## **CORTLAND COUNTY TRIVIA** FROM THE CORTLAND COUNTY **HISTORICAL SOCIETY**

T N THE LAST ISSUE OF the CAT, we asked you if you knew which of the towns in Cortland County is named after a Roman farmer and senator?

Many of the towns in Central New York are Roman in origin because they were part of the Military Tract, land which was given to soldiers as payment for their service in the American Revolution. Cincinnatus is named after a Roman farmer and senator Lucius Quinctius Cincinnatus, who was admired not only in his own lifetime, but for millennium after.

When Rome found itself surrounded by an enemy army, Cincinnatus was the man chosen to lead them out of danger. He was granted absolute power as a dictator to achieve victory, which he was able to do in just 16 days. Once he fulfilled his duty, he relinquished power. He chose to leave it behind and go back to his farm and his own life. He set an example for leadership that is still admired today.

#### **CASKEY'S GARAGE**

1990 Dryden Road Freeville, New York (607) 347-4170 caskeysgarage.com

Servicing Tompkins & Cortland County since 1976!

STARTING IN 1976, CASKEY'S GARAGE was a one man show consisting of just Larry Caskey and his tools. Business, however, picked up and so did the need for more mechanics, and the shop developed into a large heavy duty equipment garage as it is today. Since 1976, Caskey's Garage has added manpower and footage to the garage. We currently employ 20 people; we are a certified distributor for Volvo, Mack, as well as covering their warranties. We also offer repair service for all insurance claims too!

Caskey's Garage is your CAT on Highway Truck Engine Parts Source (TEPS) dealer. We are authorized to sell Cat fluids, filters and overhaul kits (Bronze, Silver, Gold and Platinum). We can also offer extended coverage for overhaul kits as well as components. Please visit us or contact us when looking for CAT parts for your truck, bus or RV!

In our parts room we have over 81 years of experience under the capable leadership of Dennis Foley and his staff, Keith Patte and Ted Hall. These employees make sure we have all the parts we need for all makes of trucks including the parts that are under warranty.

Our service department has well over 160 years of experience in repairs for heavy and medium duty diesel and gas trucks including drivelines, air conditioner systems, turned flywheels, brake drums and rotors all done in-house. We have a full wheel adjustment center and NYS Certified Inspections available for your service needs as well.

Caskey's Garage is now recruiting for experienced full time diesel/auto mechanics. We are a full service truck, bus and heavy equipment repair shop that has been in business for 47 years. Our benefits package includes health and dental insurance, paid vacation and sick leave, 401(k) retirement plan and quarterly tool allowance. Salary is based on experience and is competitive for the area. We do not operate on a flat rate basis. On the job training and continuing education programs are available to employees. Must have a valid driver's license, CDL preferred. Please email resume to caskeysgarage1976@gmail.com.

SHUTE'S WATER SYSTEM AND WELL Drilling has been a family-operated business since 1963, when Howard Shute and his brother-in-law, Warren Shetler, first opened the business. Originally named Lafayette Well Drilling, Howard Shute carried the business alongside his sons; Mark, Neil, and Scott, and its reputation for many years until Howard Shute officially retired at almost 80 years. Scott Shute and Matt Farkas continue the effort of providing safe and clean water. The office is run by Scott's wife, Becky, and Mark Shute's daughter, Jill. Satisfied customer recommendations and glowing reviews are attributed to Shute's Water Systems and Well Drilling's success.

Now serving the CNY's areas, including Syracuse, Baldwinsville, Cortland, Cazenovia, Chittenango, Canastota, Fayetteville, Auburn, Tully, Lafayette, Marcellus, Manilus, Camillus, and Skaneateles. Scott Shutes mentions, "With years of experience, our team will assess your needs and create a custom water system plan or repair that's right for you."There are tests to determine the specific needs of a customer, and the basic water analysis of hard metals is free. For a more detailed survey, called the Water quality indicators (WQI), there is the option to test for microorganisms and bacteria. Shute's Water Systems conducts the test, and the results are then sent to a lab. They stress the importance of well-testing as the lasting effects can lead to health problems.

There are a few things to keep in mind when determining the quality or purity of the water. Examples are; recent

construction, location, maintenance, the water source, and any septic floods that could cause leakage into the well. These area contaminants vary upon location as well. Shute's Water systems have Ultraviolet filters, Chlorination and Filtration setup, and Carbon and Sediment filters. If water is determined to be hard, there are also conditioning treatments available, like; reverse osmosis, salt-based or salt-free, dual water tank softener, or a magnetic water descaler.

