THEN & NOW IS HERE, OH WOW! CORTLAND COUNTY HISTORICAL SOCIETY

CORTLAND COUNTY HISTORICAL SOCIETY LAUNCHES a new hands-on history room for children to experience what life was like in the past

The Cortland County Historical Society has scheduled the grand opening of the eagerly anticipated Then & Now Children's Room for Saturday, August 27, 2022, from 1-3pm. This experiential kid's space is designed to transport children back in time with a child-sized store and log cabin for dramatic play. Hands on activities and historically accurate reproductions will make children feel like they have traveled 100-200 years back in time.

CCHS Director Tabitha Scoville describes the children's room as an important step in connecting children to the past by sharing stories about people and events that shaped the history of Cortland County. "Children are the future, and they are the ones who will continue to preserve and protect local history when this generation is gone. We must keep the coming generations connected and interested in the stories of the past and how they are relevant to their own lives so that the children of today will be the story keepers of tomorrow."

About Cortland County Historical Society

Cortland County Historical Society was established in 1925 to collect, preserve, and share the stories of Cortland County to keep the past alive and vibrant for generations to come. CCHS encompasses the Suggett House Museum and

the Kellogg Memorial Research Center and is located at 25 Homer Avenue, Cortland.

CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

LAST TIME WE ASKED IF you could tell us where Hannah's Stump is and how it got its name. How did you do?

Hannah's Stump is located on Route 392 between Virgil and Messengerville, and according to local lore is the site where Hannah Trowbridge threatened to jump off the overlook if her beau Isaac Bloomer did not marry her. Although the stump is long gone, the overlook of rocks is still there, though somewhat changed due to changes in the road. It seems that Hannah playfully climbed to the top of the cliff and stood on tip-toe atop a stump to declare that she would jump if Isaac did not marry her. According to legend, this love story has a happy ending, and the couple did eventually marry!

NEW YORK STATE TRAPPER’S ASSOCIATION 2022 CONVENTION

SEPTEMBER 1-3

Herkimer County Fairgrounds
135 Cemetery Street, Frankfort NY

AT THE CONVENTION AND SPORTSMEN show you can find all kinds of sportsman supplies, trapping supplies, tanned fur, wildlife paintings and photographs, demonstrations, kid’s activities and more. At the NYSTA booth in dealer building #1, you can purchase a membership, pick up some cool NYSTA T-shirts, sweatshirts, hats, patches and other NYSTA merchandise.

This year’s patch honors Art Crane: “Chief” Art Crane

Oscar Cronk called him “The Dean of Old Time Fox Trapping”. Johnny Thorpe called him “The Grand Daddy of all Modern Fox Trappers”.

Those are pretty powerful statements from a couple of real legends themselves. However, when comparing the two quotes above, and with some hard-to-find history, you will find the real story of one of the greatest New York State fox trappers. Art Crane was like a mythical legend whose exploits were only carried on in a verbal tradition. If you were not in his inner circle, you knew very little about this trapper.

He was the son of Marion and Francis Crane, of Sanford, New York. In 1921 he married Alta Holmes Oliver, who liked to make garments from fox pelts.

Arts first public appearance in trapping history were some very well staged early photos posted of his fox catches in Hunter Trader Trapper magazine between 1913 and 1930. Art was an expert fox trapper using the dirt hole and the spring hole sets way before they were documented by other trappers. The best photos are in Ray Duntley’s book. His dirt hole set copied the way a fox actually dug out a mouse hole. Art also had a pet fox named “SKIPPE”. Maybe that fox was Art’s mentor!

Art passed away in 1967, they say he was 88; he spent his last 2 years at a mink farm in Massachusetts.

CREATURE FEATURE

MANGE THREATENS WILDLIFE & PETS

SARCOPTIC MANGE IS A COMMON, widespread disease in mammals. It is caused by a microscopic mite that burrows into the skin, igniting an immune response. In North America, some of the most commonly affected species include red foxes, gray wolves, coyotes and, more recently, black bears. Mange also threatens our pets.

