Printing, Copying & Scanning!

PABIUS BOTTLE & CAN IS located at 7861 Main Street, at the intersection of Ridge Road and Rt. 80, in the picturesque village of Fabius. Co-owners, Bruce Chimene and Rhonda Wheeler, opened the bottle return in May 2017, and have processed millions of cans and bottles since then.

We saw the need for this service in the area, and the building was perfect to house the bottle return and the grocery store, Anna's Country Store, which we purchased in December of 2016. We have been pleasantly surprised at how the business took off, and our innovative ideas, like offering free pick up service for large loads and commercial customers, and periodic 6-cent specials, have contributed to our success. Our customers enjoy the convenience of dropping off their load of cans on their way to work or to run errands and stopping in

to pick up their money on their way home, or receiving a call

We also designed a prototype trailer with drop doors on the sides. It is used for 6-cent donations and bottle drives and has helped numerous nearby towns, schools, churches, scouting groups, our local food pantry, Veterans, area Fire Depts. and many other worthy organizations raise money for their causes. We are proud to have helped these groups raise thousands of dollars. Call 315-683-5500 to book the trailer for your organization or event!! We have multiple trailers available, so call us to arrange a free pickup to clean out your barn or basement.

We have long-range plans, which include renovating the carriage barn on the property and moving the bottle return there. Structural work has been completed, and the next project will be a new roof and an addition, along with finishing the interior. The business has been so brisk that we will also need a storage barn for all these cans and bottles. When the bottle return moves, then we can renovate that section of the building and expand the store to offer even more products.

Our other business, Fabius Country Store, opened on Memorial Day of last year. We offer a wide variety of beer, tobacco products, grocery items, and have a take-out menu that includes pizza, wings, subs and sandwiches, haddock dinners, soups and more. We have great homemade lunch specials and packaged meals to take with you. We love our Purity ice cream and we keep the ice cream counter open all year. We offer soft serve, premade sundaes, ice cream sandwiches, and quarts of Purity ice cream from the freezer. Our Fried Dough is becoming quite famous!!

Stop in soon with your cans and bottles, and while we count them for you, you can browse the store, enjoy an ice cream cone or fried dough, or grab a premade dinner or goodies to take home. You can also call ahead for hot pizza and wings or other menu items at 315-683-1061. Thank you!

#### MIKE'S FISH TANK PEACOCK CICHLIDS

 $\mathbf{I}^{\text{GET A LOT OF people}}$  wanting peacock cichlids. Malawi Peacocks are arguably some of the prettiest African Cichlids offered in the trade.

Because of their high tolerance to changes in water chemistry, they are an easy beginner species. Peacock Cichlids offer a relatively low maintenance aquarium fish to keep. Like other African Cichlids, Peacocks require tropical temperatures, 72-82° F.

It should be noted that Cichlids will sometimes eat plants. It should also be noted that Cichlids dig caves and disrupt plants and decorations.

This is simply their way. They should be provided with plenty of hiding places. In order to maintain their brilliant coloration, you will need to offer your Peacock Cichlid with a diverse diet. Standard fish food diets usually include a healthy mix of plant and animal matter. However you

can also feed frozen bloodworms, freezedried or frozen brine shrimp. A high-quality varied diet will also help your fish to display their brightest colors and African Cichlids can rival saltwater fish for their beautiful colorations.

Peacocks can be mixed with other peaceful Cichlids from Lake Malawi and Victoria, like small, peaceful Malawi Haps.

Rainbowfish, Congo Tetra, Roseline Sharks, Silver Dollar, Tin Foil Barbs and Giant Danio's also work well in a Peacock Tank as these are decent sized fish. The peacock cichlids are very colorful, many have shades of blue, red and even pink.

As long as all of their basic care requirements are met, it is not difficult to breed Peacock Cichlids.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW. PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

# THE SHOPPES AT JOHNNY APPLESEED

IX MILES OUTSIDE OF CAZENOVIA, down an inviting country road, is the location of a co-op style artisan marketplace, known as The Shoppes at Johnny Appleseed. Now open for three years, the store is family owned and welcoming to many local crafters and artists. From big to small, the Shoppes host over fifty-five vendors in this historic and vast, Central New York location.

The history of Johnny Appleseed as an apple orchard and furniture store was well known, and upon re-opening in

2017, the owners had a vision of like-minded artists and business owners working hand-in-hand, with enough freedom for each one to be unique, in a space that would be accommodating and inspiring. According to Owner, Erica Gilmore, the building is especially suited to embrace and reflect original ideas and changing trends.

The Shoppes offer jewelry, pottery, home décor, furniture, antiques, women's clothing, primitive, modern, handmade, books, toys, quilts, cutting boards, vinyl records, wool and yarn, honey, candles, soaps, jams and jellies, Head & Heal CBD oil, wind chimes, silk flowers, willow furniture, and so, so much more!

Since re-opening in June of 2017, the owners have been dreaming of a way to make Johnny Appleseed the household name it once was. Part of the Johnny Appleseed tradition is having good food at an affordable price. Inside the store, The Apple Kitchen, which is open on weekends, offers just that.

Three different soups are made each weekend, along

with signature sandwiches like the Reuben with red cabbage, and the rich and cheesy Monte Cristo and a delicious Pulled Pork sandwich. Chef Patrick also creates fresh made desserts like apple crisp and carrot cake, along with award-winning Coffee Mania Coffee.

In October 2018, The Apple Kitchen received their New York State farm wine license, and now offers Orchard Ridge, their personalized brand of NYS wine, for sale in the glass and by the bottle. Along with wine, The Apple Kitchen also has many choices of New York State beers, available for the discerning connoisseur.

The Shoppes at Johnny Appleseed are open year round, Wednesday through Sunday, and the Apple Kitchen is open weekends, with an outdoor patio overlooking the pond in the warmer months. For a list of all the vendors to choose from, you can visit the web site at johnnyshoppes.com, or like the Facebook page, which is facebook.com/johnnyshoppes. For more information on how to become a vendor, you can email johnnyshoppes@yahoo.com.

# CREATURE FEATURE HUNTING DOWN MYTHS

Tot all hunters head out into the woods with a rifle. Cryptozoologists are scientists who pursue strange, elusive wildlife that mainstream science will not acknowledge. Such creatures are called cryptids and include the Loch Ness Monster, Bigfoot and other mythical beasts whose existence—despite eye-witness accounts, photographs, videos and countless reports of strange encounters throughout history—remain unverified. Since its founding in 1955, many still view cryptozoology as a pseudoscience. Nevertheless, modern day cryptozoologists continue to hunt for hard evidence proving the existence of their enigmatic quarry.

Sometimes, wildlife leaps from legend to life. Such was the case with an infamous sea monster called "the Kraken." For centuries, tales were told of sea-faring ships, attacked and

sunk by an enormous squid. Over time, evidence verifying the existence of giant squid emerged when huge tentacles washed up on beaches and were found in the bellies of sperm whales killed by harpooners. In 1873, an intact carcass was discovered in Newfoundland, Canada. Today, we know that giant squid can grow upwards of 40 feet long! They remain incredibly elusive: the first photo of a living specimen was not taken until 2005.

With thousands of new species being confirmed annually, there is plenty of fodder for both science and the imagination!
