heat is a much more steady heat and generally only requires loading once every 24 hours as opposed to a wood burning appliance only burning for 6 to 12 hrs. Coal has nearly twice the BTU's of wood pellets and cost nearly the same per ton; meaning that if you burn 4 ton of wood pellets the same household would use about two ton of coal. Coal has got a bad name from the dusty old coal of the past. Today's coal is tested for carbon content and WASHED to get that excess dust off the coal from production. If you are thinking of switching or updating your heat source, please stop by our showroom and see the different options tailored to fit almost any heating need. We have freestanding stoves, furnaces and boilers of all different sizes. Some of the boilers and warm air furnaces also have the option of fuel oil/propane back up. We continue to pride ourselves on building relationships with our customers (old and new) and assuring their needs are met. We SERVICE what we sell! Please contact Shane Merriman at (607) 753-8603. We look forward to another successful season!

PETS A PLENTY

DETS A PLENTY OPENED IN 1989. Our goal was to give Cortland the best possible Pet Store. Over the years we have found the best places to get fish, animals, reptiles, birds and snakes. We have also learned a lot over the years, from our suppliers, breeders and even you, our customers. My wife is also a graduate of Cornell and has an animal science major. We pass all of our knowledge on to you, so you can have the healthiest and happiest pet.

A lot of our animals are from local breeders and thus are quite tame. Customers are always telling us that we have the friendliest animals.

We sell a wide variety of animals and their supplies such as an assortment of different type hamsters, guinea pigs, bunnies, gerbils, tame rats, chinchillas, lots of different reptiles and baby snakes. We also carry feeder mice and rats in different sizes and we have crickets, mealworms and superworms. As far as birds, we carry the smaller species such as parakeets, finches, lovebirds and cockatiels. Once in awhile we also have Quakers. It has been difficult getting cockatiels this year but we have been able to get some in. We also carry frozen fish foods, such as brine shrimp and bloodworms.

Pets A Plenty has 50 tanks of different types of fish, all in clean tanks, with clear water. We carry pond fish too, such as koi, shubunkins, sarasa comets and regular comets.

If you need a tank kit or animal kit, we have those and if you buy a kit, you also get a discount off the animal.

If you buy a tank setup, we give you free fish.

New fish, animals and supplies come every week. Don't forget we carry all the supplies you need for your pet, treats, foods, toys, decorations, cages and more.

Right now, we have a great deal going on, baby ball pythons only \$39.99 and they are locally bred.

Another special, baby rats available as pets. There is an assortment of colors and we breed them right here at the pet

They are about 6 weeks old and make fantastic pets, only \$2.99. Stop in and check them out. We have some really friendly bunnies that love people and being petted and they should not get very big as the parents are small.

Our lizard selection is really good right now, iguanas, bearded dragons, savannah monitors, leopard geckos, brown and green basilisks, swifts, curly tail lizards to name a few. We also carry hermit crabs and their supplies.

Come and see us, even if you do not need a new pet, stop in and

If you need a certain thing ordered, go to our website www. petsaplenty.biz and fill out the contact form. I will respond within a day, or call us. 607 753 9213.

We are located on Rte. 281 across from Tops Market, Cortland. Our actual address for your GPS is 3925 West Rd, Cortland.

Pets A Plenty is open 7 days a week. Monday 2 to 6, Tues and Wed. 10 til 6, Thurs, Fri, Sat, 10 til 7 and Sunday 2 to 6.

Sometimes I am open later if I have deliveries to put away, so if you need something after closing time, call or stop. If I am here I am more than glad to help you. We have a lot to offer. This is our 30th year and we thank all of you.

FABIUS COUNTRY STORE

ABIUS COUNTRY STORE IS LOCATED on the corner of Route 80 and Ridge Road, in the village of Fabius, and shares its location with Fabius Bottle & Can at 7861 Main Street.

Co-owners, Bruce Chimene of Tully and Rhonda Wheeler of Cazenovia, purchased Anna's Country Store when it closed in December 2016, but the property did not suit our needs, so we bought the Barber Shop nearby, immediately opened the Bottle Return in one half of the building, and began renovating the other half for the store in 2017. We are pleased that the work is finally done and we have been open for about 2-1/2 months.

The addition of the deck and ice cream windows has complimented the store nicely, which also has groceries, pizza and much more as the work advances. There will be beer available when the license is acquired and lottery after the required 90-day waiting period and training is complete.

As the store progresses and customer needs are expressed, we will expand from coffee and breakfast sandwiches, pizza, wings, lunch specials, Ice cream both hard & soft, floats,

sundaes, ice cream sandwiches, splits and cigarettes to include deli meats and salads, subs and sandwiches, and as many local products as we can squeeze in.

