### **PAUL GOODWIN**

'y NAME IS PAUL GOODWIN, 33, of North Syracuse. I have **⊥**been a Registered Nurse in Central New York for over 10 years and have most recently made the transition to becoming a Licensed Independent Health Insurance Agent. I have always enjoyed getting to know patients and their families in my previous Critical Care roles. I was ready for a change of pace but knew that I still needed to be doing something that involved working directly with people. Given my background in healthcare, health insurance didn't seem that far off. For the past year my main focus has been servicing the Medicare population. Navigating retirement, and ageing in to Medicare can be a stressful time even for people who feel they have a solid understanding of the process and decisions that need to be made. I see myself as a resource for people. I take a personalized approach and want to get to know you and your family in order to do my job better. I am in the business of building lasting relationships for years to come. I am going to come to you, if that's what you prefer, sit at your kitchen table, and get you answers to any questions you may have. I will do whatever I can to make this an easy and seamless transition for you and as always, please feel free to call me with any questions, concerns, or to set up an appointment at (315)-706-

### MIKE'S FISH TANK POND FISH INDOORS

T'S THAT TIME OF YEAR when people start thinking about bringing their pond fish inside. Some people start as early as September, but some people are doing it now.

Remember, goldfish can stay out in the ponds all year as long as the water doesn't freeze solid.

Of course around here, you never know because we can get a really cold winter. However if you want to leave them out in the pond all winter, there are a couple things you can do.

The first is a pond heater. It floats in the pond and keeps at least one area free from ice so that the fish don't freeze. Another is to have a pump blowing bubbles in the pond. That will prevent the water from freezing solid.

If you do bring your pond fish in, try to set up the tank a few weeks ahead of time and put a couple of small goldfish into the tank to get the beneficial bacteria going. If you bring in a whole bunch of pond fish and add them to your tank all at once, you could be facing a massive die off.

The good bacteria actually eats the urine the fish produce. So it is very important to have that.

After the bacteria grows, the rule of thumb is one inch of fish per gallon of water. Also be sure to have a good power filter and an air pump with airstone blowing lots of bubbles into the tank. Lots of bubbles is a very good thing. Feed your goldfish a good quality food and feed them small amounts but several times a day. The fish farms recommend feeding 3 to 4 times a day, but remember SMALL amounts.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW. PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

## CREATURE FEATURE OWLS IN FOLKLORE

 ${f I}$ t's almost Halloween... a perfect time to learn how owls have been steeped in superstition and folklore around the world. Ancient Romans believed that an owl's presence was a portent of imminent doom, and the early Christian church branded owls as a sign of demonic possession. In many cultures, owls were a sign of death: to see or hear an owl hooting meant someone would die (photo is of a Barred Owl, nicknamed a "hoot owl"). Some Native American tribes believed that witches shape-shifted into owls that flew silently over people, casting wicked spells on them. For the Apaches, to dream of an owl meant death was coming. Other tribes wore owl feathers to acquire its powers of stealth and night vision, while people in India simply ate owl eyes to improve their sight. In parts of Africa, the owl was thought to carry messages between shamans and the spirit world. A Polish legend claimed that married women turned into owls when they died. Similarly, Australian Aborigines believed that owls were the sacred spirits of dead women. One amusing bit of English folklore claimed that if you walked in circles around an owl in a tree, it would eventually wring its own neck as it rotated its head around and around to watch you. Have a hoot this Halloween!
