#### BAILEY'S KARATE

THEN I WAS A KID I wanted to take karate but my parents would not let me. They thought that it would make me more aggressive than I was. The reverse is actually true but some of that stigma is still attached to Karate today. It was not until I was in college I was able to take Martial Arts as a

mini course, who would have known I would still be in it 30 years later and hold a 5th degree Black Belt! When I started to practice Martial Arts more my grandmother would always say he used to have a temper but now after doing karate a couple years he doesn't anymore!

Martial Arts channels excess energy in a positive way. Adults practice it for stress release while increasing their strength

and flexibility. Learning some pretty good self defense skills at the same time makes it even more attractive.

For children the benefits are even higher. It can increase their attention span and ability to focus and concentrate in a classroom while tuning out distractions. They also learn self-defense skills and it builds their self-esteem and selfconfidence.

If you are interested in starting or have a child interested we offer a private introductory class for ages 6 and up! This also lets us learn about your goals in Martial Arts. These are typically between 4 and 5 p.m. Monday - Thursday but we are flexible. Ages 4 & 5 usually like to start right in a class with kids their age. Classes are Mondays & Wednesdays or Tuesdays & Thursdays depending on your age. For more information call us at 607-756-4202, Email us at baileyskaratecortland@ yahoo.com or stop and see us at 108 Homer Avenue in Cortland next to Suggett Park/Wickwire pool.

**MIKE'S FISH TANK** 

STRIPED RAPHAEL CATFISH

THE STRIPED RAPHAEL CATFISH IS a very interesting fish and

f L I usually have them in stock. This peaceful, nocturnal

species is a popular aquarium fish due to its pleasant

temperament and curious nature. It may also be called

Southern striped Raphael, talking catfish, chocolate catfish

or thorny catfish. These fish burrow in the soft river bottoms

and frequently occurs on sandy bottoms. These fish feed on

mollusks, crustaceans and organic debris. They have rigid

pectoral fin spines. The striped Raphael catfish also has tiny

and curved protective spines running along its body. The

striped Raphael catfish can grow up to 7.9 inches. The striped

Raphael catfish is a fine and sociable community fish that are

peaceful to fellow catfishes and other fish species. However, they are nocturnal, and are usually not visible during the

day. It is best not to catch the striped Raphael catfish with a

fish net because they are prone to sticking out their pectoral

fin spines in a very rigid manner, especially if stressed.

Untangling these spines from a net is difficult and dangerous

to both handler and fish. Alternative methods should be used.

I always use a brine shrimp net because the net has very fine

holes and the fish does not get caught as easily as a regular fish

net with bigger holes. The Raphael catfish will make some

grunting/squeaking noises while out of water. This is why

they are called a talking catfish sometimes. There is a fish

called a spotted raphael cat and looks very similar except it is

black with white spots instead of white with brown spots. We have some very small striped raphael catfish in stock now.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW. PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

### **TODAY IS ALL THAT MATTERS PART 2: YOUR BODY**

 $\mathbf{Y}$ OUR BODY IS BOTH A magnificent temple and extraordinary vehicle. It has been with you since the start of your life, and it is with you with every single step you take. Your body is present with you during every joy you celebrate, and every terror you navigate. Your body will uphold its agreement to host You until your very last exhale.

The experience of your life in Fulfillment & Balance is an intimate reflection of your own quality Connection with yourself, and from there, in your Relationships.

We are hard wired to Connect and to feel Connection with others, so how we tend to and nourish our body; daily - with quality nutrients and enlivening movement - will impact our connection with ourself and others we encounter regularly. When we Cherish our body and Nourish our body, we are most equipped to extend that way of Being with others in our life.

For the next two weeks, I invite you to test this out for yourself by 'taking the oxygen first'. For each day, consciously nourish your body with quality nutrients. Administer - like medicine -30 minutes of daily movement into your day that you actually enjoy. A brisk walk is accessible to everyone. Notice, what effects does daily Integrity with your body have in your thinking? Your patience? Your presence with others? Your cheerfulness? Your open mindedness? Your ability to trust your own inner Wisdom? Your genuine empathy for others?

'Do you want to meet the love of your life? Look in the mirror'

We'll continue with this as Part 3 in the next issue...!