We are completely ADA compliant with a convenient ramp and bathroom facilities. Outdoor seating is available on the deck. We invite everyone to come and see how we are doing and relax on the deck with an ice cream cone. We look forward to serving the community and offering the country store environment and invite local vendors to stop in to offer their products. If you need something that we don't have, please let us know, as we are a work in progress.

LOST DOGS OF THE FINGER LAKES

UR MISSION AT LOST DOGS of the Finger Lakes is to help the lost become found. Recently, I spoke with a wonderful woman who had found a dog. We posted the dog on our page

and while the owner was found and positively identified in a matter of a few hours, it was not before the finder received a handful of calls from other people professing to be the dog's owner. One caller even claimed to be the neighbor of the owner but when questioned, couldn't give simple identifying

But there are lessons here, and ones that we need your help in sharing far and wide. People with bad intentions for our beloved pets are watching our page and others like it. They also ride the roads looking for pets that aren't secured or being monitored. They are attempting to steal dogs or claim dogs that are not theirs and the reasons why are all bad; dog fighting, selling to labs for testing, adding to their hoarding collection, flipping...it's an endless and terrifying list.

What can you, as the finder or owner, do? First and most importantly (as we've always preached) call your local Dog Control Officer (DCO) and file a lost or found report. Calling your DCO is not optional - it is a legal requirement. This report helps you and helps your dog. It creates a legal paper trail that will help to identify your dog when found or will help to prosecute someone who may have found your dog....and

Second, this is for you the finder, when an individual calls or arrives to claim ownership, insist on proof. Ask for vet records, licensing documentation, or even photos. If the individual claiming ownership cannot show proof, call your local police department or DCO right away and let them sort it out.

Third, and this is for you the owner, make sure your dog is licensed and wearing their tags. This registration is required by law and serves as proof of ownership and is a vital link to getting your dog safely home should they ever become lost.

What can we, as a community, do? We can educate about the role of our DCOs and the importance of licensing. We can make sure that we're aware of the dangers out there for these dogs and protect them with everything we do. Thank you to all who share our posts...you've saved countless lives.

11TH ANNUAL ANTIQUE FIRE APPARATUS, CAR, TRUCK AND BIKE SHOW

THE McGraw Fire Department is hosting its 11th Annual ▲ Antique Fire Apparatus, Car, Truck and Bike Show on Sunday, August 25th at the Rec Fields on Clinton Street in McGraw. Come out and enjoy a great day of fun, music, awesome cars and food! They will have craft vendors as well. The car show was started 11 years ago after the family of former member and chief "Kerm Rowe" donated a 1941 American LaFrance pumper back to the department after Kerm's death. The 1941 American LaFrance pumper was an original piece of equipment purchased by the department brand new in 1942 and served its community until 1969. After being taken out of service, the truck was purchased by Saulisbury Fire Apparatus and was used as a loaner to the Virgil Fire Department. After some time the truck was purchased by McGraw member Kerm Rowe and it was stored for over 35 years until its donation back to the department in 2007. At that time a committee was formed to seek funding and raise money to restore the truck as well as the other two pieces of original equipment that the department also owns, 1800's era hose cart and ladder cart! The car show was created to raise money to restore and preserve all pieces of antique equipment the department owns. Please come out and support the McGraw Fire Department on Sunday, August 25th and enjoy the awesome antique fire apparatus, streetrods, muscle cars, antique cars and tractors, custom motorcycles and more! Rain date Sunday, September 8. Questions call Ed Greenman at 607-838-4263

BIKING WITH YOUR DOG

O YOU MOUNTAIN BIKE? Do you have a good friend that watches you pull out the driveway as you leave for your ride? Your dog can also enjoy the fun and benefits of being in the woods or on trails as well. Dogs have a lot of energy and require exercise just like you or I. Depending on the type of dog you have will determine the extent of running he can do. Most medium to large size dogs from the hunting or working class groups (or a combination thereof) do well with biking. Obviously a little dog with short legs will have a tough time trying to keep up. If you have a four legged buddy you want to take out on the trail for the first time it would be a good idea to talk to your dog's veterinarian about what you have in mind for him. It is important that your dog can deal with the rigors and intensity of a trail run. Mountain bikes can move right along at a good pace and cover many trail miles.

If the dog is just a puppy, it's recommended to leave him home until he is least 6 months old. After he has gotten a little older, start your first slow and short ride someplace where you can work out the little details. Dogs are instinctively pack animals and if you lead they will follow. Since he will be off the leash for the ride/run he needs to know a few important commands. The most important ones are "stay" and "come". Control of Fido is very important because of all the distractions on the trail. Distractions come in many forms, such as

other people and possibly their dogs, horses, deer and vehicles. If you start your ride from spot near a busy road, it might be a good idea to keep him on a leash until you are ready to leave for the ride.

