Licensed Bodywork Therapist and Registered Bach Flower Practitioner with decades of experience, Emmanuella Grossman LMT, BFRP, RCST®, PTP, invites you to embark on a transformative journey of healing and wellbeing.

Healing Modalities can be combined

**Biodynamic Craniosacral Therapy - 90 minutes**

Gentle hands-on modality supports the inherent health of the whole being, especially the nervous system that dictates all of the body's functioning. Assists the body in reorganizing patterns releasing old tensions, held patterns or trauma that may manifest as chronic/tight (insomnia, migraines, enhanced digestion/organ function, improves energy levels, alleviate symptoms of blockages, regulates nervous system, etc.) frees up energy to use in our present life and a greater sense of relaxation and well-being.

**Polarity Therapy - 90 minutes**

Hands-on energetic modality that uses non-invasive bodywork to palpate stuck energy in the body. The body has an innate ability to heal and at times needs assistance to re-align. The intent of Polarity is to bring about a balanced distribution of the body's energies. Polarity reduces stress, pain, boosts the immune system, promotes deep relaxation.

**Reiki / Prana Healing Chakra Balance - 30 minutes**

Working with the major energy centers (chakras) in our body, the chakras are cleared and re-energized bringing an overall feeling of balance and well-being.

**Bach Flower Remedies Consultations - First Session - 60 minutes, Follow-Up Session - 30 minutes**

Empowering the client to be aware of and express the emotions that need rebalancing. Like the peeling of an onion, there are layers of emotions and we peel one layer at a time focusing on the present emotions that the client is aware of. A personalized bottle is made with up to 7 Bach Flower Essences to gently and subtly rebalance emotions such as anger, unfairness, discouragement, depression, impatience, bitterness, grief, shock, trauma, lack of confidence, jealousy, etc.

## CORTLAND COUNTY TRIVIA FROM THE CORTLAND COUNTY HISTORICAL SOCIETY

IN THE LAST ISSUE of the CAT, we asked if you knew what was renowned about early Homer and Cortland settler Adin Webb.

Adin Webb was born in Connecticut in 1780. He taught school in his home state at just 16 years old, but after a few years, he moved to first Cazenovia and then Homer. He taught at the little school on the green in Homer for several years and then at the new Cortland Academy (established in 1819). He conducted a choir at the Congregational Church in Homer which was accompanied by bass viol. Webb conducted singing schools in addition to his work with the church choir. Adin Webb's three daughters Olive, Emily, and Ursula also had lovely singing voices, and there is a story told about how there was a large outdoor church service which was held in the woods to accommodate a large crowd. Adin and his three girls sang while leaning against trees. Can't you just envision a gorgeous blue sky with lush green trees and ferns? The sun filters through the trees and the citizens enjoy the wonder of nature and the beauty of song.

Eventually, Webb moved to Cortland Village in 1823. Here he became a merchant with partner Eleazor W. Edgcomb, and they conducted their business out of the corner store of the Eagle Tavern. While in Cortland, Webb joined the Presbyterian Church where he continued to conduct choir. Adin Webb was a public servant for most of his life, too. He held various positions over the years, including town clerk, surrogate, and sheriff.

Though Webb lived a life full of business and public service, he is remembered for bringing fellowship and spiritual comfort through music in the early days of Homer and Cortland.

*What was the name of a popular park on Franklin Street?*

## CREATURE FEATURE GRATEFUL

As you bow your head in thanks for all that's sweet and good, Remember to be grateful for the creatures in the woods. The chipmunks, squirrels, and rabbits that scurry, climb, and hop, In constant states of busyness that never seems to stop.

The graceful deer that passes by, her newborn fawn in tow, All spindly-legged and spotted, and wobbling to and fro. Recall the way you catch your breath at seeing a red fox, With lovely fur and long plush tail, and handsome ebon socks.

Birds that float or flit and fly in sizes big and small, Herons, hawks, and chickadees, God made them one in all. Like feathered jewels, they paint the sky -- freedom on the wing! With serenades and sweet clear notes that cheer us when they sing.

