#### **AIELLO'S RISTORANTE CELEBRATING THEIR 43RD YEAR**

OCATED AT 2677 MAIN STREET in Whitney point for the last 43 years Aiello's Restaurant has been one of best locations within driving distance to find authentic Italian Cuisine. It has become the

go to place for people who are seeking a fine dining experience in a small town. The Aiello's family have stayed true to their beginning by providing their customers take out service for both their fine dining offerings and now famous pizzas. Aiello's has a 43-year tradition of using only the freshest and best ingredients when preparing their dishes whether it is their Grade A Black Angus Meats, fresh herbs and spices, top notch mozzarella and even 100 imported olive oil. Always innovators, Charlie and Vinny are always looking for ways to up their game. Whether it is a new recipe, or a fine cocktail there is always something in store. Aiello's Restaurant has always been a family affair. Their father Vito Aiello helped Calogero (Charlie) and Vincenzo (Vinny) open a small pizzeria in the community. Inspired by Mama's busy kitchen and being around restaurants they grew Aiello's from a small pizzeria it was to the premier fine dining establishment it is today. Through the support and friendliness of the people of Whitney Point they have been able to grow their reputation and reach far beyond the area. Now people come from all over Central New York and beyond to enjoy the Aiello's experience. As the years have passed and the Aiello's has grown, they have embraced ways to improve the entire customer experience. In March of 2020, they updated their website aiellosrestaurant.com and were the first local restaurant in Whitney Point to offer their own online ordering dine in or pickup. In 2023 they added outside dining tables and music on Friday and Saturday during the spring/summer (Follow them on Facebook for music updates). Additionally, they specialize in catering events large  $\,$ and small. You can see both their regular menu and catering menu on their website. Don't worry if you aren't tech savvy, you can still give Aiello's a call at 607-692-4114 to order to go, make a reservation or set up your next catering event. Stop in and pick up a jar of Aiello's Sauce! They are open 7 Days a week from 11 am to 9 pm (10 pm on Friday, Saturday and Sunday). To commemorate their 40th Anniversary in 2022 - June 4th is now "Aiello's Day" in Broome County!

HUTE'S WATER SYSTEM AND WELL Drilling has been a family-Operated business since 1963, when Howard Shute and his brother-in-law, Warren Shetler, first opened the business. Originally named Lafayette Well Drilling, Howard Shute carried the business alongside his sons; Mark, Neil, and Scott, and its reputation for many years until Howard Shute officially retired at almost 80 years. Scott Shute and Matt Farkas continue the effort of providing safe and clean water. The office is run by Scott's wife, Becky, and Mark Shute's daughter, Jill. Satisfied customer recommendations and glowing reviews are attributed to Shute's Water Systems and Well Drilling's success.

Now serving the CNY's areas, including Syracuse, Baldwinsville, Cortland, Cazenovia, Chittenango, Canastota, Fayetteville, Auburn, Tully, Lafayette, Marcellus, Manilus, Camillus, and Skaneateles. Scott Shutes mentions, "With years of experience, our team will assess your needs and create a custom water system plan or repair that's right for you."There are tests to determine the specific needs of a customer, and the basic water analysis of hard metals is free. For a more detailed survey, called the Water quality indicators (WQI), there is the option to test for microorganisms and bacteria. Shute's Water Systems conducts the test, and the results are then sent to a lab. They stress the importance of well-testing as the lasting effects can lead to health problems.

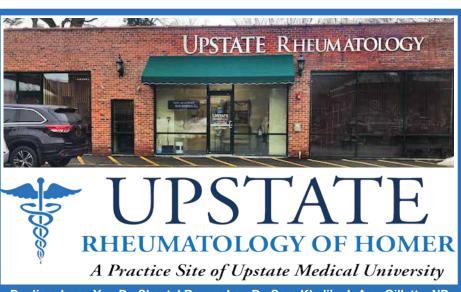

There are a few things to keep in mind when determining the quality or purity of the water. Examples are; recent

construction, location, maintenance, the water source, and any septic floods that could cause leakage into the well. These area contaminants vary upon location as well. Shute's Water systems have Ultraviolet filters, Chlorination and Filtration setup, and Carbon and Sediment filters. If water is determined to be hard, there are also conditioning treatments available, like; reverse osmosis, salt-based or salt-free, dual water tank softener, or a magnetic water descaler.

Shute's Water Systems can provide installation and maintenance on water pumps and storage systems. Any brand is available and can be maintained. However, a brand manufactured in the Auburn and Seneca area, Goulds, is a popular choice. In addition, Shute's Well Drilling is a fourgeneration business, with Mark and his son Jeff overseeing. Both experienced and reliable, the benefits of private well water can provide financial benefits, as well as cleaner water overall. Free from water bills, and the toxins public water can carry, Shute's Well Drilling installs quality wells for its customers. Their slogan is, "Quality Water From Your Well To Your Faucet!" Shute's Well Drilling is located on Highway 20, in Lafayette. They can be reached at (315) 952-4113. Shute's Water System is also located in Lafayette on 5684 Route 20. To schedule an appointment, they can be reached at (315) 677-5552.

