Aiello's History

LONG-STANDING EATERY SERVING UP CLASSIC Italian staples & drinks in a homey, woody setting.

The Aiello Family moved to America from Sicily, Italy. Calogero (Charlie) was born in the village of Partanna and Vincenzo (Vinnie) was born in Alba, in the Piedmont area of northern Italy.

Having grown up in and around restaurants and in Mama's always busy kitchen, the family moved to Whitney Point where Vito (Papa) opened Aiello's Ristorante in May of 1982 for his two sons to operate.

The friendliness of Whitney Point has allowed Aiello's to grow from a small pizzeria to the comfortable full service restaurant you enjoy today.

It is important to us that you know we use fresh herbs, spices, cheeses and imported 100% olive oil in our kitchen. The finest raw ingredients we can find assure you of the highest quality experience.

Plan to visit Aiello's for lunch or dinner soon! Open daily. Their menu includes a delicious array of appetizers/soups/salads, pasta, chicken/veal, seafood, steaks, pizza, gluten free and a children's menu. Follow us on facebook and check out our website.

Sign up for our birthday club, and receive \$10 off your dinner in-house only, week before or after birthday. Can not be combined with other offers. Photo ID required.

Celebrating a birthday, anniversary or graduation? Think of Aiello's for your next private event. Catering is available. Call to book your party today!

MIKE'S FISH TANK CRICKET HEALTH

THIS IS NOT FISH RELATED but a lot of people ask how to keep crickets alive. A lot of people have lizards and they like to buy a quantity of crickets.

First, put them in a good size container, the more room they have, the better they will do.

Throw in some paper towel or toilet paper tubes, this gives the crickets something to climb on, and they are not all bunched up on top of one another.

Feed cricket food. Crickets are scavengers and will eat practically anything. But the better you feed them the better they will do. Try the cricket bites. It's a gel like substance that is the crickets source of food and water.

A couple companies make them, one type is green and the other is orange, both work fine.

Crickets drink a lot of water, if you are not feeding the gel food, be sure to put a flat dish of some kind in with the crickets for water. Don't use anything too deep or they may drown.

Crickets do not like the extremes of temperature. So be sure it's not too hot or too cold where you put their cage.

Actually dry dog food works well for cricket food, lots of protein. Remember the better you feed your crickets, the better you feed your lizard because they eat the crickets.
