COMMUNITY CALENDAR

June 11-14 – First Annual Homer History Celebration

Step into the past and help celebrate the rich heritage of Homer, NY. Events will include: A kick off brunch at Briggs Hall Manor, guided walking tours of significant historic village buildings, which will include Lincoln's connection to Homer, Brockway connection, raffle, ice cream social, flag presentation, meals with historic themes at downtown restaurants and theme decorated downtown businesses. Celebration will coincide with Homer's sidewalk sales. For more information and details: www.homerbiz.org

June 12 – Illuminations

TIME: 7:30 till dark
LOCATION: Hospicare, 172 East King Road, Ithaca Free. All are welcome to attend. Once again Hospicare will be hosting Illuminations, our annual memorial event. Enjoy the Hospicare gardens, light a luminaria in memory or in honor of a loved one, and share in refreshments. A special program of remembrance features live music and spoken words, and concludes with candlelight on the pond. Local musician Samite will perform, along with Hospicare's a cappella

singing circle, Women Singin'. Attendance is free, although luminarias can be personalized for a suggested donation of \$25. Donations are greatly appreciated, but not required. The event is open to the public, and all are welcome to attend. To learn more, or to purchase a luminaria, call Hospicare at 607-272-0212.

June 13 – Free Music Friday

7pm at Dryden Community Center Cafe. A mix of music from high school drama club students and Rick Hugye and friends. A portion of the proceeds from this evening will support the drama club.

June 14 – Art & Nature Event & Exhibit

When: 9:00 a.m.-Noon
Where: Cornell Lab of Ornithology, 159 Sapsucker Woods Road, Ithaca, NY

Description: Meet author and artist Anita Schmidt-Kyanka during this special event at the Cornell Lab. Anita has written "Sapsucker Blues," a new children's book about an endearing family of Great Blue Herons living at Sapsucker Woods Pond. The story is based on the real lives of herons who nested on a snag above the pond for several years. Millions of people around the world watched in wonder as one of the Lab's live bird cams focused on all the activity in the nest. Anita's watercolor illustrations for the book

are now on display at the Lab through the end of August.

Starting at 9:00 a.m. on June 14, the author will lead a walk in Sapsucker Woods, then read and sign copies of her book and answer any questions. Copies of the book will be available for purchase in the Wild Birds Unlimited at Sapsucker Woods store in the visitor center. There will also be a guided art activity at 11:00.

Admission: Free

SAFE BOATING KEEPS FOCUS ON FUN ALLSTATE HIGHLIGHTS WAYS FOR NEW YORKERS TO STAY SAFE AND WHAT TO DO IN CASE OF AN ACCIDENT

STAYING SAFE AND PROTECTING YOUR investment is something Allstate knows a lot about. Below are some recommendations/tips for fun and safe boating this summer.

These recommendations include:

- Be considerate of your fellow boaters
- Let someone know where you're going and how long you expect to be away
- Always have a life preserver for everyone on board and one throwable flotation device
- Carry a working VHF radio that is monitored by U.S. Coast Guard and all maritime law enforcement
- Have a navigation system such as a GPS and carry a backup paper chart

"While having fun is a priority on the water, these simple tips can help boaters stay safe," said Allstate New York Spokesperson, Jaclyn Darrohn. "In addition to keeping you safe, there may also be a discount on your boat insurance for completing a boating education course."

However, even safe boaters unfortunately encounter mishaps on the water. Allstate data shows the most common claims are striking a submerged object and collision with another boat.

Allstate offers a **checklist** for what to do in case of an accident. Some of these items to follow are:

- Stay calm

- Determine the extent of any injuries or damage and, if needed, obtain medical assistance
- Call the police to file an accident report
- Don't leave the accident scene unless your physical safety is at risk
- Get the facts and essential details at the scene - (See [checklist](#) for full list of accident information essentials)

To see more tips from Allstate, [click here to view the boating safety video](#).

Allstate wants to help boaters understand the importance of following safety procedures to avoid an accident and make sure they are properly insuring themselves and their possessions. Talk to an [Allstate agent](#) near you for help choosing a policy that meets your needs.

Contact SHIRLEY EIZEMBER, Exclusive ALLSTATE AGENT at the Pinckney Insurance Agency located at 41 Port Watson St Cortland, NY 13045..Ph 607-756-8505.