# CREATURE FEATURE REFLECTING THE SEASONS

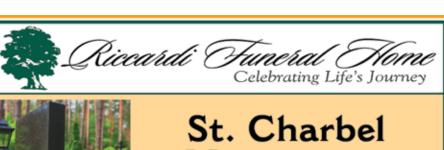

"To everything, turn, turn, turn
There is a season, turn, turn, turn
And a time to every purpose under heaven."
—The Byrds

ON OCTOBER 6TH, WE ENJOYED the first of three consecutive super moons with the glorious rising of the full Harvest Moon. Super moons occur when a full moon coincides with its closest approach to the Earth. As a result, super moons can appear especially large on the evenings before, during, and after their rise date. You can observe the next super moon on November 5<sup>th</sup>, with the rising of the Beaver Moon; then, on December 4<sup>th</sup>, the Cold Moon caps off the year with a super lunar finale.

Various Native American groups had different names for full moons throughout the year that reflected the activities of animals and other seasonal signs at the time of their rising. For example, in addition to the Beaver Moon, other names for November's full moon include the Digging Moon, the Frost Moon, and Moon When All Is Gathered In. December's Cold Moon is also called the Long Night Moon, the Bitter Moon, and the Snow Moon. Pondering the inspiration behind these enchanting names makes them all the more beautiful, as does the realization that we are the modern day witnesses to Nature's timeless, seasonal rhythms.

Don't miss the next two super moons. Which name is your favorite?

# THE POWER OF PUMPKIN ENZYMES IN SKINCARE

When you think of pumpkins, cozy fall flavors might come to mind, but this nutrient-rich fruit is also a powerhouse in skincare. Pumpkin enzymes are natural exfoliators that dissolve dead skin cells, revealing a brighter, smoother complexion without the harshness of scrubs. Unlike abrasive exfoliants, enzymes work by breaking down the keratin protein that holds dull skin cells together, making them ideal for sensitive or reactive skin types.

Make no mistake, pumpkin enzymes are some of the most active enzymes available. While gentle in nature, they are powerful and should always be used with caution. A patch test is recommended before applying to the entire face to ensure your skin tolerates them well.

Part of what makes pumpkin so effective is its nutrient profile. It is rich in vitamins A and C, which support cell turnover and brightness, along with antioxidants that protect against free radical damage. Zinc and beta-carotene help calm inflammation and support healing, making pumpkin beneficial for congested or acne-prone skin.

It is also important to remember that pumpkin enzyme skincare is not the same as simply putting pumpkin on your face. Professional formulations are carefully crafted to be active, safe, and effective. Opening a can of pumpkin purée from your kitchen will not deliver the same results and could actually irritate your skin.

At the spa, pumpkin enzyme treatments are a seasonal favorite because they combine results with a warm, aromatic experience. When used properly, they can transform the skin's texture, radiance, and tone, making them a true harvest gift for glowing skin.

# CORTLAND COUNTY HISTORICAL SOCIETY TRIVIA DID YOU KNOW?

 $By\ Tabitha\ Scoville,\ CCHS\ Director$ 

In 1976, the United States celebrated its 200th anniversary, and communities all over the nation found ways to commemorate the occasion. Cortland County was no exception, and in addition to fireworks, parades, and celebrations held throughout the county, a special item handcrafted by more than fifty men and women contributed to the historical record of our county's history. Did you know that there was an American Bicentennial quilt made to celebrate our nation's 200th birthday, while also memorializing Cortland County's history?

In May of 1975, a public meeting was held to gauge interest and to recruit volunteers for a commemorative project for the United States Bicentennial. The idea to create a quilt was that of former Cortland County Historian Shirley Heppell. County historians were asked to submit three suggestions for a theme for their town or village. It could be a significant person, place, or event. With the help of quilting instructor Frances Armstrong of Scott, Shirley was able to recruit and coordinate quilters from all over the county to complete this quilt in just over a year.

In the end, the design chosen was simply a map of the county with each town sharing something significant from its past. Each block was constructed as one piece with top, batting, and back. The quilting was done for each individual block and then the completed blocks were sewn together to make the whole. Typically, a quilt top is assembled, then batting is added, and the back is added. Quilting is done at the end. The finished Cortland County Bicentennial quilt measures 71" X 89" and the names of the artists and crafts-persons are embroidered on the back.

This one-of-a-kind quilt was entrusted to the care of the Cortland County Historical Society and will be displayed in an exhibit at CCHS in 2026 when the United States turns 250.
