#### A little history about Little York Plantation

Owners Dick and Jackie Crane bought a small roadside vegetable stand in 1972 called Gladtime Farm Market. This small vegetable stand was the seed that started it all. In 1978 the first greenhouse was built and they have been growing ever since. They now have 8 green houses and acres of land filled with everything a gardener could need. They offer custom potting, supply bulk mulch, and are known as the best landscape services in the area. From conception to, to installment, to maintenance there is no job too small or too big. This family owned, family friendly garden center is a proud part of CNY. Come see for yourself why they call it The Gardeners Destination. Questions give us a call (607) 749-4861 or 315-960-3228 office or 607-423-4417 (Jackie).

#### THEE AMISH STRUCTURES WE'RE CELEBRATING **OUR 10TH SEASON**

Dryden • (607) 257-1070

T'S HARD TO BELIEVE THAT WE are beginning our 10th season. When we first opened, we started with 10 sheds and our office was the tail gate of our truck, or a table at Dunkin Donuts. Some thought we were a little crazy opening a shed lot in the middle of Dryden, and to tell you the truth, we

weren't so sure ourselves. Today, we have a great office, and have added hickory, walnut and poly lumber furniture, as well as our two-story treasure barn. We have met many wonderful and interesting people, some who have turned into lifelong friends. We couldn't be more grateful for all our customers who made Thee Amish Structures what it is today and are looking forward to many seasons to come.

Now is the time to order that much needed shed or garage. We currently have several stock sheds available for immediate delivery (depending on weather and ground conditions), or we can custom order to your specifications.

Sheds are available in sizes 8x8 - 12x28 in one and two story. One car garages are available in sizes 12x14 - 12x28 in one and two story. Two car garages are available in sizes 20x20 -24x28 in one and two story.

All structures come complete with your choice of Duratemp, Board n Batten, Lap or Log siding, choice of paint or stain color and roof color.

Sheds include (1) double door, (2) 24x36" windows, Architectural shingles, end vents, diamond plate threshold, (1) ramp, delivery and set up on your prepared site.

Garages include insulated Clopay overhead doors, (1) side door, (2-8) 24x36" windows depending on size and style, stairway to 2<sup>nd</sup> floor if applicable, diamond plate threshold, Architectural shingles on single story garages, Metal roof with double bubble vapor barrier on 2 story garages, end vents, ramp(s), delivery and set up on your prepared site.

There is also a variety of add on options to customize your structure even more.

We still have a selection of Amish built Hickory furniture and Walnut dining sets, and we just received an order of outdoor poly furniture for your patio, porch, or deck. The Amish Treasure Barn also has a variety of wall hangings and home

#### **JOSIE'S JOURNEY**

Our handler/dog teams provide comfort to individuals, families, organizations, childcare centers and schools, to name a few. Any of us who love dogs know that there isn't anything more comforting than spending time in the presence of a dog. We often get questions about what a comfort dog is.

Therapy dogs are sometimes called comfort dogs. They support a person's mental health by providing attention and comfort. We are not able to change what has happened or the stressful situation at hand, but we are committed to providing love and support to help them cope with the stress. Canine comfort dogs offer a calming non-judgmental presence that increases self-esteem and confidence while dealing with the stressful situation.

Spending time with animals has been scientifically proven to have physical and mental health benefits. Scientists have discovered that when individuals interact with animals, they have shown that such interactions can increase the mood-boosting hormone oxytocin, increase dopamine (happiness) levels, and decrease the stress hormone cortisol. Below are

some of the physical and mental benefits of spending time with canine comfort dogs.

**Physical Benefits**- reduces blood pressure and heart rate. Improves cardiovascular health, lowers pain levels and improves a person's psychological state when dealing with crisis or stressful situations.

<u>Mental Health Benefits</u>- decreases depression, feelings of loneliness and anxiety. Lifts a person's spirits, increases confidence, self-esteem, communication skills and the ability to cope with a stressful situation.

