**CORTLAND COUNTY TRIVIA  
FROM THE CORTLAND COUNTY  
HISTORICAL SOCIETY**

SUMMER IS RIGHT AROUND THE corner, and that means swimming at Wickwire Pool in Cortland. In the last issue of the CAT, we asked if you knew when the pool was built. This beloved landmark of Cortland County was donated to the city by Charles C. Wickwire in 1946.

Charles C. Wickwire turned the first shovelful of dirt for the construction of the pool on September 17, 1945, and the D.W. Winkelman Construction Company of Syracuse was the contractor. In December, they were laying the last concrete section of the floor of the pool and had large bonfires burning nearby to help keep the masons warm so they could complete the pool on time!

The 75' by 150' pool was to accommodate more than 500 people at one time, and the cost to build it was between \$30,000-40,000. More than 3,000 people were at the opening day celebration.

What is the name of a long time Cortland resident who served as the United States Commissioner of Patents who also had a son that served in that same position about 20 years after his father did?

**CREATURE FEATURE  
THE FLOODGATES ARE OPEN!**

OVER THE LAST FEW WEEKS, the first trickle of returning birds has been steadily increasing, and now the floodgates are open!

Ruby-throated Hummingbirds have arrived, so it's time to hang your nectar feeders. Note that red food coloring is neither necessary nor recommended when preparing hummingbird nectar. Simply mix well 1 part sugar to 4 parts water. (Boiling isn't necessary but gives the nectar a longer shelf life.) Unused nectar can be stored in the fridge for up to a week. Clean and refill your feeder often to prevent the growth of harmful mold and bacteria.

Keep a look out for Wood Ducks, Buffleheads, Common Goldeneyes, Hooded Mergansers, and Common Mergansers -- all cavity nesting ducks. They nest in abandoned woodpecker holes or other tree cavities caused by disease, fires, or weather events. It seems strange to spot a duck perched in a tree, but springtime offers opportunities to observe them perched on limbs or careening through the trees near lakes and ponds.

These ducks will use an appropriately constructed nest box, especially where natural sites are limited; so if you have suitable lakefront or wetland habitat for cavity nesting ducks on your property, consider mounting a nesting box near the water. Step-by-step, DIY guidelines for building and maintaining a duck nesting box can be found online at [ducks.org](http://ducks.org).

**A FAMILY TREE WITH DEEP ROOTS— CELEBRATING 60 YEARS**

SHUTE'S WATER SYSTEMS AND SHUTE'S LaFayette Well Drilling has been a family-run business serving Central New York for 60 years, drilling wells, installing pumps and treating problem water.

Originally known as LaFayette Well Drilling, established in 1963 by Howard Shute, and brother-in-law, Warren Shetler, both the business and their reputation grew over the years.

Shute continued on with the business after Shetler decided to pursue other interests.

Shute was then joined by his sons, Mark, Neil and Scott. Howard Shute retired at nearly 80 years of age while his sons continued the family tradition of providing safe and pure water to the community.

Today, Shute's Water Systems is run by Scott Shute and Matt Farkas, and Shute's Excavation is run by Todd Shute. Scott's wife Becky runs the office with Mark Shute's daughter Jill. The family attributes the majority of its continued success from recommendations it receives from satisfied customers.

Shute said many municipal water systems contain calcium and magnesium, which as "hard" substances, form scale and create problems in water heaters, dish washers and plumbing systems.

Water purification can include the removal of iron, sulfur, chlorine and bacteria in a chemical-free process. Softening the water is also important and has many benefits, not only for family members, but for plumbing systems and appliances too.

"Uncontaminated water is essential for good health," Shute said. "Foul-smelling or unusual odors from your water should make you question your water's quality and safety."

Many families throughout Central New York use well water as a source of drinking water and for all its household needs. Unfortunately, water containing hydrogen sulfide gas has a distinctive "rotten egg" odor which is especially noticeable when running hot water.

Shute said the danger lies in a gradual chemical reaction

"Hydrogen sulfide gas will corrode plumbing metals such as iron, steel, copper and brass, and the exposed metal parts in appliances such as dishwashers and washing machines" Shute said. "Also, corrosion of iron and steel pipes from ferrous sulfide, or 'black water,' that can darken everyday tableware, discolor copper and brass utensils and alter the appearance and taste of cooked foods."

