TARSON POOLS & SPAS IS READY FOR 2020 SEASON

By Shannon Myers

WARM WEATHER IS FAST APPROACHING, and it is time to get your pool in order. Tarson Pools & Spas Cortland branch, located at 953 McLean Road, has received an exterior upgrade, an internal expansion, and is ready to help you with your 2020 needs!

Tarson Pools & Spas opened in 1943 at its original location on Burnett Avenue, it has expanded into seven locations and is the oldest and largest pool and patio business in Central New York. Tarson Pools & Spas offers a diverse array of top of the line products, including quality above-ground pools and custom in-ground pools, state of the art spas, patio furniture, game tables, and pool accessories. This, along with the fact that Tarson Pools and Spas offers proper insurance coverage to consumers, helps set this business apart from its competitors.

"We often get calls from consumers with price comparisons from other pool retail and servicers who offer lower pricing," said Robert Tarson Jr., owner. "What consumers don't know is that the recommended contractors are not always fully insured, which is a high risk to the homeowner. The most important types of insurance that are necessary to protect the homeowner are worker's compensation and general liability insurance. We carry these types of insurance, making our pricing a little higher, but adding immeasurable value for the consumer. This insurance protects the consumer in the case of worker injury or issues that arise from improper work."

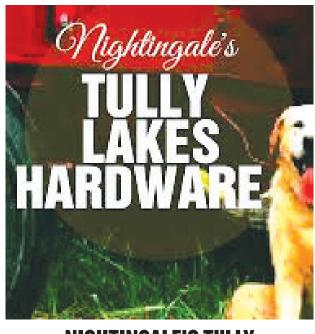

Tarson Pools & Spas also has trained and certified staff for service. "We have CPO certified staff," Bob said. "CPO is a Certified Pool Operator class that our employees attend. They receive certification to acknowledge the build of the pool and both commercial and residential service work."

Get ready for lots of summer fun! Visit Tarson Pools & Spas at 953 McLean Road, for all of your pool care and maintenance needs. questions? Give Tarson Pools & Spas a call at (607) 758-3550. For information about its different locations or to check out all Tarson Pools & Spas has to offer, visit www.tarsonpools.com. Please call for hours.

CREATURE FEATURE BIRD BRAINS

THE CROW IS REMARKABLY CLEVER. In France, it has been can memorize human faces and recall positive or negative experiences associated with them. It commonly uses a stick as a tool to pry prey from a hiding place, often carving a hook at one end with its beak to create a specialized device. Juvenile crows have been observed using sticks to play fight. This bird has an exceptional ability to problem solve. In one test, researchers presented crows with assorted glass tubes partially filled with water. A food reward was placed inside each, floating out of reach. Various solid and hollow objects were provided. The birds soon figured out how to displace the water by dropping objects into the tubes to bring the food reward within reach. They learned to choose heavier, sinking objects over floating ones. In another test, crows were given transparent boxes with a slot at each end and a visible food reward inside. Long sticks were left nearby, which they quickly used to insert into one slot to push the treat out through the other. Next, the long sticks were replaced with short ones that had receptacles allowing them to be joined. Within minutes, the crows were building compound tools to reach the food, with some probes requiring 4 parts to work. This is the first time compound tool construction has been noted in an animal other than a human, giving new meaning to the phrase "bird brain."

MIKE'S FISH TANK PLATIES

PLATIES ARE NATIVE TO THE east coast of Central America and southern Mexico. They are a very popular tropical fish as they come in such a variety off colors. If you want color in your tank, come look at the platies.

Platies are livebearers and have live babies. like the mollies, guppies and swordtails. Platies may eat their own young so keep them in a well planted tank so the babies have a place to hide.

Several different color variations have been developed, such as red, yellow, orange, blue, and white. The mickey mouse platy has a spot on their tail that looks just like a mickey mouse head. Wag platies have black tails but the body may be red, orange, blue, white or variations. There is a hi fin platy which is a platy with a big top fin, the new candy cane platy is red and white and very cool looking. Another new platy is the bumblebee platy and is yellow and black like a bee.

Platies like a warm temperature, around 78 to 80 degrees.

They will eat most flake foods, frozen brine and freeze dried foods. Maximum size for a platy is about 2 and a half inches.

Females are bigger than the males. Maximum age for a platy is 2 years but can live longer.

Platies have even been known to eat algae. They are just a very beautiful, colorful tropical fish. If you don't have any in your tank, stop in as we stock a variety of colors.

Our hours have changed a little due to the Virus. Check our website for updated hours.

NEW YORKERS:

STAY HOME TO STOP THE SPREAD OF CORONAVIRUS

New Yorkers working together and staying home can slow the spread of coronavirus (COVID-19) in New York City. When you go out for essential needs, work or to get fresh air, keep distance between yourself and others and take the following precautions.

PROTECT YOURSELF AND OTHERS

- Keep at least 6 feet between yourself and others.
- Wash your hands with soap and water often.
- Cover your nose and mouth with a tissue or sleeve when sneezing or coughing.
- Do not touch your face with unwashed hands.
- Monitor your health more closely than usual for cold or flu symptoms.

IF YOU ARE SICK

- · Stay home.
- · If you have a cough, shortness of breath, fever, sore throat and do not feel better after 3-4 days, consult with your doctor.
- If you need help getting medical care, call 311.
- NYC will provide care regardless of immigration status or ability to pay.

PROTECT THE MOST VULNERABLE

- Stay home if you have lung disease, heart disease, diabetes, cancer or a weakened immune system.
- Stay home and call, video chat or text with family or friends who have one of these conditions.

OVERCROWDING