In addition to tunneling into the skin, mites also deposit eggshells, molted skin and waste, further exacerbating an immune response in the host. Afflicted animals can suffer miserably from intense itching, hair loss, thickening, cracked skin, and sores [photo]. Many eventually die from emaciation, secondary infections or septicemia. Several decades ago, in parts of the U.S. and Canada, humans intentionally introduced sarcoptic mange to coyotes and wolves to control their populations – a cruel and foolish strategy. Since then, mange has spread and is now endemic in several species.

Mange spreads through direct and indirect contact with an infected host or a shared environment; for example, adult foxes can pass mites to their young, or your dog might develop mange after rolling in an area occupied by a diseased animal (sickly wildlife is more likely to seek human spaces). Experts advise against feeding wild animals, which promotes the spread of mange.

The most common medication to treat animals with sarcoptic mange is Ivermectin. While effective, especially when coupled with supportive care, it requires multiple doses and offers abbreviated protection. Fluralaner, the active drug in veterinarian prescribed Bravecto, is very effective, requires just one dose, and provides 2-3 months of protection to help break the reinfestation cycle. Licensed wildlife rescue and rehabilitation specialists perform a valuable community service when they treat wild animals suffering from mange. Consider supporting these unsung heroes with a donation today.

MIKE'S FISH TANK RED TAILED BLACK SHARK

THE RED TAILED BLACK SHARK, also known as the red tail shark, is a species of freshwater fish in the carp family where it is prized for its deep black body and vivid red or orange tail.

Red tail sharks can reach a length of 6 inches but in rare cases they can reach 8 or even 9 inches depending on how they are fed.

Typically they are aggressive chasers, but will rarely bite or harm other fish. Individual personalities vary greatly—some are calm, while others are rather aggressive towards tank

mates. They are bottom dwellers and like lots of dark hiding places. They get along with other semi-aggressive fish, but they do not like other sharks. Redtail sharks are considered compatible in some community tanks, although they may chase docile or peaceful fish that present a large target (such as "silver dollar" fish). This may be physically harmless, but could cause a great deal of stress for the pursued fish, sometimes resulting in death due to stress. No one likes to be chased all the time.

They will mostly chase fish away from their territory and then retreat; therefore, it is important to ensure the aquarium is large enough to allow the redbtail some space to call its territory. Redtails are bottom dwellers. It is often reported that they do not generally harass loaches and may even exhibit schooling behavior with them.

Most people tell me their red tail shark is either peaceful or it's after every fish in the tank. They are a bit unpredictable.

There is an albino version of the red tail black shark but it is not very common. The rainbow shark looks a lot like the red tail black shark, the difference being rainbow sharks have all red fins and the red tail black only has the back tail red. They are a very popular fish and I always have them in stock. There is a new version now called a ghost shark. It's a redbtail shark but the back fin is white.

LOST DOGS OF THE FINGER LAKES

OUR MISSION AT LOST DOGS of the Finger Lakes is to help the lost become found. Recently, I spoke with a wonderful woman who had found a dog. We posted the dog on our page and while the owner was found and positively identified in a matter of a few hours, it was not before the finder received a handful of calls from other people professing to be the dog's owner. One caller even claimed to be the neighbor of the owner but when questioned, couldn't give simple identifying information.

But there are lessons here, and ones that we need your help in sharing far and wide. People with bad intentions for our beloved pets are watching our page and others like it. They also ride the roads looking for pets that aren't secured or being monitored. They are attempting to steal dogs or claim dogs that are not theirs and the reasons why are all bad; dog fighting, selling to labs for testing, adding to their hoarding collection, flipping...it's an endless and terrifying list.

What can you, as the finder or owner, do? First and most importantly (as we've always preached) call your local Dog Control Officer (DCO) and file a lost or found report. Calling your DCO is not optional - it is a legal requirement. This report helps you and helps your dog. It creates a legal paper trail that will help to identify your dog when found or will help

to prosecute someone who may have found your dog... and kept them.

Second, this is for you the finder, when an individual calls or arrives to claim

ownership, insist on proof. Ask for vet records, licensing documentation, or even photos. If the individual claiming ownership cannot show proof, call your local police department or DCO right away and let them sort it out.

Third, and this is for you the owner, make sure your dog is licensed and wearing their tags. This registration is required by law and serves as proof of ownership and is a vital link to getting your dog safely home should they ever become lost.

