CELEBRATING THEIR 42ND YEAR

2677 Main Street, Whitney Point
607-692-4114
aiellosrestaurant.com

LOCATED AT 2677 MAIN STREET in Whitney Point for the last 42 Years, Aiello's Restaurant has been one of best locations within driving distance to find authentic Italian Cuisine. It has become the go to place for people who are seeking a fine dining experience in a small town. The Aiello's family have stayed true to their beginning by providing their customers take out service for both their fine dining offerings and now famous pizzas. Aiello's has a 42 year tradition of using only the freshest and best ingredients when preparing their dishes whether it is their Grade A Black Angus Steaks, fresh herbs and spices, top notch mozzarella and even 100 imported extra virgin olive oil. Always innovators, Charlie (Calogero) and Vinny (Vincenzo) are always looking for ways to up their game. Whether it is a new recipe, or a fine cocktail there is always something in store. Aiello's Restaurant has always been a family affair. Their father Vito Aiello helped Charlie (Calogero) and Vinny (Vincenzo) open a small pizzeria in the community. Inspired by Mama's busy kitchen and being around restaurants they grew Aiello's from a small pizzeria it was to the premier fine dining, family friendly establishment it is today. Through the support and friendliness of the people of Whitney Point they have been able to grow their reputation and reach far beyond the area.

Now people come from all over Central New York, Canada and beyond to enjoy the Aiello's experience. As the years have passed and the Aiello's has grown, they have embraced ways to improve the entire customer experience. In March of 2020, they updated their website aiellosrestaurant.com and were the first local restaurant in Whitney Point to offer their own online ordering dine in or pickup. Additionally, they specialize in catering events large and small. You can see both their regular menu and catering menu on their website. Don't worry if you aren't tech savvy, you can still give Aiello's a call at 607-692-4114 to order to go, make a reservation or set up your next catering event. Stop in a pickup a jar of Aiello's tomato Sauce and more to come. The color is amazing, only the best tomato from California! And the taste is even better! They are open 7 Days a week from 11 am to 9:30 pm.

**CREATURE FEATURE
YOU'VE GOT A FRIEND IN ME**

HOW MANY OF US CAN claim a human companion who is completely selfless, loyal, and devoted? Someone that is 100 percent present whenever we need them, day or night, is happy to go wherever we lead without complaint, holds no grudge even if we neglect or mistreat them, and loves us guilelessly, without self-serving purpose? While such human companions might be quite rare, those sharing their hearts and homes with dogs enjoy this very type of pure friendship every single day.

Dogs can help us to grow, heal, and move past dark places in our lives. They teach us about commitment, trust, and other valuable life lessons, and also encourage us to explore new routines and activities. Most of all, dogs give us the chance to love and be loved. Perhaps now is the right time to consider adopting a homeless dog – *there are many wonderful dogs needing a second chance at life and love* – and one is out there now, hoping to be your new best friend. Just be sure to recognize and honor the commitment involved so you can be a worthy friend.

"You've got a friend in me...if you've got troubles, I've got 'em too. There isn't anything I wouldn't do for you. We stick together and can see it through. Cause you've got a friend in me."
—Randy Newman

GOING OUT ON THE TRAIL WITH YOUR DOG

DO YOU HAVE A FURRY friend watch you pull out the driveway as you leave for your trail outing? Your dog can also enjoy the fun and benefits of being in the woods and on trails as well. Dogs have a lot of energy and require exercise too. Depending on the type of dog you have will determine the extent of running he can do. Most medium to large size dogs from the hunting or working class groups (or a combination thereof) do well with trail running. Keep in mind that an overweight or older dog may have a tough time trying to keep up but will still like the outing, so exercise accordingly. Before the first time, it's a good idea to talk to your dog's veterinarian about what you have in mind for him. It's important that your dog can deal with the rigors and intensity of a trail run. If you are mountain biking with your dog, bikes can move right along at a good pace and cover many miles. If the dog is just a puppy, it's recommended to leave him home until he is at least 9 to 12 months old. After he has gotten a little older, start your first slow and short outing someplace where you can work out the little details. Dogs are instinctively pack animals and if you lead they will follow. Since he will be off the leash he needs to know a few important commands. The most important ones are "stay" and "come". Control of Fido is very important because of all the distractions on the trail. Distractions come in many forms, such as other people and possibly their dogs, horses, wildlife and vehicles.

If you start your outing from a spot near a busy road, it might be a good idea to keep him on a leash until you are ready to leave. I have found another good way to break him in is to take him with a group of other people and their dogs. He will most likely be so excited to be in the woods, around you and the

other dogs that he will follow without question; again it's the pack idea. Before you hit the trail you should have a checklist for Fido. Your list should include a water bottle just for him, a leash, and some first aid supplies and maybe some treats to lure him back when he strays. I also like a bright orange vest, it makes them more visible to you and others and a good idea during hunting seasons.

So, you and your dog are headed down the trail, now what? Well you'll find that while you are following some kind of trail, your 4-legged buddy will be running from one side of the trail to the other, smelling all those scents that dogs love. Some dogs can put on a lot more miles than you, so keep that in mind when watching your mileage because he will have more. Most dogs will want to be out front, but because of their sniffing, they may lag for a few and then come charging up thru. It's important for you to hold your line, because that is what the dog is expecting, dodging and trying to predict where he will go could lead to a collision. A few things that the new trail dog must also learn is to stay away from the bike's front wheel or ski tips and even stopping in the middle of the trail, not good. Usually if you shout "Go!" works, but sometimes a collision happens. Both you and the dog need to be alert and aware of what is going on. Sometimes a friendly low speed bump to the rump from your front wheel or ski pole can quickly bring this important point clear.

