THE CENTER LISLE DINER

WELCOME BACK TO THE CENTER Lisle Diner! A couple of weeks ago I told you about this hidden gem off Route 79 that is turning out some delicious food. Now we have more exciting news!! Jo and her daughter JoAnne have updated the hours and expanded the menu to include a wide array of home cooked meals, desserts and tasty soups just in time for fall!

They still have their lunch menu with their juicy, hand formed 8oz burgers, tasty sandwiches on fresh bread, crispy French Fries and their popular Saturday Chicken BBQ. They now also have dinners that include mashed potato, veg, and your choice of soup or tossed salad. Dinners start at \$7.49 for 1 Pork Chop and go up to \$18.99 for a T-bone steak cooked to your liking. Fried Chicken and Country Fried Steak dinners help round out the menu, plus they have daily specials such as the All You Can Eat Spaghetti dinner on Thursdays. \$7.99 for the meal, which comes with meatballs, a side salad and dinner roll

Their lunch menu still includes their cheeseburger with crispy bacon plus they now have several subs such as Ham, Turkey or Roast Beef (all with cheese), 6in for \$4.69 or foot long for \$6.79. All sandwiches come with your choice of lettuce, tomato, onions, pickles, olives and mayo or sub sauce

and chips. For a \$1.50 more you can substitute French fries for chips, which by the way are usually hand peeled by 80 year old husband, father, grandfather, great grandfather and restaurant owner James Gehm. They also have hot subs: Philly Cheese Steak, Hot Roast Beef (see picture) and sandwiches: BLT and Tuna just to name a few.

Did I mention homemade soups just in time for fall? The Broccoli Cheese is the perfect amount of creamy cheddar cheese and soft (yet not mushy) broccoli and thinly sliced carrots. The Italian soup is savory with ground sausage and tomato broth. Delish! The portions are big enough to leave you full and satisfied with just a small amount left over for your to-go box to remind you at lunch tomorrow of the delicious dinner you had last night. For that insatiable sweet tooth, they have some homemade pies as well as both soft serve and hard ice cream.

To round out the more diverse menu, they will be rolling their own homemade pizza dough for several different pies available. They will have cheese, pepperoni, chicken bacon ranch, buffalo chicken and meat lovers just to name a few, with a large variety of toppings to fit any pizza lover's dreams.

For those of you looking for healthy options, they do have fresh salads as well as sugar free desserts that are just as tasty as the rest of the menu. All reasonably priced I might add.

Their new hours will be:

- Mon, Tues, Thurs, Fri 11-8
- Wed 5-8 Pizza
- Sat 11-8 Pizza, Wings & Chicken BBQ
- Sun 11-8 Pizza & Wings

DON'T FORGET!! That succulent Chicken BBQ starts at noon on Saturdays, served til gone.

So, if you're looking for that home cooked meal and family environment, stop on in. The Center Lisle Diner will leave you feeling full, satisfied and like you were visiting grandma for a Sunday evening dinner. Like them on Facebook and see daily specials and hours. Call ahead orders to-go 607-849-4900 Hope to see you soon!!

The second location is conveniently located just one mile from Cornell University (on Rt. 366) in the Hamlet of Varna at 945 Dryden Road. Varna's phone number is 607-275-0611. Both locations are an AAA Approved Auto care center featuring quality Napa and AC Delco parts. Both locations are open 8am to 5:30pm Mon-Fri.

Maintenance Tips from Bell's:

How to avoid Breakdowns?

The best thing you can do to avoid breakdowns is to perform regular scheduled maintenance. Such as changing your oil & filter every 3,000 miles. Catching any small problem before it becomes a big problem can save you a lot of money. We can talk to you about known problems for your specific make and model as well as any maintenance required.

Having your oil changed is one of the most important maintenance procedures you can do for your car. If you follow good auto maintenance you will extend the lifetime of your vehicle by thousands of miles.

- Change regular oil every 3,000 miles.
- Change synthetic oil every 5,000 miles.
- Change your antifreeze every 2 years.
- Change your brake fluid every 2 years.
- Change your transmission fluid every 30,000 miles.
- Do scheduled 15, 30, 60 and 90,000 mile maintenance.
- Always check for potential problems before they happen.

Thank you to our customers for their patronage over the past 30+ years!

POSO COAL

Corner of Gulf Hill Road and Route 13 in Dryden

During the 1950's, My grandfather Rex Poso was traveling to Pennsylvania to purchase coal to heat his home. Other area farmers and homeowners were quickly asking Rex to deliver to them as well. Rex began building the coal yard on the corner of Route 13 and Gulf Hill Road as he gained more customers. This was just the beginning of Poso Coal.