The Allstate Corporation (NYSE: ALL) is the nation's largest publicly held personal lines insurer. Widely known through the "You're In Good Hands With Allstate" slogan, Allstate is reinventing protection and retirement to help more than 17 million households insure what they have today and better prepare for tomorrow. Consumers access Allstate insurance products (auto, home, life and retirement) and services through Allstate agencies, independent agencies, and Allstate exclusive financial representatives in the U.S. and Canada, as well as via <http://www.allstate.com/> and 1-800 Allstate®.

HELP YOUR FATHER AND/OR HUSBAND TO HAVE BETTER HEALTH

ONE OF THE THEMES for this issue of CAT deals with fathers. Fathers, husbands and older men in general all have a common health issue, namely, prostate swelling. In medical terms this is known as benign prostate hyperplasia or BPH. As men age the prostate gland swells and this interrupts normal sleep and also means frequent trips to the bathroom. Wouldn't it be nicer to have a balanced happy life without these interruptions? Nature's Sunshine Products has recently released a brand new product called Equolibrum. It is

exclusive to NSP. It is a unique product that has been scientifically formulated and clinically tested for healthy prostate function and urinary flow.

How does it work? Through normal processes, the hormone testosterone is converted to another hormone called dihydrotestosterone or DHT. This happens with the help of 5-alpha reductase enzyme. The converted DHT binds to receptor sites in the prostate gland, encouraging the prostate to grow. This process, while normal and natural, can affect men as prostate growth can impact the urinary system.

NSP's new product Equolibrum contains equol, a molecule that binds directly to DHT, which prevents DHT from attaching to the prostate receptor sites. Equol is unique because no other molecule protects the prostate in this way without triggering side effects (like enzyme-blocking products can).

The results: Equolibrum brings balance. It supports healthy prostate function and urinary flow without side effects. It helps improve sleep duration. It supports healthy prostate cell replication. Nature's Sunshine Products is the exclusive provider of equol for prostate health in the direct sales industry.

Directions are to take one capsule twice a day. Each capsule contains 6 mg. of equol per capsule. Best results are obtained after three to six months of use although we have seen results in just a few days to a week of initial use.

Another product NSP has for men's prostate health is called Men's Formula. This formula improves kidney and prostate function. It has a protective effect against prostate cancer and helps reduce prostate swelling. It may also help with impotency. It contains saw palmetto extract, pygeum extract, lycopene, stinging nettle extract, gotu kola and zinc.

So although this may be a delicate subject to discuss; be assured that the desired results will be much appreciated by any older male relative you may have.

Till next time,

IT'S TIME TO "SUMMER-IZE" YOUR CAR!

ALLSTATE OFFERS TIPS TO HELP YOUR CAR BEAT THE SUMMER HEAT

SUMMER'S SCORCHING HEAT, HIGH HUMIDITY, heavy rain, dust, and stop-and-go traffic can take a toll on a vehicle. New Yorkers can help reduce the chance of mechanical failure by taking a few simple preventative measures to keep rollin' on down the highway – and not end up stranded beside it. Here are some tips to help your car beat the heat:

Air Conditioning

- Before your air conditioning quits cooling, inspect the system for a worn or damaged belt.
- Inspect the condenser fins to be sure they are clear of debris so air can move freely around them.
- Have a professional check your refrigerant level.
- Check your owner's manual for info on replacing cabin air filters (if you have them).

Cooling System: The greatest cause of summer breakdowns is overheating. Overheating can be serious and may result in permanent engine damage.

- Check the radiator and hoses for leaks or cracks and be sure all the connections are snug.
- Check the coolant level. If low, add coolant (antifreeze) as necessary. *A word of caution – To avoid burns from coolant spray, never remove the radiator or coolant reservoir cap until the engine has cooled completely!*

- Check your vehicle's radiator cap for cracks at the start of the summer driving season: The rubber gasket can crack, deform, become damaged or simply hardened.
- Check the cap's metal spring for weakness that may occur over time (most experts advise replacing a radiator cap that is more than five years old).
- Clean out any debris that might have accumulated in the radiator fins.
- Have the cooling system flushed and refilled (check recommended service interval in your owner's manual).
- When driving, monitor the temperature gauge on your dashboard. If you notice it rising beyond "normal" toward the red zone or the engine temperature warning light is on, take immediate action: Turn off A/C, turn on heat to pull hot air from the cooling system and, when safe, pull over to allow engine to cool down.

