## **CREATURE FEATURE** A PARTING GIFT

Sadly, it is time to say "bon voyage!" to our delightful hummingbirds for another year as they make their arduous fall migration to kinder winter climates -- most flying all the way across the Gulf of Mexico into Central America. What an amazing feat!

Some people believe that if nectar feeders are left out this time of year, it will cause hummingbirds to delay their migration, putting them at risk for encountering harsh weather. THIS IS A MYTH. In truth, it benefits hummingbirds to have access to our feeders as they journey south, especially as many nectar-producing gardens and wildflowers are withering. The rule of thumb is to keep your nectar feeder hanging for around 2 weeks after you have seen the last humming bird (make sure to continue replacing the nectar every 4-5 days to avoid sickening the birds). Other tiny travelers passing through will rest and re-energize themselves, thanks to your parting gift. Late-season stragglers will be in special need of the boost as temperatures dip and natural food sources are scant.

Enjoy every hummingbird encounter you are blessed with, as we bid adieu to these tiny travelers for another year.

# KELLY DAVIS - EVENTS -

HANCES ARE, IF YOU'VE PLANNED a wedding or party in the last 20 years, or been to one between Syracuse and the Southern Tier, you were hosted by DJ Kelly Davis.

Kelly has been at the center of the entertainment and events industry as far back as the 90's, when he worked with Hot 107.9FM and promoted countless establishments both in and around his hometown of Moravia. As a DJ, Kelly endeavors to cater to every style and budget, bringing smiles and his own brand of fun to schools, companies, and of course, couples and

Music was only the beginning, however. His ambition as an entrepreneur moved Kelly to grow other businesses, vastly improving their sales and marketing. Bringing his assets, contacts, networking and experience to bear, he has represented companies like Bernhard's custom logo, K&H  $motorsports, and \ most\ recently, Fingerlakes\ Watercraft.$ 

Since the arrival of covid, Kelly has pooled his resources together once again to form a multi-community drive-in experience, setting up shop to sold out crowds where families could sit safely in their vehicles while still getting out of the house. Despite the struggles many such start-ups face, Kelly overcomes all out of sheer determination to bring the fun and smiles he aimed to provide from his original DJ business. And now with so many restrictions in place from the need for social distancing, Kelly now offers "DIY packages" for those planning their own events. Saving them hundreds, if not more, these can include everything from sound systems and lighting, to tents, chairs and photo booths for corporate events and couples on tight budgets, where a full-fledged DJ might not be necessary or even affordable.

Yes, Kelly has become a go-to for so many across several industries and all of New York State. You'd be hard pressed to find anyone quite as resourceful and determined to meet your needs, right from the first phone call! In an era of frequently ignored texts and unanswered emails, it's refreshing to know that people and businesses like Kelly Davis Events still exist, and that they're still as bent on pleasing their clients now as they were back when they

started.

You can reach Kelly through  $his website, \underline{kelly davise vents.}\\$ com, for more information.

## **MIKE'S FISH TANK FISH FACTS**

T'S BEEN A HOT SUMMER and although it has cooled off a bit. Here is a suggestion for those hot days.

When you buy fish, do it when you are on your way home. Even on cold days, make fish buying your last stop.

The water in the bag of fish is going to warm up quite quick, and as water warms, oxygen levels go down putting your fish at risk. If it's a cold day, the water will cool down fast. Cooling quick can cause ick.

Also when you do get home, only float your bag of fish 4 to 5 minutes. That is all it takes to equalize the temperatures. The longer you float a bag, the worse it gets. The temperature in the bag rises as it floats and oxygen levels once again will be

The quicker you get a fish home and into the tank, the better your fish will do.

Keep in mind the more hiding places you have, the better. You are bound to get a few territorial fish, even community fish can be naughty at times. An abundance of hiding areas will benefit your fish in the long run. Also the bigger the tank, the better your fish will do. More space means less fighting, and water quality does not go downhill as fast in a big tank.

Also, in a new tank just set up, go easy on fish at least the first 6 weeks. I say it a lot, you need that good bacteria in your tank. It eats the ammonia the fish produce. Too many fish too soon and they will die in that ammonia environment.

I have had people put 30 fish in a new 55 gallon tank, and inevitably, the fish get sick and die. Go slow the first 6 weeks. Keep your tropical fish tanks temperature around 78 to 79 degrees. At the higher temps, they fight off sicknesses better.

Goldfish on the other hand like it cold, so do not use a heater on them. In the summer, if your house gets too hot and you have goldfish, blow a fan on the tank, sometimes this will help bring the temps down. Adding ice cubes is not a good idea. It creates pockets of cold that are not healthy to your goldfish.

# Celebrating 18 YEARS OF THE CAT!

# THE CORTLAND AREA TRIBUNE CELEBRATES ITS **18TH ANNIVERSARY!**

#### JUDY KILMER Founder/Editor

Are you curious about who started The CAT? The Cortland Area Tribune is published by me, Judy Kilmer. I live in Dryden with my husband John. John and I have 3 grown children and a 7 year old granddaughter.

I have been working in advertising for 40+ years. My first job was at a Pennysaver in Binghamton in 1974 while I was studying Commercial Art and attending high school

where I learned the fundamentals of creating and selling newspaper ads and writing articles. Next I was employed at an advertising agency for 10+ years then took some time off to raise our family. In 1989 we moved to Dryden and in 1995 I started working in the advertising field again for a local newspaper.

After spending a few months talking and listening to folks about a need for an old fashioned community paper in the Cortland area, I was inspired to create a newspaper that featured articles about businesses that folks drive by every day. Plus offer free community events listings for non profit organizations and do each issue with a "theme" to keep the paper interesting for curious consumers.

The Cortland Area Tribune was launched in September 2002, providing local merchants with an affordable, attractive bi-weekly paper and boosts of almost all of its original advertisers today!

Thank you to my devoted advertisers and thank you "my readers" for reading The Cortland Area Tribune in print and online!

And thank you to my graphic designer Dustin and all the people that work with me to help put the paper together, gather ads and articles, deliver the paper and help me achieve the success of publishing The Cortland Area Tribune for 18 years!