Our vision at Josie's Journey is to provide free comfort sessions in our community using volunteers, grants, donations and sponsors. We are looking for Handler/Dog teams to join us on our journey of providing comfort in our community. If you would like to get involved, please reach out to us. If you have an idea of how we can meet a need in our community, we would love to hear from you. As a new business in our community, we are excited about meeting new people and learning more about how we can best help our community heal.

### CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

IN THE LAST ISSUE OF the CAT, we asked if you could tell us what street in Cortland was originally called Adams Street. Homer Avenue is the name of this street today, because it leads to Homer, but why was it called Adams Street?

The street was named after Major John J. Adams who owned property on the street. John J. Adams was born on July 12, 1789 in Northumberland, Saratoga County. His family moved to Cortland County around 1804 (still Onondaga County at that time) and settled in Preble. Preble town records list John J. Adams as an overseer of highways in 1812 and a commissioner of common schools in 1821, 1822, and 1825. By 1830, he was living in Cortland with a small family.

Adams was a member of the New York State militia. The obituary for Adams tells us that he received his commission as Major of the 58th Regiment of Infantry on March 27, 1819 and it was signed by Governor DeWitt Clinton. He died in 1881 and was remembered in his obituary as "active in his benevolences and many an older person can bear grateful testimony to his kindness and generosity." He is buried at Cortland Rural Cemetery.

What do seven valleys have to do with Cortland County?

#### MIKE'S FISH TANK DWARF GOURAMIS

ost dwarf gouramis live for about four years; with proper care, they can live longer. Dwarf gouramis are generally peaceful fish—unlike the much larger standard gourami, which can become aggressive. Dwarf gouramis do well in most community aquariums and are compatible with most fish, such as Platies, Mollies, Plecostomus, Catfish, Tetras, and other docile fish. They require a tank that can hold at least ten gallons. They are usually found swimming in the middle or top regions of the aquarium. Dwarf gouramis do

not do well with large, aggressive fish. Dwarf gouramis are so docile that they will allow themselves to be bullied to death rather than fight back.

If a Dwarf gourami is put with faster swimming top swimmers like guppies, you should drop the fish food in a more spread out area so that the Dwarf gourami has a higher chance to snatch the food before the other fish do. Dwarf gouramis tolerate fairly high temperatures. Temperatures of 80°F are easily tolerated.

A varied diet is very important to the dwarf gourami, which is an omnivore that prefers both algae-based foods and meaty foods. An algae-based flake food, along with freeze-dried bloodworms, tubifex, and brine shrimp, will provide these fish with proper nutrition.

There are a wide range of colors when it comes to dwarf gouramis. Rainbow, powder blue, turquoise, fire,and a few other morphs. They are extremely popular fish and do very well in the community tank.

## CREATURE FEATURE THE BUZZ ON HONEYBEES

PRING BRINGS MORE INSECT ACTIVITY. Some insects, like black flies and mosquitoes, are less than popular; but most people appreciate honeybees and their valuable role as pollinators. Here are some neat facts about honeybees.

A honeybee's wings beat 11,400 times per minute producing that distinctive "buzz." One bee visits between 50-100 flowers each foray to gather nectar and pollen. A honeybee is the only insect that produces food for people. Honey contains 80% sugars and 20% water – sweet! The honeybee also produces beeswax using glands underneath its abdomen. To make one pound of beeswax, honeybees must consume 17-20 pounds of honey.

Some colonies can have as many as 60,000 honeybees during peak times. Each hive contains 3 types of bees: the queen, the workers and the drones. The queen controls the hive and lays the eggs necessary to sustain the colony. If she dies, worker bees choose a baby bee and feed it "royal jelly," a super food enabling it to grow into a fertile queen. Worker bees are all female; they forage for food, and build, maintain and protect the hive. Drones are male bees whose sole purpose is to mate with the queen...but come winter, they get kicked out!

"Bee" a honey and support honey bees by planting nectar-rich blooms, like lavender.
