FROZEN OCEAN TO HOST WEEKEND OF FROZEN FEST FAMILY FUN

By Shannon Myers

ROZEN OCEAN MOTORSPORTS FACILITY IS gearing up to host Frozen Fest, a weekend-long family event!

For over 30 years, Frozen Ocean has been serving motocross enthusiasts, becoming one of the greatest motocross tracks

in the country. Located on 66 acres overlooking Skaneateles Lake and the surrounding Finger Lakes area at 4415 Vanderstouw Road, Auburn, Frozen Ocean is a full-service facility which boasts tracks of varying challenge levels. Among these are a Night Cross Track, a Supercross track, a practice track for 50cc riders, an off-road track for ATVs and side x sides, and a clay oval for go-kart racing, and last but not least, a "mud bog" site.

On Saturday and Sunday, July 28th and 29th, Frozen Ocean Sports Facility will be hosting Frozen Fest, a family friendly "mud bog" event. Ryan Walczak, Frozen Ocean owner, wanted to make the mud bog events bigger and better, and he felt that the Frozen Fest was a great way to expand the event, while thanking all of the attendees that have been coming to enjoy the mud bog events throughout the years.

"These events are generally intense and competitive," Ryan said. "But the Frozen Fest is a more relaxed, laid back, family friendly festival, just for having fun. Kids are welcome, and kids under eight years old will get in free."

On Saturday, July 28^{th} , mud bogs will run from 12:00-6:00 p.m., while the band T.J. Sacco plays live from 2:00-4:00 p.m.; and from 6:00-10:00 p.m. there will be 4-wheeler and side x sides events. Sunday, a DJ will provide music from 10:00-3:00, and folks can participate in more mud bogs fun!

Participants and spectators, alike, are welcome. "Anyone with a 4 wheel vehicle of any

kind can come," Ryan said.

"Even if it's just a golf cart to drive all around the property or a atv to try out the tracks and mud pits."

Free fire truck and wagon rides will be offered throughout the event. Concessions will be available all weekend, and an ice cream truck will be present, as well.

Ryan encourages local vendors to contact him if they would like to set up at Frozen Fest. Past mud bogs events have featured vendors such as face painters, wood carvers, and automotive shops. In addition, there will be an area set aside for owners to show off their custom cars and motorcycles; so it you are a proud owner of a special vehicle, you are encouraged to bring it along to display!

You can find out more information by visiting www.frozen.ocean.com; or when you visit Frozen Ocean Motorsports Facility on Facebook, "Like" their page and gain access to their "Event" page, where you will find the most up-to-date information about Frozen Fest.

Sound like a good time? If you are a fan of mud bogs and love family friendly events, then you won't want to miss this exciting event! Mark your calendars and get ready for a weekend of frozen family fun at Frozen Ocean Sports Facilities Frozen Fest!

CREATURE FEATURE RUBY-THROATED HUMMINGBIRD

HE TINY RUBY-THROATED HUMMINGBIRD IS the only breeding L hummingbird in eastern North America. In sunlight, it's brilliant, emerald-green plumage looks like metallic fish scales. Only the male birds have a bright red throat. These amazing winged wonders are capable of zipping to and fro at incredible speeds, flying forwards, backwards and even hovering in place. Perhaps you've been startled by a loud BUZZ when a humming bird whizzed close by. They beat their wings about 53 times per second as they zip about in search of nectar sources. They prefer sipping from tubular shaped, red and orange flowers, but you can also attract them with a hummingbird feeder filled with sugar-water. Ruby-throats are only here for our warm months. By early fall, they migrate across the Gulf of Mexico to spend the winter in Central America. An incredible journey for such a tiny creature!

Here is the simple, 2-ingredient nectar recipe for your hummingbird feeder:

- Use 1 part table sugar to 4 parts water; (red food coloring is NOT necessary)
- Mix well and pour into your feeder; refrigerate any extra nectar
- Hang the feeder somewhere visible and away from cats
- Change the nectar frequently, before it gets cloudy, especially in hot weather, as the sugar water turns to toxic alcohol when it ferments.

MIKE'S FISH TANK FIDDLERS

LOT OF PEOPLE COME to me and wonder why their fiddler

Fiddler crabs are only semi-aquatic, meaning they live both in water and on land. Males and females are easy to tell apart.

Male fiddlers have one large claw and one small one; females have two small claws. Hardy and easy to care for, crabs can live up to three years and grow to 2 inches in length.

The fiddler crabs sold in pet stores generally come from brackish water lagoons. Regardless what you are told, they can not survive indefinitely in water. They have to be able to get out of the water. I usually keep the tank half full with a decoration that sticks out of the water. That way they can come out when they want to.

Like all crabs, fiddler crabs shed their shells as they grow. If they have lost legs or claws during their present growth cycle, a new one will be present when they molt. If the large fiddle claw is lost, males will develop one on the opposite side after their next molt. Newly molted crabs are very vulnerable because of their soft shells. They are reclusive and hide until the new shell hardens.

Sometimes you will see the male waving his big claw, it can be a signal to other males to stay away or it is a courtship kind of thing to attract a female.

As far as feeding, they are scavengers and eat almost anything. I give them shrimp pellets because it sinks and they can it easier.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW. PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

TODAY IS ALL THAT MATTERS FREEDOM

lacktriangle or about 20 years, I've been asking students, clients, and strangers 3 Questions, with the first being, 'What do you want?' The most common answer to this question is 'Happiness'. When then asked 'What are the signatures, symptoms, and evidence of 'Happiness'? the predominant responses are: 'The consistent feeling Inner Harmony Inner Clarity, and the feeling of an Inner Peace or steadiness that is Present, Calm, and Lighthearted'. Lastly, when asked, 'If you lived in a sustained state of Happiness, who or what would you be?' and without fail, the response is 'Free - I would have Freedom. I would be Free'.