Engine Performance

- Don't forget to check the gas cap. The gas cap is a critical component of your vehicle's emission control system, and if it isn't airtight it may trigger "check engine" or "emissions service" lights on your dashboard.
- Check gasket around gas cap every time you fill up for cracks or damage, and replace the cap if damaged.

Belts and Hoses: Summer's heat and humidity will worsen the condition of deteriorating belts and hoses. Hose or belt failure could result in a breakdown.

- Visually inspect belts and hoses for excessive wear or damage including

cracks, fraying, leakage or swelling.

- Check hose clamps and retighten as necessary.

Tires

- If you used winter tires, now is the time to change over to your summer tires.
- Have your tires rotated at approximately 5,000 mile intervals or as recommended in your owner's manual.
- Summer heat will cause the air in your tires to expand, so check tire pressure at least monthly while the tires are cold and adjust the pressure. Don't forget to check the spare, too!

Brakes: Hot weather can increase the temperature of your braking system, causing brake pads to wear more quickly.

- If the pads wear through, brake rotors may be severely damaged. The parts and labor cost to replace worn pads is much less expensive than brake rotors.

MIKE'S FISH TANK POND INFO

THIS TIME OF YEAR, a lot of people are having fun with their garden ponds. Some people just have small patio ponds and some people have huge ponds. I guess it all depends on how much room you have. Whether small or big, a garden pond can be a lot of fun and a great hobby

for the whole family. In ponds that are smaller you do not want to overload the pond with fish waste. Goldfish can grow with the size of the surrounding environment. Koi will grow to 30 inches or more. Koi will become fairly destructive to plants as they grow beyond 12 inches.

Koi can add a lot of waste to the pond using up oxygen quickly and adding to the ammonia and nitrite load in the pond. This can cause:

1. Dirty water
2. Algae Blooms
3. Fish death in low oxygen environments during ice cover in winter and hot weather in summer

Once you have a good amount of pond fish, and a healthy balanced eco system, do not add any more fish. Sometimes adding just 1 more fish above what your pond can support can cause a problem which may turn out to be costly.

Fish ponds need not be real deep. 2 feet to 3 feet is good for cool water in the summer and hiding from predators.

Don't build them in a bowl shape, if you need to get in and clean out the pond its nice to have levels to step down. A shallow area is good to view fish. In the Winter if the pond is not deep enough and there is a chance the water may freeze, then bring your fish inside or add a pond heater or bubbler so part of the pond stays unfrozen for the fish.

Some people feed pond fish because they want too, if you dont feed them fish food then they will eat their natural diet of algae and small bug larvae. Larger pond fish may prefer pond pellets where smaller pond fish may prefer pond flakes.

Goldfish (Comets, Sarasa comets), Shubunkins (calico goldfish), Rosey Minnows, and Golden Orfs all make great pond fish in ponds.

Some catfish such as channel cats can also make decent pond fish, as they do not mind the cooler water.

We have lots of nice pond fish in stock.

Pets A Plenty is located in the Blockbuster Video Plaza, Rte 281 Cortland, 753-9213. Open 7 days a week. We now have a website. WWW.PETSAPLENTY.BIZ. check it out. I post care sheets, coupons, new animal arrivals, contests and more. Any questions, email me at friskyy@hotmail.com

"ALL SHOOK UP" DEBUTS AT CORTLAND REPERTORY THEATRE

CORTLAND REPERTORY THEATRE INVITES AUDIENCES to grab their blue suede shoes and get ready to shake things up with their debut production of the rockin' and rollin' musical "ALL SHOOK UP". Performances of this high energy, family-friendly show will run from June 18 - July 5 with evening performances at 7:30. Matinees are available on June 20, 22, 25, 27, 29 and July 2 at 2:00 PM. Tickets may be purchase by calling 800-427-6160 or by visiting the CRT Box Office at 24 Port Watson Street in downtown Cortland. Tickets are also available for sale 24 hours a day through the CRT website at www.cortlandrep.org. Some performances are already sold out, so CRT suggests calling early.

Audiences across the country "can't help falling in love" with this hit musical that is inspired by and features the songs recorded by Elvis Presley. It is 1955 and into a square little town in a square little state rides a guitar-playing roustabout who changes everything and everyone he meets in this hip-swiveling, lip-curling musical fantasy. Based loosely on the comedies of Shakespeare including "Much Ado About Nothing" and "Twelfth Night", the show has audiences jumping to their feet with such classics as "Hound Dog," "Jailhouse Rock," and "Don't Be Cruel."

