CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

NE OF THE MOST FAMOUS paintings of Abraham Lincoln was painted by an artist from Cortland County, and in the last issue of the CAT, we asked if you could name that artist. How did you do?

Francis Bicknell Carpenter was born in Homer on August 6, 1830. His father was a farmer who was not pleased with his son's lack of interest in the family farm. Francis would often steal away to paint, much to his father's disappointment. One night, Francis used lampblack and brick dust to paint a portrait of his mother. His father came into the house, furious that Francis was absent during the daily haying, and stopped when he saw the portrait. Thoroughly impressed by his son's obvious talent, Mr. Carpenter relented, and Francis was sent to Syracuse to study with Sanford Thayer. Francis came back to Homer and opened his own studio at 16 years of age. Business was slow to start, but with a couple of projects from Henry Stephens Randall, Carpenter was on his way. Eventually he opened a studio in New York City, and he painted some of the most famous men of the day, including presidents Millard Fillmore, John Tyler, James A. Garfield, Franklin Pierce, and yes, Abraham Lincoln.

Francis Carpenter envisioned a painting of Lincoln and his cabinet which demonstrated the importance of the Emancipation Proclamation. He knew that the document was of huge historic significance and that the road to its creation was long and difficult. He realized that it was something he needed to document for the ages. Carpenter pitched the idea of a painting to friends who took his idea to the President. Lincoln was receptive to the idea, and Francis Carpenter was invited to the White House where he lived for six months while he worked on his masterpiece. His work, "First Reading of the Emancipation Proclamation of President Lincoln" hangs in the United States Capitol today.

What is the school mascot for McGraw High?

HAIR BY NEYSA

315-975-7117 115 Main Street, Moravia

PADES ARE MY FAVORITE! I love doing flattops and grooming beards too!

I have had a very unconventional career in hair. At age 16, I started out in a family salon and quickly gravitated to men's haircuts which became my specialty. I have had the privilege of learning from old school Italian barbers, as well as the more updated military cuts and Black & Hispanic barber shops too. At one point I worked exclusively doing haircuts for kids with special needs and sensory issues. I also worked cutting hair for ROTC, the VA and a few nursing homes.

My focus is healthy hair. I don't think we need to spend hundreds of dollars and several hours to look better. Self acceptance is very important. Our hair is affected so much by our stress, work environment and habits. The food we eat, things we drink and meditation we use can also have a profound effect on our hair growth. Covid, cancer, heart issues, chemo and pregnancy can also significantly change your hair for a long time. Hard water is very common in this area so finding the right shampoo and conditioner can really be a challenge but it's worth taking the time to reduce the frizzy, dry, poofy hair that it can cause. The treatment for an itchy, flaky, dry scalp is easy and very effective as it's not always dandruff that's the culprit.

Hair will come and grow but finding a place your whole family can hang out, feel comfortable, and learn about themselves, that's real customer service.

My goal is to create a very relaxed, casual environment. I love walk-ins and you don't need an appointment. I like to make life easy. All forms of payment are accepted. Mens haircuts are \$20. I can usually stay late if needed too. I greatly appreciate every customer that walks through my door.

By age 20, I had lived on 4 continents which gives me a unique perspective.

For me hair is just a platform to learn about people. In this crazy world, it's good to know we aren't alone. My focus is on mental health and advocacy has become my main goal.

Every day I strive to provide old school customer service that exceeds your expectations. I really enjoy kids who sit in my chair and talk about their favorite cartoons, teenagers who tell me about their day and men who talk about work. I love

being part of the community. To be honest I was nervous when I opened my shop in Moravia during Covid, but I have found people here to be welcoming and accepting. I feel so blessed to have this opportunity. I look forward to meeting you and serving this area for many years to come.

THE 1890 HOUSE MUSEUM

The 1890 House Museum in Cortland aims to promote and interpret the historical and cultural significance of the property to the public. The museum seeks to collect, preserve, research, display, and interpret objects that promote local and national history of America's cultural heritage during the late 19th to early 20th centuries.

The house originally belonged to local entrepreneur and inventor Chester F. Wickwire, who created a worldwide wire industry based in Cortland that changed the face of rural life. Through tours at the museum, visitors can experience the world of the Wickwire family, as well as the daily lives of the servants and factory workers who sustained their lavish lifestyle.

Marian Wickwire O'Connor was the last Wickwire to reside at 37 Tompkins Street, and she died there in 1973. Shortly afterward, the residence and its contents were sold at auction. Cortland County leaders, including members of the Wickwire family, successfully campaigned to preserve the house, and it became The 1890 House Museum in 1975.

Tours are available Thursdays through Sundays, and details can be found on the website, at: the1890house.org. Also note that the museum is always seeking volunteers, and if you enjoy local history and/or the Victorian era, this might be a fun task for you! Please stop in, inquire, and fill out a volunteer form during museum hours. The museum is the #1 tourist attraction in the area, and while it is certainly a "Crown Gem" in the Crown City, it takes many hands to keep Cortland's local "castle" alive. Please consider coming by the house for a visit, renting the house for a special occasion, or attending an event that is scheduled there. If you're not able to visit, but wish to assist with the preservation of the house, donations are always welcome.