In 1978 my uncle John Poso, acquired the business. For 40 years, John expanded the business to include an inventory of Alaska and Keystoker stoves, furnaces and boilers, a large stock of parts and began carrying wood pellets. For nearly ten seasons, I was fortunate to be part of this business making deliveries and getting to know the strong clientele base that

he and my grandfather had created. When John asked me last year if I would be interested in owning the family business, I did not hesitate.

Over the past year, I have invested my time speaking with our manufacturers to gain an extensive knowledge of the products we carry. I think this is crucial in order to provide the best customer service to homeowners. I spend time with each of my customers to answer any questions they may have, assuring that they have a helpful and respectful interaction every time.

I have expanded our delivery options to better serve our customers. With the purchase of a new trailer, I am able to bring the skid steer to deliver up to 5 ton of bags and place the delivery where it is convenient for the homeowner.

TODAY IS ALL THAT MATTERS YOGA FOR ANXIETY

 ${f I}$ f you ask some of the 27-37 million people in America who practice yoga, 'why?', you'll get a whole range of answers. People might say: 'get in shape', develop flexibility', 'improve balance', 'lose weight', or 'find inner peace'.

My experience in teaching yoga to thousands of individuals over the past 8 years is that there is another reason that brings people back to the mat: yoga helps relieve some of the sensations that accompany anxiety.

"Anxiety occurs as rapid or racing thoughts that we are believing true, leading to feelings of worry, nervousness or unease about something, a future event or uncertain outcome." — Definition by Daniela Hess

Anxiety is not usually about what's happening in our life right at that moment, and so anything that helps us tune in to the present moment is a kind of 'medicine' for anxiety.

Yoga helps us to be grounded through the movements and stretches and work that our body is doing, in the present. Yoga connects the breath and mind together, which slows the racing thoughts.

Yoga reduces sensations of anxiety by relieving stress, bringing the mind back to the present, and giving us time and a safe space to be with intense feelings.

Yoga is a 'practice' that we undertake on the mat, in community, so that when we are out in the world, in our lives, we can remember to breathe, slow down, and respond to situations from a place of kindness.

At Yoga Farm, we don't teach pretzel poses or handstands. We teach simple, effective yoga, that just about everyone can do, in a way that will bring benefit to your life immediately.

Written by Christopher Grant, Yoga Farm Director, Yoga Teacher and Meditation Guide. For more information about self care practices, visit www.YogaFarm.us.

HOMEOWNERS INSURANCE INFORMATION

BECAUSE EVERYONE'S NEEDS ARE NOT the same, it is best to consult your agent to help assess your needs and find the insurance policy that is right for you.

What is Homeowners insurance?

Homeowners insurance provides financial protection against disasters. A standard policy insures the home itself and the things you keep in it.

Homeowners insurance is a package policy. This means that it covers both damage to your property and your liability or legal responsibility for any injuries and property damage you or members of your family cause to other people. This includes damage caused by household pets.

Damage caused by most disasters is covered but there are exceptions. The most significant are damage caused by floods, earthquakes and poor maintenance. You must buy two separate policies for flood and earthquake coverage. Maintenance-related problems are the homeowners' responsibility.

Why do you need homeowners insurance?

It is really all about protecting yourself financially if something unexpected happens to your home or possessions. That's important because chances are your home is likely one of your largest investments.

- If your home was destroyed by fire or damaged by a natural disaster, you'd need money to repair or replace it.
- If a guest in your home is injured, liability protection and medical coverage help pay expenses.
- If you are a victim of theft and vandalism, it can reimburse you for your loss or pay for repairs.

• If you are still paying for your home, your lender will require insurance.

It is important to know that homeowners insurance is meant to cover unexpected damage, not routine maintenance. Ask your agent to talk about what is covered and be sure to read your policy so you know exactly what's included and what is not.

Things to consider and questions to ask your agent

Here are few things to discuss with your agent that will influence your decisions.

- How much will it cost to rebuild my house and replace my belongings if they are damaged or destroyed? (Ask your agent to talk you through your home's features and the things you own so you can make an informed decision about coverage.)
- Does the insurance company have a good reputation for customer service? Is it known for paying claims fairly and promptly?
- What discounts are available? (Ask about multiple policy, security system and fire resistance discounts.)
- What's the process for filing and settling a claim? (Ask who to call and what happens after you file a claim.)

Call Seven Valley Agency to Review your current Homeowners Insurance Policy or If You are planning on buying A Home in the near future we would Love to talk to you to discuss!! Stop by our office anytime at 18 Tompkins Street in Cortland! Next door to the YMCA! Call us at 753-1821.