The show is directed by long-time CRT director Bert Bernardi who has worked on such CRT productions as "The Full Monty", "Grease", and "Joseph and the...Dreamcoat" amongst

many others. Music Director Logan Culwell returns as well, having also worked on "Monty" and "Grease". Choreographer Robin Levine makes her CRT debut.

Starring as Chad, the Elvis-type roustabout, is CRT newcomer Andrew Conners, and Kailey Prior stars as Natalie, the young female mechanic who falls head over heels for him. Playing Natalie's widower father is Thomas Mothershed, and Patrick Brady portrays Dennis, the young inspiring dentist who is smitten with Natalie. The show features two actresses returning to the CRT stage: Debra Thais Evans, who played Mama Morton in CRT's "Chicago" will play Sylvia, the owner of the local "Heartbreak Hotel" bar, and Rebecca McGraw, who has been in CRT's productions of "The Ladies Man", "See How They Run" and "Damn Yankees" will play conservative mayor Matilda Hyde who is out to shut down any kind of rock and roll music wherever it may play. Talented performing interns Jasmine Harris and Will Vickers play Lorraine and Dean, two star-crossed young lovers. Miss Sandra, the local museum curator who also happens to be a knockout is played by Hannah Zilber. Local actor and Cortland High School teacher Bill Lee will be playing the quiet Sheriff Earl. The all-singing, all-dancing ensemble is comprised of Courtney Blackmun, Denzel Edmondson, Joel Pellini, Jordon Silver, Kelsey Thompson, Michaela Vine, Imani Williams, and Anthony Wright.

Stage Manager Elsbeth Turner makes her CRT debut with this show, and leads the design and production team. Jason Bolen returns as Scenic Designer, having created the sets for many CRT shows including "Buddy", "The Full Monty, and "CATS". Costumes are created by long-time CRT Costume Designer Jimmy Johansmeyer. Continuing their work this season are Props Designer Lisa Guild, Lighting Designer Annmarie Dugan and Sound Designer Seth Asa Sengel. Patrick McGovern continues his work at Technical Director and Monica Meyer serves as Assistant Stage Manager. Laura Krouch continues as Company Manager.

CRT continues "Friday Night Talk Backs" at which a Q & A session with the actors, designers and crew takes place after every Friday evening performance. Tickets are also on sale for all of CRT's summer season, which includes "Les Miserables", "Sherlock Holmes and the Case of the Jersey Lily", "Making God Laugh", "Ring of Fire: The Music of Johnny Cash" and the children's show "Alice in Wonderland".

**TOMPKINS COUNTY DAIRY PRINCESS
JULIA FOUTS**

THE DAIRY INDUSTRY HAS POWERFUL impacts on society. My name is Julia Fouts, and I am the Tompkins County Dairy Princess. Living on a dairy farm, it is easy to see the main effects dairy farming has on the world. First off, the milk produced on a farm has nine essential nutrients. These nutrients have immense health benefits, including the prevention of osteoporosis, reducing the risk of cardiovascular disease, and maintaining a healthy immune system. Another positive impact dairy farming has comes from the farmers' environmental stewardship. To reap productive crops, farmers make it one of their top priorities to care for their land, lessening ecological deterioration. Also, dairy farmers use innovative methods for managing nutrients in order to improve water quality and public health. The effects of the dairy industry can be underestimated, so understanding these benefits contributes to a more educated society on the importance of dairy.

HOW DO YOU MAKE THE ULTIMATE TOURING VEHICLE EVEN BETTER? WE FOUND THREE WAYS.

UP TO \$4000 IN REBATES

HIGHER TORQUE. SMOOTHER RIDE. FEWER FILL-UPS. INTRODUCING THE ALL-NEW 2014 SPYDER® RT.

With a new Rotax® 1330 ACE™ high-torque engine and a new 6-speed transmission, the road has never been so inviting. The high-torque response of the ACE engine gives you 40% more low-end torque and now can go up to 252 miles at 62 mph on one tank of gas*. While the new 6-speed transmission provides an incredibly smooth ride for you and your passenger. Add in a unique Y-frame design and 7 automotive technologies, and that rush you feel will be equal parts exhilaration and confidence. [Learn more at 2014SpyderRT.com](http://2014SpyderRT.com).