There are some dogs that have so much energy or get so excited when they get out on the trail that controlling them can be a real handful if not nearly impossible. You need to evaluate the excitable dog. The last thing you want is for him to take off and end up lost. I have had good luck with training collars for dogs off leash in the woods. Some people don't like them for whatever reason but I feel corrections for unwanted behavior and done properly can keep the dog with me, safe and sound. With something like this, it requires time and work but it may be the best way to train your dog in a big wide open wooded area. All E-collars have a "beeping/tone" option which is the desired end result form of correction. All my dogs that have worn e-collars have had excellent recall with just the tone sound. Discussing training collars would require more space than I have here and there is good info on the internet. 'SPORTDOG' is a good place to start.

An important side note, if it is very warm and muggy outside you may have to leave him home but that is easier said than done, so in my case I'll pack us some water and just hike instead of a bike ride. If it's really cold outside your dog may like a jacket and/or dog booties, 'RUFFWEAR' makes quality dog stuff.

Trail time with your dog can be a challenge, but patience and

time will make it well worth the effort. Just remember, that it will be difficult to pull out the driveway without taking your buddy along. Happy trails to you and your furry friends!

CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

IN THE LAST ISSUE OF the CAT, we asked if you knew what the original name of Brown Avenue was. This street was named Doubleday but was changed to Brown to honor the first elected mayor of Cortland, Charles Farmer Brown who served two terms, 1901-1904. The key word here is "elected" because there was one mayor before Brown. Civil War veteran Samuel N. Holden was elected as president of the village of Cortland and Cortland was incorporated as a city in March of 1899. He continued as the first mayor until Brown was elected.

Charles Brown attended public schools and the Cortland Normal School. At the age of 16, he opened a drug store with Gershum Bradford. Bradford and Brown parted ways, and he took up a partnership with Melvin Maybury. The drugstore was at 53 Main Street. After a time, Brown got out of that business and purchased an insurance agency in 1913. He operated that until his retirement in 1947. Before his business ventures began, he used to light the gas lights on Cortland Streets. He was an industrious individual!

Brown was civic minded, too. He was on the Board of Education and belonged to the Cortland Masonic Lodge, Rotary, the Cortland Country Club, and the Elks. He was a member of the First Baptist Church and was president of the Cortland Rural Cemetery's board of directors. Somehow, he even found the time to sit in the New York State Assembly as a Representative for Cortland County (1907-1912). With this great resume, it's no wonder Charles F. Brown was honored with a street named after him.

Which of the towns in Cortland County is named after a Roman poet?

SHUTE'S

LaFayette, N.Y.

**A FAMILY TREE
WITH DEEP ROOTS—
CELEBRATING 60 YEARS**

SHUTE'S WATER SYSTEMS AND SHUTE'S LaFayette Well Drilling has been a family-run business serving Central New York for 60 years, drilling wells, installing pumps and treating problem water.

Originally known as LaFayette Well Drilling, established in 1963 by Howard Shute, and brother-in-law, Warren Shetler, both the business and their reputation grew over the years.

Shute continued on with the business after Shetler decided to pursue other interests.

Shute was then joined by his sons, Mark, Neil and Scott. Howard Shute retired at nearly 80 years of age while his sons continued the family tradition of providing safe and pure water to the community.

Today, Shute's Water Systems is run by Scott Shute and Matt Farkas, and Shute's Excavation is run by Todd Shute. Scott's wife Becky runs the office with Mark Shute's daughter Jill. The family attributes the majority of its continued success from recommendations it receives from satisfied customers.

Shute said many municipal water systems contain calcium and magnesium, which as "hard" substances, form scale and create problems in water heaters, dish washers and plumbing systems.

Water purification can include the removal of iron, sulfur, chlorine and bacteria in a chemical-free process. Softening the water is also important and has many benefits, not only for family members, but for plumbing systems and appliances too.

"Uncontaminated water is essential for good health," Shute said. "Foul-smelling or unusual odors from your water should make you question your water's quality and safety."

Many families throughout Central New York use well water as a source of drinking water and for all its household needs. Unfortunately, water containing hydrogen sulfide gas has a distinctive "rotten egg" odor which is especially noticeable when running hot water.

Shute said the danger lies in a gradual chemical reaction

"Hydrogen sulfide gas will corrode plumbing metals such as iron, steel, copper and brass, and the exposed metal parts in appliances such as dishwashers and washing machines" Shute said. "Also, corrosion of iron and steel pipes from ferrous sulfide, or 'black water,' that can darken everyday tableware, discolor copper and brass utensils and alter the appearance and taste of cooked foods."

Additionally, Shute said, sulfur water can make washing clothes more difficult.

Shute's Water Systems can assure customers that these hazards and more can be avoided or remedied using its time-tested, ecological systems

Shute's offers a free water analysis that will help lead to great-tasting and healthy water from the tap. Located in LaFayette, Shute's Water Systems can be reached at (315) 677-5552, or visit ShutesWaterSystems.com. Everyone at Shute's Water Systems wishes our friends, family and customers a safe and happy Summer.