Freedom is ultimately the allowing and welcoming your experience of the Living Moment at Play, as it Is, without an argument with It. Freedom is the reduction of unnecessary suffering, and the increase in your experience of yourself flourishing and thriving. Freedom is You, living as an offering to others, fully embodying your unique talents and gifts.

The single greatest barrier we place between ourselves and our own Freedom is the quality of our thoughts in our mind - how we move about our day, describing internally our opinions of others and from there, do we believe our opinions true or not. If we are internally very critical of ourselves, others, and events, we will experience little Happiness and limited Freedom. The most immediate antidote to this is to become aware of what You primarily think throughout the day and to then questions your criticisms and complaints about others. This practice alone has the capacity to radically change your own degree of internal Freedom, for your own Freedom is ultimately an

HOMEOWNERS INSURANCE INFORMATION

BECAUSE EVERYONE'S NEEDS ARE NOT the same, it is best to consult your agent to help assess your needs and find the insurance policy that is right for you.

What is Homeowners insurance?

......

Homeowners insurance provides financial protection against disasters. A standard policy insures the home itself and the things you keep in it.

Homeowners insurance is a package policy. This means that it covers both damage to your property and your liability or legal responsibility for any injuries and property damage you or

members of your family cause to other people. This includes damage caused by household pets.

Damage caused by most disasters is covered but there are exceptions. The most significant are damage caused by floods, earthquakes and poor maintenance. You must buy two separate policies for flood and earthquake coverage. Maintenance-related problems are the homeowners' responsibility.

Why do you need homeowners insurance?

It is really all about protecting yourself financially if something unexpected happens to your home or possessions. That's important because chances are your home is likely one of your largest investments.

- If your home was destroyed by fire or damaged by a natural disaster, you'd need money to repair or replace it.
- If a guest in your home is injured, liability protection and medical coverage help pay expenses.
- If you are a victim of theft and vandalism, it can reimburse you for your loss or pay for repairs.
- If you are still paying for your home, your lender will require insurance.

It is important to know that homeowners insurance is meant to cover unexpected damage, not routine maintenance. Ask your agent to talk about what is covered and be sure to read your policy so you know exactly what's included and what is not.

Things to consider and questions to ask your agent

Here are few things to discuss with your agent that will influence your decisions.

 How much will it cost to rebuild my house and replace my belongings if they are damaged or destroyed? (Ask your agent to talk you through your home's features

- and the things you own so you can make an informed decision about coverage.)
- Does the insurance company have a good reputation for customer service? Is it known for paying claims fairly and promptly?
- What discounts are available? (Ask about multiple policy, security system and fire resistance discounts.)
- What's the process for filing and settling a claim? (Ask who to call and what happens after you file a claim.)

Call Seven Valley Agency to Review your current Homeowners Insurance Policy or If You are planning on buying A Home in the near future we would Love to talk to you to discuss!! Stop by our office anytime at 18 Tompkins Street in Cortland! Next door to the YMCA! Call us at 753-1821

TARSON POOLS & SPAS RELOCATES TO MCLEAN ROAD

By Shannon Myers

ONG-TIME CORTLAND BUSINESS TARSON Pools & Spas has changed locations!

Opened in 1943 at its original location on Burnett Avenue by Frank Tarson, Bob's grandfather, Tarson Pools & Spas initially offered cleaning supplies. During its 75-year evolution, the business has expanded into seven locations and has become what it is today: the "leading and longest seller of pools and spas In Central New York".

Tarson Pools & Spas offers a diverse array of top of the line products, including quality above ground pools and custom inground pools, state of the art spas, patio furniture, game tables, and pool accessories.

"The move has been a challenge, because the McLean Road location is smaller," Bob said. "The Cortland location still offers all of our products and services, with the exception of the billiards tables and a large selection of furniture. Consumers can still shop the Syracuse locations for these items." In addition, the new location can be difficult to identify. "We are working with a remodeler and are hoping to get the exterior of the building upgraded by fall," Bob said.

What sets Tarson Pools & Spas apart from its competitors?

One of the most important elements that Tarson Pools and Spas offers is proper insurance coverage. This is a big help to consumers.

"We often get calls from consumers with price comparisons from other pool retail and servicers who offer lower pricing," Bob said. "What consumers don't know is that the recommended installers are not always fully insured, which is a high risk to the homeowner. The most important types of insurance that are necessary to protect the homeowner are worker's compensation and general liability insurance. We carry these types of insurance, making our pricing a little higher, but adding immeasurable value for the consumer."

Tarson Pools & Spas also has trained and certified staff for service. "We have CPO certified staff," Bob said. "CPO is a New York State Certified Pool Operator class that our employees attend. They receive certification to acknowledge the build of the pool and both commercial and residential service work."

If you are in the market for a new pool or need products or services for your current pool, visit Tarson Pools & Spas at its new location at 953 McLean Road (next to Doug's Fish Fry). Have questions? Give the Cortland branch a call at (607) 758-3550. For information about its different locations or to check out all Tarson Pools & Spas has to offer, visit www.tarsonpools.com.

through September. Bring your questions, ideas, and your electric bill! We'll suggest ways to cut your energy use, shrink your carbon footprint and we'll go over NYSEG's new rates that may help you shave more off your electric bill. A concurrent energy literacy session for youth is offered for those who tell us they would like to bring their children along. Questions? Contact Aislyn Colgan at acc332@cornell.edu or (607) 272-2292.
