## SUMMER 2020 VIRTUAL MAINSTAGE

The Show Must Go...Online!

AFTER CAREFUL CONSIDERATION OF THE continued impact of COVID-19, the Hangar Theatre has made the decision to replace all of our live artistic programming this summer with new, virtual experiences. We look forward to seeing how this crisis will lead to innovation, and how we will be able to continue serving the community and carrying out our mission.

From May- August, we will offer five unique artistic virtual experiences as our 2020 Mainstage season! These new, virtual experiences, chosen for these times of change, include: a reading of *The Skin of Our Teeth*, by Pulitzer Prize winner and Our Town playwright Thornton Wilder; *Uncommon Excerpts and Others*, an evening of scenes and essays by Wendy Wasserstein; a sneak peek at *Queens Girl In The World* by Caleen Sinnette Jennings, and two other exciting events, TBA!

We will also be offering four free virtual KIDDSTUFF shows for young people (new adaptations of *Twelve Dancing Princesses*, *The Velveteen Rabbit*, *The Magic Paintbrush*, and *The Emperor's New Clothes*), virtual classes, a virtual Lab Company, and more! The best way to show your support is to make a donation or purchase a Virtual Subscription. We sincerely thank you for your continued support, and sticking with us through this difficult time. The 2020 NAPA Auto Parts Syracuse Nationals has NOT been postponed. And we remain optimistically guarded that we will have a car show in July. Over the years, we have found the most efficient and direct method of communicating event information and updates, in real time, is through our social media pages (Facebook and Instagram). We will continue to utilize these lines of communication to post information as decisions are made and updates become available. In the spirit of keeping momentum moving forward, The NAPA Auto Parts Syracuse Nationals will continue to broadcast weekly via Facebook Live to discuss industry trends, share sponsor information, deliver new and exciting content, host guests and so much more. We appreciate the hopeful excitement and recognize the careful concern from everyone who has reached out asking about the status of The Syracuse Nationals. Please know that our number one priority is, and has always been, the health and safety of our participants and attendees. We will continue to monitor this situation and make a decision with announcements in the coming weeks. Thank you all for your support – everyone please stay safe and healthy. We look forward to seeing you all very soon. Follow us on Facebook for any updates Syracuse Nationals Questions email: rob@rightcoastinc.com

## EVEN THE COMPETITION TELLS PEOPLE TO CALL WOODFORD BROS.

**W**HEN THINGS GET TOUGH EVERYONE knows to call Woodford. Woodford Bros., Inc. started repairing foundations in 1962. While many companies have packed up Woodford has stood the test of time. Why? When you do good work word gets out. Woodford Bros., Inc. was started on a promise to be honest and do the job right. That job no matter how hard Woodford would get it done. That's why the competition tells customers to call the Basement Brothers.

Woodford Bros., Inc. has had an amazing transformation. Started with a focus on barns and foundations. The brothers knew one of the main problems of foundations was water. That's when they started doing basement waterproofing to dry out basements. This led to massive growth and the "Basement Brothers" were born. Woodford Bros., Inc. even finishes basements with that same promise of doing the job right. Woodford crews head out to help thousands of homeowners all over this area every day. Woodford Bros., Inc. is based outside Tully, NY at the historic Apulia Station. Want to know more? Visit Basement-Brothers.com.

## CREATURE FEATURE - BOBCATS

**A**LTHOUGH BOBCATS RESIDE IN OUR region, they are rarely seen due to their nocturnal and elusive behaviors. They live in diverse habitats including forests, swamps and brush land. Dens are secreted away in rock crevices, hollow trees and thickets. Most bobcats are roughly twice the size of an average house cat and are named for their black-tipped "bobbed" tails. They are tan-brown with dark patterns across their body and long legs. Their paws are big with retractable claws.

Bobcats are good climbers and can jump up to 12 feet high. They are excellent hunters, mainly targeting rabbits, squirrels and other rodents; they also eat geese, raccoons, reptiles and insects. They compete with fishers for food which leads to battles typically dominated by the bobcat. They can swim well and have been observed catching salmon. Occasionally, they may ambush a small or weak deer. Now and then, bobcats may wander into farmyards and attack poultry or small domestic animals, but this is NOT typical behavior. They rarely attack people and are easily scared off; so if one attacks, it may be rabid.

Solitary and silent most of the year, bobcats socialize during a noisy, polygamous mating season in mid-winter with hair-raising screams, yowls and hisses. This caterwauling is simply part of their breeding behavior. Kittens remain with their mothers for 8-11 months, until they can fend for themselves.

The fur trade nearly wiped out bobcats in some regions. Thankfully, protective regulations were put in place, and today, their populations are stable.
