## MIKE'S FISH TANK GUPPIES

**G**UPPIES ARE NATIVE TO ANTIGUA, Barbados, Brazil, Guyana, Jamaica, The Netherlands, Trinidad and Tobago, the U.S. Virgin Islands and Venezuela. However guppies have been introduced to many countries on all continents, except Antarctica. Sometimes this has occurred accidentally, but most often as a means of mosquito control, the hope being that guppies would eat the mosquito larvae, slowing the spread of malaria. While wild type females are grey in body color, males

have splashes, spots, or stripes that can be any of a wide variety of colors.

Guppies are highly prolific livebearers. The gestation period of a guppy is 21-30 days, with an average of 28 days, varying according to water temperatures. After the female guppy is inseminated, the dark area near the anus, known as the gravid spot, will enlarge and darken.

Just before birth, the eyes of fry may be seen through the translucent skin in this area of the female's body. When birth occurs, individual offspring are dropped in sequence over the course of an hour or so. Guppies prefer water temperatures of about 68-81 degrees for reproduction. The female guppy has drops of between 2 and 50 fry at a time, typically ranging between 5 and 30. After giving birth, the female is ready for conception again within only a few hours. Guppies have the ability to store sperm up to a year, so the female can give birth many times without depending on the presence of a male. From the moment of birth, each fry is fully capable of swimming, eating, and avoiding danger. If not kept separate, the older, mature guppies will eat the fry, so the use of a breeder box, net breeder, or a separate tank is recommended. Live or fake plants can be used as hiding places for the fry.

## CREATURE FEATURE KEYS TO THE KINGDOM: BEAVERS

**I**N ANCIENT TIMES, ROMAN ARCHITECTS designed arches by stacking square stones on top of one another, leaning inward. A keystone was placed at the top of the arch to dissipate the weight from all those below. Removing the keystone caused the entire arch to collapse.

In much the same way, a "keystone species" functions within an ecosystem by playing a role no other species can perform. When a keystone species declines or is removed, it can result in the collapse of an entire ecosystem. One such valuable keystone species is the **beaver**.

In a relatively short period of time, industrious beavers transform moving streams into ponds, creating surrounding wetlands that provide habitat and breeding places for multitudes of species. Without beavers, this process would take decades or possibly centuries to occur. The altered landscape creates a complex eco-web. Flooded, decaying trees provide food and nesting opportunities for various woodpeckers, nest cavities for wood ducks, rookery sites for herons and look-out perches for ospreys, owls and kingfishers. Waterfowl, muskrats, mink and otters move in, as well as turtles, snakes, frogs, dragonflies and damselflies. Songbirds feed on the explosion of insects. The growth of new aquatic plants and meadow grasses invites voles, rabbits, and deer to browse, which in turn attracts species like hawks, foxes, fishers and coyotes.

By creating diverse, vibrant ecosystems, beavers truly hold keys to the natural kingdom.

**ARE YOU INTERESTED IN WALKING** through history? The Central New York Living History Center is the place for you! Conveniently located at 4386 US Route 11 between Cortland and Homer, our three component museum offers something for everyone. We like to pride ourselves on Trucks, Trains and Tractors, but there is so much more!

The Brockway Truck Museum is devoted to the history, furniture, carriages and the trucks that were produced here in Cortland County from 1875 until 1977. These dependable, heavy-duty, diesel trucks and the history of this local company, put this area on the map as Huskietown, USA. The museum features a rotating collection of trucks owned by the Brockway Truck Preservation Association. Not to be missed, is the 1925 Brockway Fire Truck from Buenos Aires, Argentina.

For the train enthusiasts, The Homeville Museum will not disappoint. Model trains layouts will take you back to your childhood and the life-size display of the Lackawanna RR 2107 Engine with its original lights and working bell will truly amaze. Also featured

in this unique museum is an extensive collection of Military Memorabilia dating back to the Civil War and as far forward as the modern day conflicts. For those interested in local history, information on the industries and sports from this area are on display. The majority of items in the Homeville Museum are from the private collection of the late Ken Eaton, a WWII Veteran and Civil War enthusiast.

Lastly, the Big Red Barn on the property, is the home of the Tractors of Yesteryears Collection. This multi-colored collection of vintage tractors and walk-behinds, promises to be some of the most unique tractors that you have ever seen. In "Grandma's Kitchen and Parlor", you will find items that made up the heart of the home in years past. This year's special exhibit features

all types of Textiles, including linens, clothing and more.

