THE NEW 5&10 DISCOUNT **GROCERIES**

TI, MY NAME IS JENNIFER Yajko. My fiancé, Mike Marsaln and I are the owners of The New 5&10. About 7 years ago we both decided it was time for a change. We had been stuck at dead end jobs and wanted to do something more in life. We had always dreamt of owning our own business. With my management background and Mike's retail experience, we knew we would make a great team.

In 2014 we finally took the plunge. We opened our first store in Greene, NY. We opened a 5&10, selling a variety of discounted

goods. It did not take long to realize we could not compete with chain stores selling general merchandise. We had a small selection of discounted groceries that would always sell out. Mike grew up with a family of entrepreneurs. His family owned dollar stores, along with a discount grocery store. He suggested we really focus on the groceries in hopes that we could keep this store afloat. The more food we added, the more our sales increased. The greatest part was hearing from our customers about how us being there was really helping them and their family.

By 2018 we were ready to grow. We heard of a nearby town that had lost their grocery store. Then in December of 2019 we opened our second location in Afton NY. We loved the idea of giving the community another option for their grocery needs and offering them great deals.

Discount Grocery stores can be found around the world. Unfortunately there are not many in our area. Not only can people save money, these stores really cut down drastically on the amount of food waste that is produced every year. Discounted groceries include over produced items, as well as seasonal and package change. This also includes items that are close to or past the "sell by date".

We are now excited to announce the opening of our 3rd store. We will be opening at 2586 Main St. Whitney Point, NY (across from the hardware store). Our Grand Opening will be June 5th. We will have lots of amazing deals. We will be open 9am until 7pm. Can't wait to see you there!

A 2015 study found that the addition of fiber-optic Internet available to your home or business currently, we hope to bring can increase a home's value by 3.1%. That's equal to an additional \$9,000 on a \$300,000 home. In fact, it provides the same value as adding a fireplace or half bath. But how does this seemingly intangible addition make your home more

THE DRYDEN DAIRY DAY COMMITTEE is doubly disappointed ■ to announce the cancelation of the 2021 Dryden Dairy Day. As the coronavirus pandemic continues to upend life, decisions about large-scale public events must prioritize public health and safety above all else.

Our commitment to support and celebrate dairy farmers remains our priority. Last year, Dairy Day provided over 900 gallons (14,512 cartons) of milk to the Dryden School lunch program. While we were very proud to provide nature's most perfect food to families in our community, this effort depleted our funds and we dipped into our savings to keep our commitment to this goal. We recognize the importance of this annual celebration and are busy creating a day - June 12 - when Dryden can recognize and appreciate dairy farmers. While we can't provide .25 ice cream cones, we do plan the following activities:

Scholarship: We are offering a \$300 scholarship to a graduating senior in the Dryden School District who has been accepted to a two or four-year college to study an area of agriculture. To apply visit: drydendairyday.org

Cows in Time Square: We will show our pride for our essential farmers by decorating Time Square with dairy cows behind the benches in Time Square.

Touring/Traveling Parade: We are currently coordinating with village officials for a small touring parade through the village on Saturday, June 12. Join us while social distancing from your porches, driveways, sidewalks or bring your lawn chairs or tailgate to the two large parking lots at the Dryden High School, the Elementary school circle or old bus garage

CREATURE FEATURE FATHER DEAR

NIMAL MOTHERS ARE OFTEN RESPONSIBLE for raising their • offspring alone. Such is the case with ducks, deer, rabbits, otters and bears, to name just a handful. However, not all wild fathers are deadbeat dads.

Take the **smallmouth bass**. He entices female fish to lay eggs within the nest he created. After spawning, the females swim away, leaving Daddy bass solely in charge of childcare. He aggressively guards the developing eggs and hatching fry from hungry predators.

In addition to providing food for his mate and kits back in the den, a father **red fox** is both doting and indulgent. He wrestles and plays with his offspring and also teaches them to start finding food for themselves by burying snacks nearby

A Canada goose dad is extremely protective. While his mate incubates the eggs, he guards her and the nest, ever watchful for danger. If an intruder fails to be warned off by his loud honking, Papa Goose may attack with bites and blows from his powerful wings. This fatherly devotion continues after the goslings hatch, when he can often be seen taking up the protective rear during family processions to and from the

CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY **HISTORICAL SOCIETY**

ERE YOU ABLE TO GUESS Where Cortland Normal School (a.k.a. SUNY Cortland) was located originally? The Normal School was established in 1869 and a beautiful and unique building was constructed where our courthouse stands today. The building was destroyed by a fire in 1919. The school relocated to the top of West Court Street and the cornerstone of Old Main was laid on May 1, 1922. The building was completed August 16, 1923.

Do you know who the airport in Cortland County was named after? Hint: this Cortland native had a very distinguished military career.

MIKE'S FISH TANK BALA SHARK

THE BALA SHARK ALSO KNOWN as the tricolor shark is a lacktriangle fish species of the family Cyprinidae. The species is not a true shark, but is commonly called a "shark" because of it's torpedo-shaped body and large fins. It is somewhat endangered because the population decreased by 50% in the last 10 years. The bala shark occurs in the Mekong basin, Sumatra, and Borneo. They have big eyes to find and catch their prev.

The Bala shark will grow to a maximum length of 12 inches but takes a long time to do so. Bala sharks are found in midwater depths in large and medium sized lakes and rivers. Bala sharks are popular aquarium fish. They are generally peaceful and good companions to many other types of tropical fish. The Bala shark is a jumper and may injure itself on the lid of the tank. Be sure all openings are covered as they sometimes will jump right out of the tank. These sharks are hardy fish and will tolerate temperature changes as well as PH changes.

The water temperature should be in the 79 to 80 degree range.

This fish's habitat is often destroyed making these fish more rare in the wild. A lot of Bala sharks are now captive bred and generally exported from Indonesia and Thailand. These sharks were overfished and they decreased dramatically after 1975. Thankfully populations have increased due to captive breeding. Prices on bala sharks have gone up quite a bit the last few years but they are still available.

They stress out easily when young so watch for signs of ick and treat immediately if you see any.

CIX MILES OUTSIDE OF CAZENOVIA, down an inviting Country road, is the location of a co-op style artisan marketplace, known as The Shoppes at Johnny Appleseed. There will be storewide sales, free gift raffles every hour on the hour, meet the vendor, and live music to close out the weekend with Pianist Dick Ford.

The Shoppes are family owned and welcoming to many local crafters, artists and patrons alike. From big to small, the Shoppes host over fifty-five vendors in this historic and vast, Central New York location.

Three different soups are made each weekend, along with signature grilled sandwiches, like the classic Reuben, the rich and cheesy Monte Cristo and pulled pork with coleslaw. Chef Patrick also creates freshly made desserts like apple crisp and carrot cake, along with delicious cookies, brownies and cupcakes.

One thing people say after shopping in the store is that they had no idea how big this place is! With 20,000 square feet of space, there is no limit to the items you can

THERE'S ABOUT

It's not just in communities.

It's aggressively marketed in Black communities using elements of Black culture, putting more products on shelves and making them cheaper. It's not just an injustice - it's killing us.

Studies have shown that predominantly **Black communities have** more advertising and cheaper prices for menthol cigarettes