DAISY HOLLOW FARM COUNTRY **STORE GRAND OPENING**

Saturday and Sunday, October 27th and 28th, 2018

T's finally here. After talking about this for over a year, **⊥**we made it happen! Now our great variety of all-natural, handcrafted products will be on display and ready for sale at our beautiful country store set in the scenic Harford Valley!

Open the large barn doors and find reclaimed barn boards and rustic handmade apple crates, a throwback to the 1840's farmhouse in which the store is located. Reminiscent of the bygone country store, the shelves are filled with the handmade, the locally grown, and the locally crafted. The light fragrance of pure essential oils gracefully fills the air as the door slowly closes behind you, blocking out the busy world, if only for a moment. The shelves are filled with handcrafted soaps, lotions, lip balms, salves, deodorants, bug repellents, and sunscreens, made with herbs, botanicals, honey, and beeswax all grown and produced right on the farm. In the corner, an old stool sits in-the-ready next to a pile of unspun wool and a hand-carder. Small woolen critters and wool soap scrubbies, made from the hands of a patient needle-felter, await the exclamation of surprise as a customer claims one as their own. Jars of infused botanicals: Calendula, Dandelion, Plantain, await their time to be used in the next salve. On the wall hangs a drawn-out frame, borrowed from a beehive, giving a close-up of the complex honeycomb usually hidden deep inside the hive. Jars of golden honey line the shelves as a reminder of summer's bounty.

Every nook and cranny offers a glimpse of a garden's harvest, a peek of a farmer's patience, wrapped up and ready to be taken home, to be re-opened and remembered at another's hearth.

Come share the warmth of Daisy Hollow Farm where we offer a little bit of everything. Share in our summer's bounty of inseason vegetables, fresh cut flowers, organic pork, organic whole roasting chickens, fresh eggs, and so much more. Stroll through our gardens or tour the farm to meet our sheep, goats, pigs, cows, chickens, and bunnies. Each season brings fresh delights! We can't wait to see you, and have you share the

CREATURE FEATURE EASTERN CHIPMUNK -PREPARING FOR WINTER

UTUMN BRINGS A CHILL TO the air, falling leaves and the Asmell of wood smoke on frosty mornings. It also finds wildlife preparing for winter in various ways. Canada geese take to the skies in loud, south-bound V's, distancing themselves from plummeting temperatures and freezing lakes. Black bears are eating machines, packing on fat to see them through a long hibernation. The tiny Eastern chipmunk has been busy since spring, preparing for the coldest season by "scatter hoarding" - stashing seeds, bulbs, fruits, nuts and fungi in various pockets throughout its territory. Sometimes the food is eaten promptly, but it's often relocated to one of many storage chambers within the interconnected burrows that make up the chipmunk's underground nest. Expanding cheek pouches in its mouth function like grocery bags, enabling the chipmunk to move lots of food in one trip. Hoarding helps ensure ample nourishment throughout the winter, much of which the chipmunk spends snoozing inside its nest. Snowpack and weather influence the duration of this inactive phase. In our region, this generally spans from mid-November through late March or April. Since the chipmunk doesn't store fat, it's not a true hibernator. It rouses from periods of torpor to eat from its caches and may leave the burrow to forage during mild spells.

Yes, they do make algae wafers but not all algae eating fish like those. Wait til you see some algae growth in your tank, then add a fish that eats it.

Go easy on fish if you just set the tank up. Remember that good bacteria that eats the fishes urine takes awhile to grow. More times than not, too many fish too soon will lead to your fish dying.

OGGING HAS BEEN A BIG part of the growth of the United ■States yet oddly enough not many people are aware of what goes into the process. Many people think that it is just clearing land for resources and in part this is true but it's so much more than this. Thayer Logging will assess your property and advise land owners on how to manage their land to get the most resources and money you can. Managing your land will include taking a look at the type of trees you have on your property and comparing these to the current lumber market. This also includes what we call Selective Cutting, we use this term to describe only taking the mature trees from the land and making sure that the trees left have room to continue their growth process. This helps harvest the trees that can bring enough money to help pay your taxes for the year and then also keeping the resources on the property to log in another 10-12 years. This is the average time frame you should have your property logged or managed to make sure there is no overgrowth and allows for mature trees

> in the future. If you are considering logging your property to help with taxes or just to have some extra cash please have one of our professional loggers come

and assess your property. Thayer Logging has been family owned and operated for over 10 years. Call today to learn more 607-372-1023