Shute's Water Systems can provide installation and maintenance on water pumps and storage systems. Any brand is available and can be maintained. However, a brand manufactured in the Auburn and Seneca area, Goulds, is a popular choice. In addition, Shute's Well Drilling is a fourgeneration business, with Mark and his son Jeff overseeing. Both experienced and reliable, the benefits of private well water can provide financial benefits, as well as cleaner water overall. Free from water bills, and the toxins public water can carry, Shute's Well Drilling installs quality wells for its customers. Their slogan is, "Quality Water From Your Well To Your Faucet!" Shute's Well Drilling is located on Highway 20, in Lafayette. They can be reached at (315) 952-4113. Shute's Water System is also located in Lafayette on 5684 Route 20. To schedule an appointment, they can be reached at (315) 677-5552.

#### 21ST HOMER WINTERFEST JANUARY 26-28

Friday Night Through Sunday, January 26th through 28th, the 21st Homer WinterFest brings food, fun, and entertainment to residents and visitors from Central New York and beyond. WinterFest began in 2000 as part of the Homer Business Association, to bring fun activities into the Village during the winter season and to promote the Homer community. Since these humble beginnings, this classic festival has grown into a hugely popular event within the Village, providing something for everyone.

The 2024 event provides a full slate of traditional activities and updated events. Look for Winterfest brochures in the mid-January issue of the Homer News, at Phillips Free Library, and many local merchants. Brochures include the full event schedule and map. On the web, find the latest information at www.homerwinterfest.org and the Homer Winterfest Facebook page.

The action kicks off on Friday evening (January 26) at the Phillips Free Library from 4:00 to 6:30 with reading, drawing, and discussion by author and illustrator Jacob Souva. The Homer Elks are hosting a Fish Fry and the American Legion will have food and music; both events run from 5:30 to 7:00. The annual bonfire begins at 6:30 behind the American Legion, where the skies will light up at 6:50 with a fireworks show by American Fireworks. Starting at 7:00, see the grand opening of the Community Arts Challenge at the Center for the Arts. Music, food, and drinks continue at the Legion from 7:30 to 9:30.

The festival continues on Saturday morning (January 27,) starting with the fireman's pancake breakfast from 8:00 to 11:00 at the Paul Hill community building. A new event, "Hacks and Sacks," is a cornhole tournament combined with a baseball hitting clinic at the High School from 9:00 to 2:00; open to the public. Shop dozens of antique and craft vendors at the Homer Intermediate/Middle School from 9:30 to 3:30; coffee and food will be served.

Shop dozens of antique and craft vendors at the Homer Intermediate/Middle School from 9:30-4:00. Coffee and food will be served.

Bundle up the kids and bring them to the Homer Elementary School from 10:00 to 2:00 for the popular children's events including games, crafts, food, free fingerprinting with Homer Police, and featuring Dan the Snake Man and Magician David Black (1:00).

#### **CREATURE FEATURE** NOMADS FROM THE NORTH

VID BIRDWATCHERS KNOW THAT AN irruption is the sudden Alarge-scale change in movement of northern-wintering birds to the south in response to low food availability. Typical irruptive species include finches such as Common Redpolls, Pine Siskins, and Evening Grosbeaks, as well as other birds like Bohemian Waxwings, Red-breasted Nuthatches, Snowy Owls, and more.

Many of these birds spend the breeding season in the northern boreal forests stretching from Russia and Alaska to Newfoundland and Labrador, but in years with poor seed crops - or when a boom in rodents causes a subsequent population increase in owls - the birds find themselves competing for less food. In response, they drift further south than they normally would, resulting in irruption years. Such times offer us the chance to see birds not typical to our region.

This year, the food sources that support northern finch varieties are spotty; in particular, the White Spruce and Tamarack trees produced a scant cone crop. Also, the numerous, rampant wildfires caused localized damage. Due to food shortages, biologists predict a moderate irruption for some avian species this winter including Common Redpolls. These small brown and white finches are best identified by a small red cap and two white wingbars (see photo).

Offering black oil sunflower seed, nyjer seed, or other finch seed mixes along with fresh water can attract Redpolls to your feeder this winter, as well as other northern nomads like Evening Grosbeaks, Pine Siskins, and Purple Finches.

#### THIS ISSUE'S TRIVIA ANSWERS

- 1. Up to five years
- 2. Touch-up paint won't adhere to rust. Be sure to keep some matching touch-up paint on hand so you can touch up any minor nicks.
- 3. Don't add water to the windshield washer reservoir
- 4. All that sand, slush, and ice mixed with road salt makes your car rust. If the temps are going to stay above freezing long enough for your car and driveway to dry, fill a bucket with warm water and wash your car. Or visit local car wash and be sure they dry the car thoroughly.
