CORTLAND YOUTH BUREAU

F OR THE COMMUNITY WE LIVE and love in, the Cortland Youth Bureau has been a powerhouse of ensuring that the youth of Cortland and its neighboring towns have plenty to keep them occupied, educated, and entertained, especially in between school years. After all their constant and continuous work, they can now celebrate this year as the 50th anniversary of their summer drama programs. That means that this is the 50th year of music, dancing, laughter, suspense, and learning for our communities, and its impact through the years has not gone unnoticed.

Frequent participants of the summer drama program can be quoted in saying that "Because everyone who wants to participate is cast, it's an amazing performance opportunity, for the kids who regularly do the theatre as well as the kids who've never done it before." For some students, such as Brian Barnes, a frequent flier of the Cortland Youth Bureau's summer drama program "it brought me closer to people I already knew, helped me make new friends, helped me grow, and gave me something to look forward to." But the impressions that this program has made does not only impact its participants, but its directors and facilitators as well. Benjamin Wells, who has officially directed 16 productions and been a part of 22 of them, has consistently been a part of the summer drama programs and will always be coming back for more.

To mark the occasion of the 50th anniversary, not only is this show's production going to be performed in its usual venue in the Cortland High School Auditorium, but "Joseph and the Amazing Technicolor Dreamcoat" is going on tour around our districts: the Homer center for the Arts, the Cincinnatus Central school Auditorium, and the McGraw High School Auditorium.

MIKE'S FISH TANK

THE CORTLAND AREA TRIBUNE

July 19 – August 1, 2017

MANY PEOPLE ASK ME ABOUT fidler crabs. Fiddler crabs are found along sea beaches and brackish inter-tidal mud flats, lagoons and swamps.

FIDDLER CRABS

Like all crabs, fiddler crabs shed their shells as they grow. If they have lost legs or claws during their present growth cycle, a new one will be present when they molt. If the large fiddle claw is lost, males will develop one on the opposite side after their next molt.

Fiddler crabs live rather brief lives of no more than two years (up to three years in captivity). Male fiddler crabs use the major claw to perform a waving display as a form of female courtship. Male versus male competition also occurs as a fighting with the major claws. If a male loses his larger claw, the smaller one will begin to grow larger and the lost claw will regenerate into a new (small) claw.

The fiddler crabs do best when given a place to get out of the water. I usually have them in a tank of part water, part land. Or I have a large floating plant they can crawl onto.

All crabs are scavengers and will eat most any fish food, I throw in some small shrimp pellets as these sink and the fiddlers can actually hold them in their claw and eat them.

Another type of crab found in aquariums is the red crabs. They do not have 1 big claw but rather 2 small claws which are kind of purple in color. Housing the 2 types together may result in fighting.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW. PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

doesn't hesitate to bring you great music you've never heard of before. Every year wonderful new bands are discovered and presented along with many old and true friends. Check out the list of previous years artists for a general idea of what's in store for the future. To learn more about how the festival all began, please visit our History page. Grassrootsfest.org

GrassRoots is held at the Trumansburg Fairgrounds in Trumansburg, located about 10 miles north of Ithaca on the west side of Cayuga Lake in the very scenic Finger Lakes region.

For over 25 years, the organization has served to both engage and give back to the local and regional communities in which it exists by providing financial and organizational support to impact positive change. It's all about having a grand time and generating a feeling of community, but the impact of GrassRoots expands far beyond that which occurs during the four-day festivals.

FINGER LAKES ESTATE & AUCTION COMPANY

When FINGER LAKES ESTATE & Auction Company opened, owner Charlie Dorsey introduced Tompkins County to its first auction house in decades. "A lot of high-quality stuff was shipped out of the county to be sold," Dorsey says. Now, the Ithaca area has a solution: FLEACO, an acronym for the company that not only buys pieces, but auctions them, too – from individual items to entire collections.

FLEACO deals in coins, equipment, fine art (everything from local artists to potential Magrittes), jewelry, and furniture. A key staff member is certified appraiser, Steven Daly, of Ithaca Vintage.The response so far has been stellar.

"Whether settling an estate or just downsizing, one of the biggest mistakes people make is allowing their estates to be Picked," explains Dorsey. "Once the 'cream of the crop' is skimmed off the top, it's hard to draw a large audience." That's where FLEACO comes in. Using the Internet for leverage, FLEACO

wields an international reach with caring attention to detail.