Additionally, Shute said, sulfur water can make washing clothes more difficult.

Shute's Water Systems can assure customers that these hazards and more can be avoided or remedied using its time-tested, ecological systems

Shute's offers a free water analysis that will help lead to great-tasting and healthy water from the tap. Located in LaFayette, Shute's Water Systems can be reached at (315) 677-5552, or visit [ShutesWaterSystems.com](http://ShutesWaterSystems.com). Everyone at Shute's Water Systems wishes our friends, family and customers a safe and Happy Holiday.

## MOTHER'S DAY AT LITTLE YORK PLANTATION

**S**PRING AND ESPECIALLY MOTHER'S DAY is my favorite time of year. Walking into the greenhouses has a special fresh smell about it. And each time you walk in on a brisk day, you are surrounded by a warmth that just envelopes you. Any chill in your bones is immediately gone!

And then to look around. Color everywhere! It's almost magical!

Each year it's a pleasure to work the weekend of Mother's Day. I wouldn't miss it for anything! People from all over the country come back home to honor their mothers and coming to Little York Plantation for that special basket for Mom has become a tradition.

My favorite part of working that weekend is hearing the stories of our shoppers that came here as a child. In many cases it was their first remembered introduction to a plant store. When we started over 50 years ago,

Garden centers certainly weren't what they are today. K-mart was the only big box store and it carried some bedding plants and a very limited selection of hanging baskets.

Little York Plantation was a small roadside Market that specialized in produce. Flowering plants were at best an after-thought. Dick had built a small greenhouse for us to produce our vegetable plants for the garden and I had asked him to order just a few annuals for me to try.

When the seed order came there must have been 30 or more seed packets of annuals plus all the vegetable plants he had ordered. Neither of us knew the first thing about planting or growing them.

But Dick was a science teacher at Homer. He researched how to plant and grow and with his knowledge we were very successful with the vegetable and the flowering plants that first year. Every single basket we grew for Mother's Day sold!

It's hard to believe that after all these years we get just as excited about selling our Hanging baskets and other Mother's Day flowers as we did that first year.

If you haven't been here before, come out and find a basket that will last you throughout the season. And if you have been coming here for years, we look forward to seeing you again this season and hearing your remembrances of visiting the garden through the years.

Our selection has expanded since those early years. Besides the traditional hanging baskets and bedding plants, don't forget to browse our huge selection of gardening enhancements and our Antique shop. There's something for everyone! Looking forward to seeing you this weekend.

camping and kayaking with the boys, their wives and their children. He was funny and loved to tease the ones he loved! He was kind and compassionate and wise. Dan was a loving husband and best friend to me, his wife. I, all of us, miss him very much. Yet we know we will be with him again when we meet before the throne of our God, our Lord and our Savior, Jesus Christ, who took the penalty of our wrongdoings so we could enter His kingdom in eternity. We love you, Dan!

Dan was also passionate about plants, often falling asleep at night with a plant catalog in his hands! He has passed on his love of gardening and knowledge of horticulture to our son Andrew who has been our partner in business for over twenty-two years. Under Andrew's capable hands, Valley View Gardens will continue to grow and serve our community with quality trees, shrubs, perennials, flowers and beautiful landscape designs as we have done for decades. As for me and the wonderful ladies who work with me, we will be there to assist our customers with their plant needs as well as with gift ideas in our lovely ten-room gift shop, The Cinnamon Apple Cottage, for years to come.

Our family wants to thank the countless friends who supported and comforted us during this time. It was truly a blessing to hear how Dan impacted the lives of so many in our community. We appreciate and love you all and look forward to seeing you soon. We will open on Saturday, May 4 at 9:00. Our hours this season will be: Monday through Saturday, 9:00 to 5:00. We will be closed Sundays with the exception of Sunday, May 12 (Mother's Day Weekend) and Sunday, May 26 (Memorial Day Weekend).

Thank you again from the bottom of our hearts for the love and support we have received at this time!