Even with the pandemic, our exhibits have been updated, expanded and refreshed.

Are you planning a function? We have a variety of rental spaces available to accommodate your group. Our New

Garden and Veranda area is ready for your outdoor parties. Indoor spaces are also available including our theater for group presentations or family movie night.

Intrigued? Come walk through history with us. Our current hours are: Thursday - Saturday, 10 AM - 5 PM, last admission is at 4 PM; Tuesday - Wednesday are by appointment. We will soon be expanding our hours to Tuesday - Saturday, ask about

## THE WILLIAM GEORGE AGENCY FOR CHILDREN'S SERVICES

SINCE ITS INCEPTION IN 1895, The William George Agency for Children's Services has been at the forefront of residential care.

From its modest beginnings as a summer camp for inner city children, our Agency has grown to become one of the largest, most respected residential treatment facilities in New York State. We currently provide over 200 teenagers from 55 counties with counseling, education, independent living and vocational skills, family reconciliation and supportive community services. Additionally, we are also one of the largest not-for-profit agencies in Tompkins and Cortland counties, providing jobs for nearly 500 full-time employees.

What drives this tremendous growth and impact? At the heart of everything we do is our motto: "Care First"

We are committed to providing a safe and caring residential environment supported by proven therapeutic, clinical, and medical care for at-risk

youth. Our innovative, highly regarded programs serve high need, specialized populations who have been historically underserved. We care first about the youth we serve, while helping them develop the attitudes, social skills and self-

direction that will enable them to become contributing members of the community, and we respect, empower, and partner with families to support their efforts in successful reunification and family preservation.

In addition to providing outstanding residential care, The William George Agency strives to create an exceptional work environment as well. We provide an excellent wage and benefits package, and we offer extensive support, training, and advancement opportunities. It's challenging work, but if you like building relationships and working with people, if you enjoy making an impact by teaching and helping others, this may be the rewarding career for you.

If you would like to know more about our Agency, or you would be interested in exploring career opportunities with us, we invite you to visit our webpage: [wgaforchildren.org](http://wgaforchildren.org) or contact us by phone at: (607) 844-6460.

## AIELLO'S HISTORY

2677 Main Street  
Whitney Point, NY 13862  
(607) 692-4114  
aiellosrestaurant.com

**T**HE AIELLO FAMILY MOVED TO America from Sicily, Italy. Calogero (Charlie) was born in the village of Partanna and Vincenzo (Vinnie) was born in Alba, in the Piedmont area of northern Italy.

Having grown up in and around restaurants and in Mama's always busy kitchen, the family moved to

Whitney Point where Vito (Papa) opened Aiello's Ristorante in May of 1982 for his two sons to operate.

The friendliness of Whitney Point has allowed Aiello's to grow from a small pizzeria to the comfortable full service restaurant you enjoy today.

It is important to us that you know we use fresh herbs, spices, cheeses and imported 100% olive oil in our kitchen. The finest raw ingredients we can find assure you of the highest quality experience.

## CORTLAND CITY FARMERS' MARKET

Starting May 18th  
Main Street Cortland

**T**HE CORTLAND CITY FARMERS' MARKET has been a local staple on downtown Main Street for the last 5 decades. Come and visit us on Tuesdays and Saturdays, between 9AM and 2PM, to get fresh, local produce, eggs, honey, maple syrup and more!

## DRYDEN DAIRY DAY UPDATE

**W**HILE WE ARE, ONCE AGAIN, disappointed that we are not able to offer Dryden Dairy Day in Montgomery Park, the committee is planning ways to celebrate dairy farming in Dryden on Saturday, June 12. There will be a Dairy Day Drive-through parade around the village with limited entries. The parade path will be noted on our website (drydendairyday.org) and Face Book prior to the date. We are also making plans for the community to judge the Kindergarten Coloring Contest and will select a Dryden Dairy Day Scholarship recipient. The herd of colorful cows will help us celebrate the day by taking a stand in Time Square the first of June. New cows can be purchased on the website and picked up at Dryden Agway after May 1. We sincerely thank the community for their continued financial support of Dryden Dairy Day. You can make a donation at the website. Be sure to check the website and like us on Face Book to keep up to date on plans to celebrate Dryden Dairy Day!