LIV WELL REJUVENATION & REHABILITATION **OLIVIA WHYTE**

ELLO MY NAME IS OLIVIA Whyte, a local LMT. I'm the owner and practitioner behind Liv Well Rejuvenation and Rehabilitation. I have been practicing for 8 years. Graduating with my Certificate for Massage therapy from Onondaga School of Therapeutic Massage, I went on to pass my boards exam and immediately started my career at a local spa. I moved back home to the Cortland area in 2018 and took a position working at a local chiropractor's office. My clientele revolved mainly on referrals from the chiropractors as well as continued medical massage with veterans through a VA program. I have the skills and familiarity to provide you with a relaxing experience and ambiance of a spa or the working knowledge to address soft tissue dysfunctions and injuries through treatment based techniques. I currently practice out of a dedicated private space in my home. But, I have some very exciting news to share! I am building an addition that will take my studio to the next level. This addition will be fully handicapped accessible and will include a small waiting area for clients, its own designated bathroom, as well as a new

The mind and the body are so deeply interwoven and that can be easy to forget and disconnect from in our busy lives. I work with my clients to rebuild that connection through intentional and purposeful massage addressing mental, emotional, and physical imbalances. Massage is not a miracle but is a tool for improving our daily lives. Massage is more than a luxury we treat ourselves with on a special occasion. Massage is prioritizing yourself. It's taking care of yourself in a meaningful and palpable way.

"I love what I do and I'm so thankful and grateful to all who have helped me on my journey of building my own massage therapy practice and for the continued support from my amazing and loyal clients. I couldn't do it without them! I can't wait to meet more people in my community and start helping improve their quality of life through compassionate and methodical massage therapy sessions."

CHUTE'S WATER SYSTEM AND WELL Drilling has been a family-Operated business since 1963, when Howard Shute and his brother-in-law, Warren Shetler, first opened the business. Originally named Lafayette Well Drilling, Howard Shute carried the business alongside his sons; Mark, Neil, and Scott, and its reputation for many years until Howard Shute officially retired at almost 80 years. Scott Shute and Matt Farkas continue the effort of providing safe and clean water. The office is run by Scott's wife, Becky, and Mark Shute's daughter, Jill. Satisfied customer recommendations and glowing reviews are attributed to Shute's Water Systems and Well Drilling's success.

Now serving the CNY's areas, including Syracuse, Baldwinsville, Cortland, Cazenovia, Chittenango, Canastota, Fayetteville, Auburn, Tully, Lafayette, Marcellus, Manilus, Camillus, and Skaneateles. Scott Shutes mentions, "With years of experience, our team will assess your needs and create a custom water system plan or repair that's right for you."There are tests to determine the specific needs of a customer, and the basic water analysis of hard metals is free. For a more detailed survey, called the Water quality indicators (WQI), there is the option to test for microorganisms and bacteria. Shute's Water Systems conducts the test, and the results are then sent to a lab. They stress the importance of well-testing as the lasting effects can lead to health problems.

There are a few things to keep in mind when determining the quality or purity of the water. Examples are; recent

construction, location, maintenance, the water source, and any septic floods that could cause leakage into the well. These area contaminants vary upon location as well. Shute's Water systems have Ultraviolet filters, Chlorination and Filtration setup, and Carbon and Sediment filters. If water is determined to be hard, there are also conditioning treatments available, like; reverse osmosis, salt-based or salt-free, dual water tank softener, or a magnetic water descaler.

Shute's Water Systems can provide installation and maintenance on water pumps and storage systems. Any brand is available and can be maintained. However, a brand manufactured in the Auburn and Seneca area, Goulds, is a popular choice. In addition, Shute's Well Drilling is a fourgeneration business, with Mark and his son Jeff overseeing. Both experienced and reliable, the benefits of private well water can provide financial benefits, as well as cleaner water overall. Free from water bills, and the toxins public water can carry, Shute's Well Drilling installs quality wells for its customers. Their slogan is, "Quality Water From Your Well To Your Faucet!" Shute's Well Drilling is located on Highway 20, in Lafayette. They can be reached at (315) 952-4113. Shute's Water System is also located in Lafayette on 5684 Route 20. To schedule an appointment, they can be reached at (315)

CREATURE FEATURE MY WILD VALENTINE

KAY, IT'S TRUE THAT ANIMALS don't exchange Valentines, but they DO have other ways of letting potential mates know they're "in the mood"... and believe it or not, romance is already in full swing for lots of wildlife.

New words-only, 1/32nd page ad — 50-word maximum. Single font at a single size. \$20 for one-time run. 4 for \$75 — run consecutively, no changes. Payment must be included. No exceptions! Great for classifieds or businesses on a budget! Call 607-844-8228 or email tcatribune@gmail.com today to place your ad!

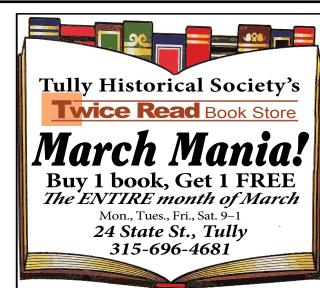

Great Horned Owls get an early start on romance each year. Pairs engage in passionate hooting duets and cuddling courtship rituals. Mating and nesting in the middle of winter $\,$ may seem crazy, but it gives their owlets more time to grow and develop the hunting skills necessary to survive on their own. (Please note: since rodents make up the majority of prey for owls and their young, never use rodenticides, which kill millions of owls, hawks, and other wildlife each year when they eat poisoned mice and rats.)

Red Foxes are also looking for love in February. Typically, foxes are faithful partners and maintain lifelong bonds. In fact, if the vixen dies, her mate often stays "single" the rest of his life. Should you hear human-like screams coming from the woods at night, don't fret - the hair-raising screeches are likely the mating calls of amorous foxes!

Depending on the region, this month is peak breeding season

for several other wildlife species native to New York including Bald Eagles, Bobcats, Eastern Coyotes, Beavers, Cottontail Rabbits, Striped Skunks, and Gray Squirrels. There's even an unusual looking fish called $the\,Burbot\,that\,spawns\,under$ lake ice each winter! I guess February inspires romance in all kinds of Valentines... even the "wildest" of lovers.
