CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

OUR QUESTION IN THE LAST issue of the CAT was this: what is the name of a long time Cortland resident who served as the United States Commissioner of Patents who also had a son that served in that same position about 20 years after his father did?

Rodolphus Holland Duell served as the fifteenth U.S. Commissioner of Patents from 1875-1876, and his son Charles Holland Duell served as the twenty fifth U.S. Commissioner of Patents from 1898-1901. R. Holland Duell, as he was known, was born in Warren, NY on December 20, 1824. He studied at Syracuse University and became a lawyer, being admitted

to the bar in 1845. In 1848, he moved to Cortland where he served as the District Attorney of Cortland County from 1850-1885, at which time he became the District Judge. During his career, he served in the U.S. Congress for eight years.

Can you name a forgotten village of Cortland County which has a street in Cortland named after it?

SHUTE'S
WATER SYSTEMS

WATER TREATMENT PUMPS • WELLS

LaFayette, N.Y.
Phone (315) 677-5552

By Jaxyn Boyce

SHUTE'S WATER SYSTEM AND WELL Drilling has been a family-operated business since 1963, when Howard Shute and his brother-in-law, Warren Shetler, first opened the business. Originally named Lafayette Well Drilling, Howard Shute carried the business alongside his sons; Mark, Neil, and Scott, and its reputation for many years until Howard Shute officially retired at almost 80 years. Scott Shute and Matt Farkas continue the effort of providing safe and clean water. The office is run by Scott's wife, Becky, and Mark Shute's daughter, Jill. Satisfied customer recommendations and glowing reviews are attributed to Shute's Water Systems and Well Drilling's success.

Now serving the CNY's areas, including Syracuse, Baldwinsville, Cortland, Cazenovia, Chittenango, Canastota, Fayetteville, Auburn, Tully, Lafayette, Marcellus, Manilus, Camillus, and Skaneateles. Scott Shutes mentions, "With years of experience, our team will assess your needs and create a custom water system plan or repair that's right for you." There are tests to determine the specific needs of a customer, and the basic water analysis of hard metals is free. For a more detailed survey, called the Water quality indicators (WQI), there is the option to test for microorganisms and bacteria. Shute's Water Systems conducts the test, and the results are then sent to a lab. They stress the importance of well-testing as the lasting effects can lead to health problems.

There are a few things to keep in mind when determining the quality or purity of the water. Examples are; recent

construction, location, maintenance, the water source, and any septic floods that could cause leakage into the well. These area contaminants vary upon location as well. Shute's Water systems have Ultraviolet filters, Chlorination and Filtration setup, and Carbon and Sediment filters. If water is determined to be hard, there are also conditioning treatments available, like; reverse osmosis, salt-based or salt-free, dual water tank softener, or a magnetic water descaler.

Shute's Water Systems can provide installation and maintenance on water pumps and storage systems. Any brand is available and can be maintained. However, a brand manufactured in the Auburn and Seneca area, Goulds, is a popular choice. In addition, Shute's Well Drilling is a four-generation business, with Mark and his son Jeff overseeing. Both experienced and reliable, the benefits of private well water can provide financial benefits, as well as cleaner water overall. Free from water bills, and the toxins public water can carry, Shute's Well Drilling installs quality wells for its customers. Their slogan is, "Quality Water From Your Well To Your Faucet!" Shute's Well Drilling is located on Highway 20, in Lafayette. They can be reached at (315) 952-4113. Shute's Water System is also located in Lafayette on 5684 Route 20. To schedule an appointment, they can be reached at (315) 677-5552.

CP FOODS SPECIALTY MARKET

32 Owego Street • 607-753-6900

OUR FAMILY-OWNED COMPANY, CP FOODS (formally known as Cortland Produce) has been providing quality food and all kinds of restaurant supplies to Cortland-Area restaurants since 1929. Which is why we're excited to be a sponsor for the first ever Cortland County Restaurant Week from March 18th - March 24th! Twenty-three restaurants are participating and we could not be any prouder to support them. Many of these same restaurants shop our retail store, CP Foods Specialty Market, located at 32 Owego Street. We have a large selection

of wholesale restaurant size items like beef tenderloins, pork loins, seafood of all kinds, paper products, dried and canned goods. For large families, this means cost savings as well. We also have restaurant-quality desserts including our new line of Imported Italian Desserts from Bindi®. We've sampled them and wow are the good! They literally taste like Nona baked them at home. They're exceptional quality with delicious options like Tiramisu, Profiteroles, Ricotta Pistachio, Limoncello Mascarpone and assorted Sorbetto. Our staff is passionate about food and the legacy of CP Foods and are always available to help you shop our store. The meat department is of superior quality offering superior beef like Creekstone Farms® and Duroc Pork. A line of meat you cannot buy anywhere else in Cortland. And our Chef-Trained Butchers are always available to guide you in purchasing just the right kind of meat for your family and your budget. They even can trim and tie roasts and offer recipe suggestions. This may be why we were voted 2023 Finger Lakes Best Place to Buy Meat. And as we gear up for Easter, Passover and our famous, annual Thrill of the Grill, we invite you to stop in and shop where your favorite restaurant shops, 32 Owego Street. Store hours are Monday-Saturday 9am-6pm and Sunday 9am-4pm. Call to order your holiday roasts 607-753-6900.