I have found another good way to break him in is to take him on a group ride with other well behaved dogs. He will most likely be so excited to be in the woods, around you and the other dogs that he will follow without question; again it's the pack idea.

Before you hit the trail you should have a checklist for Fido. Your list should include a water bottle just for him, a leash, and some first aid supplies and maybe some treats to lure him back when he strays (cut up hot dogs in a baggie worked for me).

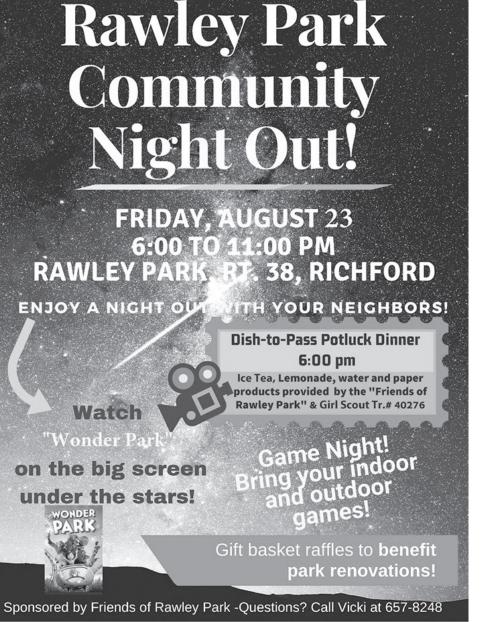

So, you and dog are headed down the trail, now what? Well you'll find that while you are following some kind of trail, your 4-legged buddy will be running from one side of the trail to the other, smelling all those scents that drive dogs nuts. Some dogs can put on half again as many miles as the rider, so keep that in mind when watching your mileage because he will have more. Most dogs will want to be out front, but because of their sniffing, they may lag for a few seconds and then come charging up thru. It's important for you to hold your line, because that is what the dog is expecting. A few things that the new trail dog must learn and that is to stay away from the bike's front wheel or even stopping in the middle of the trail, not good. Usually if you shout "Go!" works, but sometimes a collision happens. Both you and the dog need to be alert and aware of what is going on. Sometimes a friendly low speed bump from your front wheel to the dog's rump or tail can quickly bring this point clear. A few applications of this can burn it into his mind. An ounce of prevention is worth a pound

There are some young dogs that have so much energy or get so excited when they get out on the trail that controlling them can be a real handful if not near impossible. You need to evaluate the excitable boy or in our case the Crazy Daisy. She has not given us the confidence to just let her run, until then we keep working with her on a 30ft lead. We have had great luck with our last two trail huskies but this one needs more attention before she can go free. The last thing we want is for her to take off on us and end up lost.

Some people I have talked to have had good luck with training collars for dogs "off leash" in the woods. Some people don't like them but if done properly they can keep the dog with you, safe and sound. With something like this it requires time and work but it may be the best way to train a stubborn dog.

Mountain biking with your dog can be a challenge, but patience and time will make it worth the effort. Just remember, that it will be difficult to pull out the driveway without taking your riding buddy along. If you are a cross country skier, this same kind of fun can continue when the snow flies.

Happy trails to you!

T CAN BE FUN TO learn new things about something very familiar. The mallard is a duck that most people can easily recognize, especially the handsome male with his metallic green head and white-ringed neck (the female is plain in comparison, with brown and tan feathers). much in any freshwater body bigger than a puddle! Here are some interesting facts about the most common wild duck in the northern hemisphere.

Only the female mallard makes the familiar "quack" sound. It can carry for miles. She raises her duckings alone and may fake being injured to lure a predator away from them.

> Twice a year, mallards lose their flight feathers. It takes about 3 weeks for the new ones to grow in, during which they can't fly.

> Mallards migrate south to avoid winter weather and use familiar landforms to guide them along their journey.

> Mallards are incredible flyers, capable of taking off nearly vertical from the water. They've been clocked at up to 70 miles per hour.

The comical way mallards waddle when they walk is due to their legs being set so far back on their body.

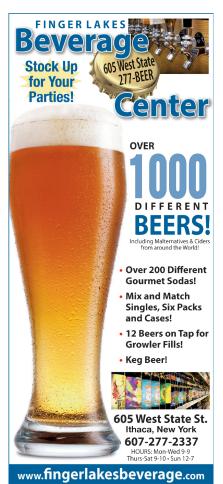

Almost all domesticated duck breeds have been derived from the mallard.