And what of creatures living round a pond or wooded lake? Shy turtles, frogs and fishes, and – yes – the slithery snake. Otters, muskrats, beavers, giant moose, and nimble mink, From little shrews to big black bears that come to take a drink.

Opossums, 'coons and stinky skunks, coyotes, fishers too, Even those that aren't "cute" are just like me and you. For they deserve to live their lives, to have their own safe space. Give thanks, for *all* these creatures make the world a better place!

### HAPPY THANKSGIVING!

By Jaxyn Boyce

**S**HUTE'S WATER SYSTEM AND WELL Drilling has been a family-operated business since 1963, when Howard Shute and his brother-in-law, Warren Shetler, first opened the business. Originally named Lafayette Well Drilling, Howard Shute carried the business alongside his sons; Mark, Neil, and Scott, and its reputation for many years until Howard Shute officially retired at almost 80 years. Scott Shute and Matt Farkas continue the effort of providing safe and clean water. The office is run by Scott's wife, Becky, and Mark Shute's daughter, Jill. Satisfied customer recommendations and glowing reviews are attributed to Shute's Water Systems and Well Drilling's success.

Now serving the CNY's areas, including Syracuse, Baldwinsville, Cortland, Cazenovia, Chittenango, Canastota, Fayetteville, Auburn, Tully, Lafayette, Marcellus, Manilus, Camillus, and Skaneateles. Scott Shutes mentions, "With years of experience, our team will assess your needs and create a custom water system plan or repair that's right for you." There are tests to determine the specific needs of a customer, and the basic water analysis of hard metals is free. For a more detailed survey, called the Water quality indicators (WQI), there is the option to test for microorganisms and bacteria. Shute's Water Systems conducts the test, and the results are then sent to a lab. They stress the importance of well-testing as the lasting effects can lead to health problems.

There are a few things to keep in mind when determining the quality or purity of the water. Examples are; recent

construction, location, maintenance, the water source, and any septic floods that could cause leakage into the well. These area contaminants vary upon location as well. Shute's Water systems have Ultraviolet filters, Chlorination and Filtration setup, and Carbon and Sediment filters. If water is determined to be hard, there are also conditioning treatments available, like; reverse osmosis, salt-based or salt-free, dual water tank softener, or a magnetic water descaler.

Shute's Water Systems can provide installation and maintenance on water pumps and storage systems. Any brand is available and can be maintained. However, a brand manufactured in the Auburn and Seneca area, Goulds, is a popular choice. In addition, Shute's Well Drilling is a four-generation business, with Mark and his son Jeff overseeing. Both experienced and reliable, the benefits of private well water can provide financial benefits, as well as cleaner water overall. Free from water bills, and the toxins public water can carry, Shute's Well Drilling installs quality wells for its customers. Their slogan is, "Quality Water From Your Well To Your Faucet!" Shute's Well Drilling is located on Highway 20, in Lafayette. They can be reached at (315) 952-4113. Shute's Water System is also located in Lafayette on 5684 Route 20. To schedule an appointment, they can be reached at (315) 677-5552.

## THE HISTORY OF WASSAIL

**T**HE 1890 HOUSE HAS FAITHFULLY held the tradition of our annual open house Wassail event for the last 50 years. Wassail is a mulled beverage traditionally served on the 12<sup>th</sup> Night after Christmas. It is an age-old Anglo-Saxon tradition and it is likely the Wickwires would have celebrated this tradition of their ancestors.

Wassail includes the drinking of a spiced cider (usually with brady), singing carols, and the blessing of fruit and nut trees to encourage a good harvest into the next year. A piece of toast would be put into the Wassail bowl and this is where the 'toast' came from when we click our glasses together.

In more modern times Wassail would be served to carolers who went door to door to celebrate the holiday's traditions.

In the 1890 House Museum tradition; we will be serving Wassail and cookies. The House will be open with no admission fee. Santa and ELF are both anticipated to visit for photos. We will also be entertained by the CNY Flute Choir. Please see our ad for additional details. We are looking forward to seeing you there.