What can we, as a community, do? We can educate about the role of our DCOs and the importance of licensing. We can make sure that we're aware of the dangers out there for these dogs and protect them with everything we do. Thank you to all who share our posts...you've saved countless lives.

SUNFLOWER FESTIVAL

TO TELL THE STORY OF the Sunflower Festival, I have to tell the story of the farm. 20 years ago we were a working family dairy farm, farming runs both sides of the family and we are proud to continue the tradition. From working dairy to market garden, pasture pork, beef, poultry our farm has struggled to redefine itself after the decision to stop shipping milk.

However a dream persisted. The dream to support our local community with wholesome foods and to bring the public to the farm has been one my mother avidly fought for. After years of us all having to find the how and why to make it all make sense, we made a decision. Now or never. My mom had been quietly growing more and more sunflowers to where last year was the largest patch yet and people simply driving by would stop to admire them. We decided to take the proverbial leap of faith, grow more sunflowers than ever and celebrate them!

We want to welcome our community to our farm for the first ever Sunflower Festival! We have 20+ local artisan crafters committed to vending, as well as a photographer who will be booking shoots to take place in the sunflower patch. There will be something for everyone, including fresh farm produce and a glimpse at a working farm! Mark your calendars August 20-21 from 10-4pm is The Sunflower Festival 783 Cutler School Road in Cortland, NY.

J.J. FEEDS

WELCOME TO J.J. FEEDS! **THAT'S** how we want everyone to feel when they visit our store!

The knowledgeable staff at J.J. Feeds, Inc. is happy to help customers and answer any feed questions they might have. Unlike the big box stores, you will receive personal attention and courteous service when you enter our doors. We take great pride in providing our customers great service and a consistent staff that will remember who you are and will appreciate your business.

Consistent with the 'Pamper Your Pet' theme, this is what our store is all about. Our number 1 store greeter, Josie (she the one in the picture with the ball in her mouth) will be happy to show you around!

While we focus on livestock feeds (horses, cattle, pigs, goats and chickens), we also carry an excellent selection of dog foods. In addition to feeds, we also carry an excellent selection of equine supplements and treats that are on our shelves and available today. And if we do not have it in stock, we will gladly special order whatever you may need.

We carry an extensive selection of national brand feeds, including Purina and Tribute equine feeds. We are unique in that we have our own mill and custom make feeds to the specific needs of our customers. Most of our staff are farmers and livestock owners so we understand your desire to have quality feeds and unlimited choices. You can call our La

Fayette store at 315.677.3297 or our Central Square location at 315.668.2671 and we can help you address any feed need you may have.

We carry a wide selection of bedding needs as well. We always have shavings, straw and pelleted bedding in stock. We carry wild bird seed. And our prices on wood burning pellets are very competitive – call today and inquire. So take the short drive to La Fayette today. Our hours are Monday, Wednesday, Thursday and Friday 9am until 5pm and Saturdays 8am until noon. We are closed on Tuesdays and Sundays.

We also offer a set out service where if you cannot make it to the store by closing time we can leave it out for pickup at your convenience. We look forward to seeing you and adding you to our list of happy customers!

RON'S BODY & PAINT

LABOR DAY IS JUST AROUND the corner and it's almost time for the kids to go back to school. Planning a last minute road trip?! Be sure your vehicle is ready with new tires and a tune up or an oil change. Call Ron's Body & Paint in Cortland for all of your automotive services at 362 Route 13 to schedule your appointment at the Cortland location 607-662-4543. Since 1989, Ron Stanley and family have been offering the absolute finest in contemporary automotive services at their one-stop vehicle service center in Marathon at 31 Cortland Street (607-849-6898) and both locations are providing the same great services Ron's Body & Paint has been known for. They are also now a Tesla Certified Repair Shop! Why would you ever need to call Ron's Body & Paint? Here are five reasons to call!

One: they are the largest body shop in the area, and the place to call for body and paint work done using a state-of-the-art downdraft paint booth and waterborne paint. Plus, loaner cars are available.

Two: they are a full-service center that handles everything from brakes, inspections, and oil changes for only \$39.95.