**CREATURE FEATURE
 MOTHERLY DEVOTION**

IT'S SPRING, AND THAT MEANS there are lots of wildlife babies being born into the world!

Known for their intelligence and curious, mischievous ways, **raccoons** are also wonderful, nurturing mothers. A female raccoon faces childrearing challenges as a single mom. After giving birth to a litter of 2 - 5 kits, she devotes much of her time to caring for her totally helpless babies. She nurses them every few hours and, when necessary, carries them around in her mouth or on her back. If she feels threatened, a mother raccoon will move her kits to a different den. She is also fiercely protective and will attack predators that threaten her vulnerable family. (You may observe mother raccoons foraging in the daytime; this is normal behavior and no cause for alarm.)

Over time, Mama Ringtail begins to introduce her little ones to solid food. After around 8 weeks, when the babies are ready to leave the den, she leads them to a new location. Throughout summer, as they trundle and tumble behind her, she teaches her youngsters important life lessons like how

Keith W. Brown, 75, of Locke, NY passed away Saturday April 27, 2024, surrounded by loved ones at Crouse Hospital in Syracuse, NY after a brief illness. Keith was born February 9, 1949, in Cortland, NY he was the son of the late Glenn T. and M. Willodean Brown.

He was in farming and construction for much of his life including being an Operating Engineer on the Trans-Alaska Pipeline. His lifelong passion for agriculture led to the foundation of Mid Lakes Antique Power of the Past and Finger Lakes Old Time Farmers tractor clubs, where he spent his years driving the preservation of historical farming methods and equipment across the area. He plowed, mowed, planted, cultivated and harvested fields all across the Finger Lakes, bringing life not only through the soil but through those he met. No matter how far he traveled there was always someone who knew Keith Brown. He spent countless hours having conversations through the truck window, discussing the planting conditions with farmers at the local diner and giving tractor advice to anyone who needed it. You could see him out in the field driving the 1957 Ford 860 his father had purchased new when he was a boy. He and that tractor spent many a day working tirelessly for the benefit of others, both those he knew and those who were strangers to him. He dedicated his life to his family and friends and always put their needs above his own.

Keith is survived by his loving wife of 51 years Sandra (Snover) Brown; son Kevin Brown of Otisco; daughter Ginger Miner of Theresa, daughter Katie Forst of Baldwinsville and daughter Shannon Brown of Locke, brother Melvin (Catherine) Brown of Cortland. He is also survived by his grandchildren Dylan Brown, Jared Brown, Laiken Brown, Garrett Miner and Marcus Haider. As well as several nieces and nephews. He is pre-deceased by his parents, brothers DeWitt and Roger Brown, sisters Ilean Hampton and Leona Cummings.

Condolences may be sent to 1039 Main Rd. Locke, NY 13092

to forage on their own, how to climb and defend themselves, and how to find places of refuge for shelter and protection from predators. Such skills are crucial to the kits' survival. Although the young raccoons are weaned after a few months and usually disperse by early winter for an independent life, they may hang around with Mom until the following spring – kind of like some human kids that seem resistant to cutting the apron strings!

may be fully landscaped and your lawn is scattered with beautiful shade and flowering trees.

Or you may be a wanna-a-be gardener...very little confidence or expertise...even a bit overwhelmed by the whole idea of gardening. The only real experience you have is a you-tube video or possibly a fond memory of your Grandmother in her garden. Maybe you've recently bought a new home that has no landscaping at all or is overgrown with plants and you have no idea where to start.

When you need help Little York Plantation is the place to come. We cater to the experienced gardener and the novice.

The true gardening enthusiast always comes to Little York Plantation first to find what's new in our plant selection and

what's trendy in gardening accessories. The true gardening enthusiast can tell that our plants are cared for from their earliest inception until they find a new home with you. They've been pampered and fed and are ready to perform their best for you throughout the summer months.

And for those of you who are new to gardening, Little York Plantation is also "THE PLACE TO GO." Our knowledgeable staff will direct you on what performs best for that hot sunny spot as well as a cooler shady spot on your home. And if it's a veggie garden you are looking for, we'll ask some questions and get you started in the right direction for success.

Whatever your need, Ask the folks at LITTLE YORK PLANTATION. Let us bring the tradition of gardening into your family.

This Memorial Day we make it easy. Buy 2 of anything and get the third one of equal or lesser value FREE! What a great way to get the gardening season off to a perfect start!

Be cool this year and brag that YOUR PLANTS CAME FROM LITTLE YORK PLANTATION!

MINISPLITS
A mini-split, or ductless air conditioner, is an appliance that can both cool and heat a home. Minisplits are an all-electric solution replacing oil, gas or propane heating sources to move our world to a cleaner energy source. But unlike a traditional air conditioning or heating system, mini-splits offer "zone-control." While a traditional heating and cooling system can be turned on or off, each indoor unit of a mini-split can be set to a different temperature.

Climate Heat Pumps are designed for energy and flexibility to solve your heating and cooling needs. At 'Second Shift' we will install your equipment after hours and on weekends to make it convenient for you by not having to take time off of work for your install. We install Mitsubishi, Samsung and Senvine minisplits to help you heat and cool that main space or that hard to get to space. Electric HVAC systems provide more comfort and flexibility for your home and reduce the carbon footprint and the impact on global warming. Applications include wall mount, floor mount, hybrid hvac mounting in an existing furnace and ceiling recessed units which also can be run from a cell phone and/or in a smart configuration.
