developed with both parents caring for the young. Adult discus produce a secretion through their skin, which the larvae live off of their first few days. However when bred in captivity the larvae live off their parents secretion for up to 2 weeks.

Discus are expensive fish and are very sensitive to water condition and food quality. Discus fish are easily frightened and can possibly hurt themselves from dashing around the tank and hitting the glass. The water is an important factor. make sure PH is low, around 6 and also a higher temperature at a constant 82 to 86 degrees F.

If you want to add other species of fish in the discus fish aquarium, try cory cats, plecos, small tetras, and other gently and slow moving fish from South America. Just be sure the Discus is the largest fish in the tank. When it comes to food, try feeding frozen bloodworms and frozen brine shrimp. Feed the fish 2 to 3 times daily. If you do things right, you may even get your discus to breed.