Three: 24-hour towing for all vehicles, tractors, and heavy and light vehicles. Complete with AAA roadside service.

Four: they have 33+ years of experience, featuring mechanics who are all licensed.

Five: because they are a locally-owned business with 2 locations to serve you. Ron's Body & Paint, on Cortland Street in Marathon, and on Route 13, across from Elm Tree Golf Course in Cortland.

And of course, your satisfaction is always guaranteed. ASK RON ABOUT A LOANER CAR WHILE YOUR COLLISION REPAIR WORK IS DONE!

Follow them on Facebook! Check out their specials on their website ronsbodyandpaint.com.

Stop by Ron's and put your name in for a chance to win one of their monthly drawings! No purchase necessary. Winners are drawn at the end of each month. Good luck!

JOSIE'S JOURNEY

WE ARE PROUD TO INTRODUCE you to some of the heroes of our Josie's Journey team that provide the sweetest love and comfort to our community.

Bruce is a 4 year old Bernese Mountain Dog. Bruce loves people and loves attention. He competes in dog sports with his partner Tom Fernandes. Bruce is happiest when he is with his family including his four legged sister Ellie especially when they go on their daily walks.

Hi there! My name is Sadie. I am a 10 year old golden retriever. I have been certified as a therapy dog for almost 6 years and I have earned the AKC Advanced designation for all my hard work. I'm a proper old girl who much prefers hoomans to dogs. I am a very good girl. When not cuddling with my hoomans I can be found sleeping on the couch, rolling in the yard under a shady tree or waiting for treats.

Hey ya'll! I'm Sophie! I'm a 4 year old golden retriever! I just got certified as a therapy dog and I'm LOVING my new job! I like all creatures...canine, feline, and hooman but hoomans are my fave! When I'm not working I spend my days napping (best thing ever!) and running in the yard.

A FAMILY TREE WITH DEEP ROOTS

SHUTE'S WATER SYSTEMS AND SHUTE'S LaFayette Well Drilling has been a family-run business serving Central New York for more than 50 years, drilling wells, installing pumps and treating problem water.

Originally known as LaFayette Well Drilling, established in 1963 by Howard Shute, and brother-in-law, Warren Shetler, both the business and their reputation grew over the years. Shute continued on with the business after Shetler decided to pursue other interests.

Shute was then joined by his sons, Mark, Neil and Scott. Howard Shute retired at nearly 80 years of age while his sons continued the family tradition of providing safe and pure water to the community.

Today, Shute's Water Systems is run by Scott Shute and Matt Farkas, and Shute's Excavation is run by Todd Shute. Scott's wife Becky runs the office with Mark Shute's daughter Jill.

The family attributes the majority of its continued success from recommendations it receives from satisfied customers.

Shute said many municipal water systems contain calcium and magnesium, which as "hard" substances, form scale and create problems in water heaters, dish washers and plumbing systems.

Water purification can include the removal of iron, sulfur, chlorine and bacteria in a chemical-free process. Softening the water is also important and has many benefits, not only for family members, but for plumbing systems and appliances too.

"Uncontaminated water is essential for good health," Shute said. "Foul-smelling or unusual odors from your water should make you question your water's quality and safety."

Many families throughout Central New York use well water as a source of drinking water and for all its household needs. Unfortunately, water containing hydrogen sulfide gas has a distinctive "rotten egg" odor which is especially noticeable when running hot water.

Shute said the danger lies in a gradual chemical reaction

"Hydrogen sulfide gas will corrode plumbing metals such as iron, steel, copper and brass, and the exposed metal parts in appliances such as dish washers and washing machines" Shute said. "Also, corrosion of iron and steel pipes from ferrous sulfide, or 'black water,' that can darken everyday tableware, discolor copper and brass utensils and alter the appearance and taste of cooked foods."

Additionally, Shute said, sulfur water can make washing clothes more difficult.

Shute's Water Systems can assure customers that these hazards and more can be avoided or remedied using its time-tested, ecological systems

Shute's offers a free water analysis that will help lead to great-tasting and healthy water from the tap. Located in LaFayette, Shute's Water Systems can be reached at (315) 677-5552, or visit ShutesWaterSystems.com.
